Sin and Evil Ramón Martínez de Pisón L., 2002

Social Control in Europe Herman Roodenburg, 2004 This two volume collection of essays provides a comprehensive examination of the idea of social control in the history of Europe The uniqueness of these volumes lies in two main areas First the contributors compare methods of social control on many levels from police to shaming church to guilds Second they look at these formal and informal institutions as two way processes Unlike many studies of social control in the past the scholars here examine how individuals and groups that are being controlled necessarily participate in and shape the manner in which they are regulated Hardly passive victims of discipline and control these folks instead claimed agency in that process accepting and resisting and thus molding the controls under which they functioned In both volumes an introduction outlines the origins and the continuing value of the concept of social control The

introductions are followed by two substantive sections. The essays in part one of volume I focus on the interplay of ecclesiastical institutions and the emerging states; those in part two of volume I look more explicitly at discipline from a bottom up perspective. The essays in part one of volume 2 explore the various means by which communities generally working class communities in nineteenth and twentieth century Europe were subjected to forms of discipline in the workplace by the church and by philanthropic housing organizations. It notes also how the communities themselves generated their own forms of internal control. Part two of volume 2 focuses on various policing institutions exploring in particular the question of how liberal and totalitarian regimes differed in their styles of control, repression and surveillance.

Social Identity Stephen Worchel, 1998-03-28 Social identity and social categorization theories have offered some of the most exciting developments in social psychology informing work on everything from intergroup relations to personal identity. This comprehensive book surveys the latest empirical and theoretical findings alongside original contributions to provide an invaluable overview of this important field. The internationally renowned contributors explore a broad range of psychosocial phenomena including intergroup discrimination, influence, group polarization, collective behaviour, impact of minorities, prejudice, stereotypes and leadership.

Biografies invisibles / Invisible Biographies Vicent Josep Escartí, 2021-09-15

Biografies invisibles Marginats i marginals s'un volum que cont una s'rie d'estudis de casos concrets de personatges històrics desconeixuts en gran mesura i que pel fet d'haver tingut unes vides al marge de la llei en moltes ocasions no s'han actualment coneguts. També sobre personatges literaris que encarnen aquelles opcions no majoritàries i encara reflexions més genèriques sobre aquells grups o sobre els textos que ens han transmès aquelles realitats.

Biografies invisibles Marginats i marginals cont quasi una vintena de treballs de reconeixuts especialistes de diferents universitats europees que han analitzat casos de dones marginades homosexuals i d'altres personatges marginals des de l'època actual. Es tracta de retornar-los la veu que un dia la societat on van viure els va negar.

Invisible Biographies Marginates and marginals is a volume that contains a series of specific case studies of largely unknown figures from the past who because of their lives on the fringes of the law on many occasions were silenced. Also on literary characters who embody those non majority options and in addition more generic reflections on those groups or on the texts that have transmitted to us those polyhedral realities.

Invisible Biographies Marginates and marginals contains almost twenty works by renowned specialists from different European universities who have analysed the cases of marginalized women, Jews, homosexuals and other persecuted characters from a contemporary perspective. The aim is to give them back the voice that the society in which they lived once denied them.

Une histoire du paradis Jean Delumeau, 2014-04-01 Si notre fin de siècle est marqué par le pessimisme, l'histoire de la chrétienté tient à l'impression par le millénarisme plus profondément qu'on ne le croit d'ordinaire. Nombreux en effet furent ceux qui crurent que le Christ reviendrait sur terre et y règnerait pendant mille ans auprès des justes, ressuscités. Les hommes enfin vivraient heureux. Le diable, la mort, le péché, l'enfer s'évanouiraient. Cette croyance qui s'

appuyait sur des prophéties de l'Ancien Testament et sur l'Apocalypse de saint Jean fut combattue par saint Augustin. Mais elle réapparut la fin du XII^e siècle sous la plume du moine calabrais Joachim de Flore dont les visions prophétiques se répandirent dans toute l'Europe. Au fil des siècles le millénarisme refit surface sous de multiples formes. Thomas Muntzer, Jean de Leyde, Campanella et Jurieu, entre autres, voquèrent cet avenir radieux qui pour les uns s'instaurerait par la violence et pour les autres se réaliserait dans la paix. Christophe Colomb espérait tendre ce royaume chrétien des derniers jours la terre entière. Les Puritains qui s'établirent en Amérique du Nord dans les années 1620 voulaient faire de cette partie du monde le centre du royaume du Christ et cet espoir a toujours été une des composantes de l'identité américaine. Les attentes millénaristes se laissent peu à peu pour rejoindre l'idéologie du progrès. Priestley attendait mille ans de bonheur la suite de la Révolution française. Et c'est bien la tradition millénariste qui inspirait encore Pierre Leroux, inventeur du mot socialisme, lorsqu'ilcrivait. Le royaume du Christ est promis sur la terre. Après Une histoire du Paradis, le Jardin des délices, Jean Delumeau, membre de l'Institut et professeur honoraire au Collège de France, continue ici sa grande enquête sur les rêves de bonheur de l'Occident chrétien. Auparavant, il en avait exploré les angoisses. La Peur en Occident. Le Peuple et la Peur et leurs remèdes. Rassurer et protéger. L'Aveu et le Pardon. *Approche de la Sécurité Par la Cohésion Sociale : Déconstruire la Peur (des Autres) en Allant Au-delà Des Stéréotypes*. Council of Europe, 2005-01-01. Ce volume contient des pistes de réflexion concernant deux questions relatives aux effets du sentiment d'insécurité sur la cohésion sociale : pourquoi la société européenne d'aujourd'hui porteuse dans son patrimoine des gènes de la solidarité et d'identité collective est-elle confrontée à une demande sécuritaire pouvant parfois paraître irrationnelle ? Y a-t-il des moyens institutionnels et politiques pour construire ces sentiments d'insécurité et la peur qui s'installe dans nos sociétés parallèlement à la mondialisation ? Les textes présentent et invitent à éviter de stigmatiser, de criminaliser, de ghettoiser, de désigner des boucs émissaires et lancent un appel à rechercher les voies qui permettront de construire la peur d'autrui qui cloisonne et d'ouvrir nos sociétés à des initiatives menant à la mondialisation de la solidarité dans la reconnaissance des droits de tous au-delà de tout stéréotype. **Géographie de la France criminelle**. Alain Bauer, 2006-04-21. En France, le crime est sujet des polémiques permanentes. Moins on en sait et plus on en parle fort. Il faut donc temps de donner aux citoyens, aux décideurs et ceux qui agissent sur l'opinion, un outil de compréhension de la réalité criminelle en utilisant les moyens cartographiques modernes. Plus qu'une simple présentation des éléments connus, ce livre fournit également d'importants outils de comparaison avec d'autres indicateurs économiques, sociaux, médicaux, etc., permettant de sortir du flou et des polémiques d'usage. Fruit de cinq années de recherches illustrées par 500 cartes réalisées grâce aux archives officielles, souvent inédites du ministère de l'Intérieur et d'autres administrations, cette Géographie de la France criminelle donne pour la première fois une vision panoramique de la criminalité en France et permet ainsi l'analyse précise des phénomènes criminels et de leurs évolutions. Criminologue consultant et président du Conseil d'orientation de l'Observatoire national de la délinquance, Alain Bauer enseigne dans des universités et grandes écoles françaises et étrangères.
