,2002 **Gardening from the Ground Up** Stanley Schuler,1968 *From the Ground Up* Amy Stewart,2025-04-08 A treasure trove of delightful stories filled with wit wisdom and know how for all gardens a rare horticultural treat Carl H Klaus author of *My Vegetable Love* and *Weathering Winter* Amy Stewart had a simple dream She yearned for a garden filled with colorful jumbles of vegetables and flowers After she and her husband finished graduate school they pulled up their Texas roots and headed west to Santa Cruz California With little money in their pockets they rented a modest seaside bungalow with a small backyard It wasn't much a twelve hundred square foot patch of land with a couple of fruit trees and a lot of dirt A good place to start *From the Ground Up* is Stewart's quirky humorous chronicle of the blossoms and weeds in her first garden and the lessons she's learned the hard way From planting seeds her great grandmother sends to battling snails gophers and aphids Stewart takes us on a tour of four seasons in her coastal garden Confessing her sins and delighting in small triumphs she dishes the dirt for both the novice and the experienced gardener Along the way she brings her quintessential California beach town to life complete with harbor seals monarch butterfly migrations and an old fashioned seaside amusement park just down the street Each chapter includes helpful tips alongside the engaging story of a young woman's determination to create a garden in which the plants struggle to live up to the gardener's vision **The Rapture: From the Ground Up** Richard L. Guthrie,2014-04 The Pre Tribulational Rapture theory of the end times is the most prevalent and well known end time scenario of the Bible It is well entrenched and established in most fundamental churches The Pre Tribulational Rapture has been popularized by the Left Behind book and movie series However consider the following What if the blessed hope was not a promise of the Rapture What if the wrath the Church was not appointed to had nothing to do with the Tribulation What if the Rapture is not and cannot be an imminent event What if the Antichrist will not and cannot rule over the entire world What if the Church is not missing during any portion of the book of Revelation What if the falling away in 2 Thessalonians 2:3 is only a reference to the end time apostasy of the Church predicted by Jesus What if only unbelievers enter into the Millennial Kingdom What if Enoch is no more a representation of a Pre Tribulational Rapture than Elijah is a representation of a Post Tribulational Rapture What if the time at which both the Rapture and the Second Coming will occur is unknown What if Jesus Paul and Daniel presented the exact same end time scenario What if a literal interpretation of Scripture reveals a Post Tribulational Rapture In a detailed and thorough analysis of Scripture *The Rapture From the Ground Up* explores these and many more questions related to the end time events surrounding the Rapture in a step by step approach This eschatological study is unsurpassed in detail for the knowledgeable Bible student and yet remains basic simple and straightforward for the novice Using a literal interpretation of Scripture the Post Tribulational Rapture is the undeniable result of such a diligent and literal study of God's Word **From the Ground Up** Alison Sant,2022-01-11 For decades American cities have experimented with ways to remake themselves in response to climate change These efforts often driven by grassroots activism offer valuable lessons for transforming the places we live In *From the Ground Up* Local

Efforts to Create Resilient Cities design expert Alison Sant focuses on the unique ways in which US cities are working to mitigate and adapt to climate change while creating equitable and livable communities She shows how from the ground up we are raising the bar to make cities places in which we don't just survive but where all people have the opportunity to thrive The efforts discussed in the book demonstrate how urban experimentation and community based development are informing long term solutions Sant shows how US cities are reclaiming their streets from cars restoring watersheds growing forests and adapting shorelines to improve people's lives while addressing our changing climate The best examples of this work bring together the energy of community activists the organization of advocacy groups the power of city government and the reach of federal environmental policy Sant presents 12 case studies drawn from research and over 90 interviews with people who are working in these communities to make a difference For example advocacy groups in Washington DC are expanding the urban tree canopy and offering job training in the growing sector of urban forestry In New York transit agencies are working to make streets safer for cyclists and pedestrians while shortening commutes In San Francisco community activists are creating shoreline parks while addressing historic environmental injustice From the Ground Up is a call to action When we make the places we live more climate resilient we need to acknowledge and address the history of social and racial injustice Advocates non profit organizations community based groups and government officials will find examples of how to build alliances to support and embolden this vision together Together we can build cities that will be resilient to the challenges ahead

Leadership from the Ground Up Michele A. Acker-Hocevar,Marta I. Cruz-Janzen,Cynthia L. Wilson,2012-01-01 This book chronicles the journey of seven schools serving students of poverty English Language Learners ELLs and students of color which were able to sustain school improvement for a decade on either state and or national criteria that measure student performance outcomes The book shares stories of these seven schools and demonstrates that it takes an entire school working together with their communities adding to the social and cultural capital of their students and families to create and

nurture what we call a Learning Partnership for sustainable school improvement The answers for how these schools sustained school improvement and are effective schools is evident from their school student metrics that validate the school s ability to meet and sustain external mandates of high performance over time The seven individual case stories illustrate that what matters most is what happens in the school itself It is the internal culture of caring and respecting each other and working from an additive perspective of valuing students for their unique gifts and abilities rather than exclusively focusing on increasing test scores that makes these school stories unique This is not about heroic leadership but leadership spread out and shared among professionals working together to achieve common goals around shared values and beliefs This book is about using resources in ways that value human capital as the greatest asset in the school to ensure that educators feel a sense of commitment connection and passion for their work together with students their families and their communities that enable them to excel together We offer readers seven cases that demonstrate there is no cookie cutter approach to having an effective school Rather there is a theory in practice that grounds the Learning Partnership depicted as a tree within a sustainable school improvement culture This sustainable culture connects shared leadership and accountability resourcefulness a humanistic philosophy additive schooling and results in an organization synergy that sustains organizational and collective efficacy for achieving results in these schools that other educators in schools with similar demographics are often unable to sustain or attain
