Wrigley, 2014-10-17 This volume offers new perspectives on a crucial figure of nineteenth century cultural history the fl neur Recent writing on the fl neur has given little sustained attention to the widespread adaptation of the fl neur outside Paris let alone outside France and indeed Europe whether in the form of historic antecedents modern sequels or contemporary echoes Yet it is clear that the allure of the fl neur s persona has led to its translation and adoption far beyond Parisian boulevards and passages and this in different media and literary genres This volume maps some of the fl neur s travels and transpositions How far the fl neur is dependent on Paris as a milieu is opened up for questioning for all the international dispersal of this idea and model in some sense Paris is always present if only as a reference to kick against or replace When modern fl neurs step out in foreign cities how much of a Parisian ethos clings to them however they might claim independence Cities which provide counterpoints to Paris discussed here are Amsterdam Brussels Dublin Le Havre London Madrid New York Prague and St Petersburg This internationalised view also reconsiders the nature of the fl neur and revises stereotypes based on Walter Benjamin s account of Baudelaire Another key feature is the chapters which analyse the fl neur in terms of visual representations whether graphic illustration streetscapes urban design cinema or album covers related to musical examples from the 1950s to the present Brussels André De Vries, 2003 Popularly evoking images of European power politics and miniature cabbages beer drinking chocolates and French fries Yet Brussels for all its reputation for bureaucracy and extravagance is a city that has always been open to outsiders to invaders and immigrants always preserving its humanity Architecturally rich and culturally sophisticated this European capital defies its stereotypes Ghent Planning Congress 1913 William Whyte, 2013-08-22 The Ghent congress on town planning was the first genuinely international conference to address all aspects of civic life and design Attended by representatives of 22 governments and 150 cities as well as by hundreds of architects planners politicians and scientists it marked the culmination of a series of events which helped to form the world of town planning at the start of the twentieth century Ghent illustrates three key themes for the history of town planning First the transactions of the congress include papers from some of the most significant theorists and practitioners of the period such as Patrick Abercrombie Augustin Rey Raymond Unwin and Joseph St bben Secondly the congress as a whole reflects just how global the business of town planning had become by 1913 papers and exhibits included studies of colonial projects as well as European designs The delegates themselves provide wonderful evidence of a transnational process at work Finally the text brilliantly illuminates the way in which town planning was critically linked to other reformist movements of the era The whole event like the International Union of Cities that it spawned was the product

of the peace movement Even as war draw nearer the International Union was being spoken of as a future world government Significantly one of the organisers of the event Henri La Fontaine won the Nobel Peace Prize in 1913 The Premier Congr s international et exposition compar e des villes is a major publication but it is one that is now almost impossible to obtain This republication a century after this seminal event will be considerable interest not only to those who work on town planning but also transnational historians and writers on the peace movement more generally The Rough Guide to Brussels Martin Dunford,2009-02-02 The Rough Guide to Brussels is the ultimate companion to the beer guzzling capital of Belgium The full colour introduction gives an inspiring insight into many of the city s highlights from the top museums to Brussel s handsome Art Nouveau buildings There are two new full colour sections on the nation s twin passions beer and food plenty of easy to use maps and that essential practical information You ll find dozens of extensive up to the minute reviews for bars shopping entertainment restaurants and hotels of Berlin for every budget With delightful day trips to the neighbouring cities of Bruges Ghent and Antwerp this is your must have item to the cultural and political hotspot of Brussels Make the most of your time with The Rough Guide to Brussels

Theory and Practice in Heritage and Sustainability Elizabeth Auclair,Graham Fairclough,2015-04-22 This book explores cultural sustainability and its relationships to heritage from a wide interdisciplinary perspective By examining the interactions between people and communities in the places where they live it exemplifies the diverse ways in which a people centred heritage builds identities and supports individual and collective memories It encourages a view of heritage as a process that contributes through cultural sustainability to human well being and socially and culturally sensitive policy With theoretically informed case studies from leading researchers the book addresses both concepts and practice in a range of places and contexts including landscape townscape museums industrial sites every day heritage ordinary places and the local scene and even UNESCO designated sites The contributors most of whom like the editors were members of the COST Action Investigating Cultural Sustainability demonstrate in a cohesive way how the cultural values that people attach to place are enmeshed with issues of memory identity and aspiration and how they therefore stand at the centre of sustainability discourse and practice The cases are drawn from many parts of Europe but notably from the Baltic and central and south eastern Europe regions with distinctive recent histories and cultural approaches and heritage discourses that offer less well known but transferable insights They all illustrate the contribution that dealing with the inheritance of the past can make to a full cultural engagement with sustainable development The book provides an introductory framework to guide readers and a concluding section that draws on the case studies to emphasise their transferability and specificity and to outline the potential contribution of the examples to future research practice and policy in cultural sustainability This is a unique offering for postgraduate students researchers and professionals interested in heritage management governance and community participation and cultural sustainability *The Rough Guide to Belgium & Luxembourg: Travel Guide eBook* Rough Guides,2024-09-01 This Belgium Luxembourg guidebook is perfect for
