

A Student's Guide to Laplace Transforms

DANIEL FLEISCH

$$F(s) = \int_{-\infty}^{\infty} f(t)e^{-st} dt$$
A 3D wireframe plot of a function with two sharp peaks, overlaid with the Laplace transform equation. The plot is rendered in a dark blue color against a teal background. The peaks are located at approximately x=400 and x=800, with the right peak being significantly higher than the left one. The function decays towards zero as x moves away from these peaks. The equation $F(s) = \int_{-\infty}^{\infty} f(t)e^{-st} dt$ is written in a red, serif font across the middle of the image, partially overlapping the peaks of the 3D plot.
