The object now is to pull this metal bulk tray up and away from the screen to wrap out the bulk. There will be a few things you will have to do before simply lifting this metal/aluminum tray away from the screen.

In the above photo, the red arrow shows the metal bulk tray and the blue arrow shows you will be sliding it outward to remove, after you have the LCD wires.

Remove any tape that is securing the LCD bulk plug wires to the screen bottom side (usually a piece of this yellow tape). You should now see a white tab that the wires track through. This wire-white tab holder is attached to a thin plastic rail that runs horizontal along the top front of the screen.
