Language And Solitude Wittgenstein Malinowski And The Habsburg Dilemma:

Language and Solitude Ernest Gellner, 1998-10-28 Ernest Gellner's final book first published in 1998 is a synoptic interpretation of the thought of Wittgenstein and Malinowski. Language and Solitude Ernest Gellner, 1998 Ernest Gellner's last book focuses on two key figures of the twentieth century Wittgenstein and Malinowski showing how the thought of both men grew from a common intellectual and social background epitomising his belief that philosophy is about important historical social and personal issues. **Anthropology Beyond Culture** Richard G. Fox, Barbara J. King, 2020-05-18 Culture is a vexed concept within anthropology. From their earliest studies anthropologists have often noted the emotional attachment of people to their customs even in cases where this loyalty can make for problems. Do anthropologists now suffer the same kind of disability with respect to their continuing emotional attachment to the concept of culture? This book considers the state of the culture concept in anthropology and finds fault with a love it or leave it attitude. Rather than pledging undying allegiance or summarily dismissing it the volume argues that anthropology can continue with or without a concept of culture depending on the research questions being asked and furthermore that when culture is retained no single definition of it is practical or necessary. Offering sensible solutions to a topic of hot debate this book will be essential reading for anyone seeking to learn what a concept of culture can offer anthropology and what anthropology can offer the concept of culture. **Nationalism and Social Theory** Gerard Delanty, Patrick J. O'Mahony, Patrick O'Mahony, 2002-05-16 A perennial subject for sociologists nationalism the focus of this study is persistent not merely because of its specific ideological appeal but because it expresses some of the major conflicts in Western social development. *Proceedings of the British Academy, Volume 120, Biographical Memoirs of Fellows, II* British Academy, 2003-12-18 Volume 120 of the Proceedings of the British Academy contains 25 obituaries of recently deceased Fellows of the British Academy. *Redeeming Anthropology* Khaled Furani, 2019-09-12 Anthropologists have invariably engaged in their discipline as a form of redemption whether to escape from social restriction nourish their souls reform their home polities or vindicate the natives. *Redeeming Anthropology* explores how in pursuit of a secular science sired by the Enlightenment adherents to a faith in mankind have vacillated between rejecting and embracing theology albeit in concealed and contradictory ways. Mining the biographical registers of the American British and French anthropological traditions Khaled Furani argues that despite all efforts to the contrary theological sediments remain in this disciplining discipline. Rather than continuing to forget deny and sequester it theology can serve as a mirror for introspection as a source of critique offering invaluable tools for revitalization for thinking anew not only anthropology's study of others cultures but also its very own reason. **The African State in a Changing Global Context** István Tarrósy, Loránd Szabó, Göran Hydén, 2011 During the first 25 years of independence the African state was largely driven from within by the ambition to establish political order in a world where national sovereignty over issues of development was not in question. The theme of this book is that more is at stake today than in the past. Reconstructing

Karl Polanyi Gareth Dale, 2016-09-20 Shortlisted for the Deutscher Memorial Prize 2017 Karl Polanyi's contribution to political economy and social science is immeasurable In *Reconstructing Karl Polanyi* Gareth Dale foremost scholar and biographer of Polanyi provides a sweeping survey of his contributions to the social sciences An opponent of traditional economics and a believer in economics contingency to society and culture Polanyi's work has a cross disciplinary appeal finding popularity in anthropology economic history economic sociology and political science Paradoxical formulations such as liberal socialist and cosmopolitan patriot are often used to describe Polanyi's intellectual and political vision In exploring these paradoxes Dale draws upon original writings and transcripts to reconstruct Polanyi's views on a range of topics long neglected in critical literature including the history of antiquity the evolution and dynamics of Stalin's Russia McCarthyism and Polanyi's critical dialogue with Marxism Accompanying the reconstruction of his work is Dale's analysis of Polanyi's relevance to current issues notably the clash between democracy and capitalism and the nature and trajectory of European unification This proves an indispensable critical guide to Polanyian thought **Embedded Thinking** Zsuzsanna

Kondor, 2008 The new devices of communication that have recently been emerging have far reaching effects not only on our everyday lives but also on our cognitive patterns they lead us back again into the world of multimodality and call attention not incidentally to the widening gap between everyday experience and the traditional convictions of philosophy Traditional philosophical inquiries are seen in a new light when viewed from the perspective of communications technology From that perspective it becomes clear that a radical turn has become inevitable in the field of metaphysics and epistemology This volume attempts to provide building blocks for the new edifice of philosophy towards which that turn is leading Fifty Key Thinkers on Religion Gary Kessler, 2013-03-01 *Fifty Key Thinkers on Religion* is an accessible guide to the most important and widely studied theorists on religion of the last 300 years Arranged chronologically the book explores the lives works and ideas of key writers across a truly interdisciplinary range from sociologists to psychologists Thinkers covered include Friedrich Nietzsche James Frazer Sigmund Freud Emile Durkheim Ludwig Wittgenstein Mary Douglas Talal Asad Søren Kierkegaard Providing an indispensable one volume map of our understanding of religion in the west the book is fully cross referenced throughout and provides authoritative guides to important primary and secondary texts for students wishing to take their studies further **The Bologna Process in Central and Eastern Europe** Tamás Kozma, Magdolna

Rébay, Andrea Óhidy, Éva Szolár, 2013-11-27 The Bologna Process opened a new chapter in the history of the European higher education The idea of a common European Higher Education Area was developed in Western Europe and accelerated increasingly there in the second half of the 20th century as a phenomenon of globalization For the post communist states in Eastern Europe the complete change of the political system made it possible to join the European Union and the Bologna Process These changes had an impact not only on the educational policies but also on the educational system and the educational culture as well This book shows the changes in the higher education of ten countries in Central and Eastern

Europe The country studies are supplemented with an international and a historical comparative analysis to point out the special features of the implementation of the Bologna aims in the region

The Afterlife of Austria-Hungary Adam Kozuchowski, 2014-07-19 The assassination of Archduke Franz Ferdinand in 1914 was just one link in a chain of events leading to World War I and the downfall of the Austro-Hungarian empire By 1918 after nearly four hundred years of rule the Habsburg monarchy was expunged in an instant of history Remarkably despite tales of decadence ethnic indifference and a failure to modernize the empire enjoyed a renewed popularity in interwar narratives Today it remains a crucial point of reference for Central European identity evoking nostalgia among the nations that once dismembered it The Afterlife of Austria-Hungary examines histories journalism and literature in the period between world wars to expose both the positive and the negative treatment of the Habsburg monarchy following its dissolution and the powerful influence of fiction and memory over history Originally published in Polish Adam Kozuchowski's study analyzes the myriad factors that contributed to this phenomenon Chief among these were economic depression widespread authoritarianism on the continent and the painful rise of aggressive nationalism Many authors of these narratives were well-known intellectuals who yearned for the high culture and peaceable kingdom of their personal memory Kozuchowski contrasts these imaginaries with the causal realities of the empire's failure He considers the aspirations of Czechs Poles Romanians Hungarians and Austrians and their quest for autonomy or domination over their neighbors coupled with the wave of nationalism spreading across Europe Kozuchowski then dissects the reign of the legendary Habsburg monarch Franz Joseph and the lasting perceptions that he inspired To Kozuchowski the interwar discourse was a reaction to the monumental change wrought by the dissolution of Austria-Hungary and the fear of a history lost Those displaced at the empire's end attempted through collective and selective memory to reconstruct the vision of a once great multinational power It was an imaginary that would influence future histories of the empire and even became a model for the European Union

How Skeptics Do Ethics Aubrey Neal, 2007 Enlightenment philosophers are often credited with formulating challenging theories about humankind and society and in our postmodern age we still live with some of the very same compelling contentious and often unresolved questions they posed Aubrey Neal suggests that one such issue that still lingers today is skepticism and in How Skeptics Do Ethics he unravels the thread of this philosophy from its origins in Enlightenment thinking down to our present age Neal contends that in our increasingly complicated world we face unique moral challenges and that modern ethics has not kept pace with modern life The traditional language of moral introspection does not translate adequately into such contexts as politics public service and the global economy Referencing such luminary thinkers as Hume Kant Hegel and Wittgenstein Neal seeks to re-ignite age-old questions and challenge the meaning of traditional philosophical debates and their value for our society today

Integrationism and the Self Christopher Hutton, 2019-04-10 In recent years a set of challenging questions have arisen in relation to the status of animals their treatment by human beings their cognitive abilities and the nature of their feelings

emotions and capacity for suffering This ground breaking book draws from integrational semiology to investigate arguments around the rights of certain animals to be recognized as legal persons thereby granting them many of the protections enjoyed by humans In parallel with these debates the question of the legal personality of artificial intelligence AI systems has moved to the forefront of legal debate with entities such as robots cyborgs self driving cars and genetically engineered beings under consideration Integrationism offers a framework within which the wider theoretical and practical issues can be understood Law requires closure and categorical answers integrationism is an open ended form of inquiry that is seen as removed from particular controversies This book argues that the two domains can be brought together in a challenging and productive synthesis A much needed resource to examine the heart of this fascinating debate and a must read for anyone interested in semiology linguistics philosophy ethics and law The Open Access version of this book available at www.taylorfrancis.com has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Jorge Luis**

Borges, Post-Analytic Philosophy, and Representation Silvia G. Dapía, 2015-08-20 Making an important contribution to studies in Literature and Philosophy this book reads Jorge Luis Borges philosophically particularly in reference to his use of representation and reality Rather than attempting to subordinate Borges to a set of philosophical constructs to reduce Borges texts to mere exemplifications or illustrations of philosophical theories the book uses Borges's short stories to demonstrate how philosophical questions related to representation develop out of literature and actually serve as precursors to the various strains of post analytic philosophy that later developed in the United States The volume discusses American post analytic philosophers Richard Rorty Hilary Putnam Donald Davidson Nelson Goodman and Arthur Danto as well as a wide ranging set of philosophical ideas including reflections on Keynes Hayek Schopenhauer and many others Chapters offer detailed readings of Borges texts extending from 1939 to 1983 locating where he thematizes issues of representation and pursuing the logic of Borges's text toward its philosophical implications without neglecting their literary value The book argues that Borges exploration of the relationship between representation and reality places him unmistakably in the position of a precursor to the post analytic philosophers Illuminating the role that language plays in the creation of reality and representation this volume makes significant contributions not only to Borges scholarship but also post structuralism post analytic studies of language semiotics comparative literature and Latin American literature *I Am Your Dust* Gali Drucker Bar-Am, 2024-11-05 Israel's cultural space is frequently studied as if it were synonymous with the Hebrew Israeli one But within the borders of Israel a fascinating culture was and continues to be created in many languages other than Hebrew reflecting its reality from angles that the makers of Hebrew Israeli culture did not know and all too often lacked the tools to express *I Am Your Dust* Representations of the Israeli Experience in Yiddish Prose 1948-1967 expands the boundaries of current studies of Israel's cultural history by presenting and analyzing Yiddish Israeli prose written during the country's first two decades as an independent state It offers a comprehensive study of that unique and hitherto little understood literature a

detailed historical documentation of the contexts of its production and an eye opening comparison of its themes to the more familiar outputs of Hebrew Israeli prose *I Am Your Dust* is the first socioliterary investigation of Yiddish Israeli culture and it explores how Yiddish Israeli writers played a vital role in shaping the country's cultural identity in its early years *Jacob & Esau* Malachi Haim Hacohen, 2019-01-10 Accommodates both the cosmopolitan narrative of the Jewish diaspora with traditional Jews and their culture *The Eloquence of Ghosts* Florian Mussgnug, 2010 Giorgio Manganelli 1922-1990 one of Italy's most radical and original writers went further than most in exploring the creative possibilities of hybrid genres and open forms Ostentation theatricality and a love of drapery and verbal excess are defining features of his body of work which ranges from prose fiction literary criticism and drama to travel writing treatises commentaries and imaginary interviews This study examines the wealth of Manganelli's imagination his grotesque animals speaking corpses and melancholy spectres and argues that his spectacular eloquence was shaped by an exceptional awareness of literary and philosophical models Following Manganelli's lead the author addresses issues such as the boundaries of meaningful language the relationship between literary and visual texts fantasy and realism and the power of literature to express the apprehensions and intimations of human consciousness *Touching Photographs* Margaret Olin, 2012-04-18 Photography does more than simply represent the world It acts in the world connecting people to form relationships and shaping relationships to create communities In this beautiful book Margaret Olin explores photography's ability to touch us through a series of essays that shed new light on photography's role in the world Olin investigates the publication of photographs in mass media and literature the hanging of exhibitions the posting of photocopied photographs of lost loved ones in public spaces and the intense photographic activity of tourists at their destinations She moves from intimate relationships between viewers and photographs to interactions around larger communities analyzing how photography affects the way people handle cataclysmic events like 9/11 Along the way she shows us James VanDerZee's Harlem funeral portraits dusts off Roland Barthes's family album takes us into Walker Evans and James Agee's photo-text *Let Us Now Praise Famous Men* and logs onto online photo albums With over one hundred illustrations *Touching Photographs* is an insightful contribution to the theory of photography visual studies and art history **Anthropology and the Cognitive Challenge** Maurice Bloch, 2012-06-28 One of the world's most distinguished anthropologists proposes that cognitive science enriches rather than threatens the work of social scientists
