## **Larb Quarterly Journal Fall 2013:**

**City at the Edge of Forever** Peter Lunenfeld, 2020-08-11 An engaging account of the uniquely creative spirit and bustling cultural ecology of contemporary Los Angeles How did Los Angeles start the 20th century as a dusty frontier town and end up a century later as one of the globe's supercities with unparalleled cultural economic and technological reach In *City at the Edge of Forever* Peter Lunenfeld constructs an urban portrait layer by layer from serendipitous affinities historical anomalies and uncanny correspondences In its pages modernist architecture and lifestyle capitalism come together via a surfer girl named Gidget Joan Didion's yellow Corvette is the brainchild of a car crazy Japanese American kid interned at Manzanar and the music of the Manson Family segues into the birth of sci fi fandom One of the book's innovations is to brand Los Angeles as the alchemical city Earth became real estate when the Yankees took control in the nineteenth century Fire fueled the city's early explosive growth as the Southland's oil fields supplied the inexhaustible demands of drivers and their cars Air defined the area from WWII to the end of the Cold War with aeronautics and aerospace dominating the region's industries Water is now the key element and Southern California's ports are the largest in the western hemisphere What alchemists identify as the ethereal fifth element or quintessence this book positions as the glamour of Hollywood a spell that sustains the city but also needs to be broken in order to understand Los Angeles now Lunenfeld weaves together the city's art architecture and design juxtaposes its entertainment and literary histories and moves from restaurant kitchens to recording studios to ultra secret research and development labs In the process he reimagines Los Angeles as simultaneously an exemplar and cautionary tale for the 21st century

**Los Angeles Review of Books - Quarterly Journal** Marjorie Perloff, Tom Bissell, Maria Bustillos, Jacob Mikanowski, Rachel Kaadzi Ghansah, 2013-10-15 The Los Angeles Review of Books launched in April of 2011 as a humble Tumblr with a 2600 word essay by Ben Ehrenreich entitled *The Death of the Book* The gesture was a bit tongue in cheek but we meant it to be provocative and to ask a genuine question Was the book dying Was the internet killing it Or were we simply entering a new era a new publishing ecosystem where different media could coexist Since then we've been enormously gratified by the response that LARB has generated from readers writers academics editors publishers We are a community of writers critics journalists artists filmmakers and scholars dedicated to promoting and disseminating the best that is thought and written with an enduring commitment to the intellectual rigor the incisiveness and the power of the written word Today we've created a new institution for writers and readers that is unlike anything else on the web Our new LARB Quarterly Journal reflects the best that this institution has to bring to readers all over the world One question these people have continually asked us though is When are you going to put out a print edition Even though we've been and remain committed to the internet as both a space of conversation and a place of commerce we've always wanted to have something physical tangible to be able to show for our work We never really believed that books would die or magazines either The LARB website currently publishes a minimum of two rigorously edited pieces a day and we've

cultivated a stable of regular contributors both eminent Jane Smiley Mike Davis Jonathan Lethem and emerging Jenny Hendrix Colin Dickey Rachel Kaadzi Ghansah We've found our way to a certain tone that readers expect and enjoy looser and more eclectic than our namesakes the New York and London Review of Books grounded in literature but open to all varieties of cultural experience far from the New York publishing hothouse atmosphere but not myopically focused on L.A. either The new LARB print quarterly will build on the best aspects of the current website As we do now we'll publish book reviews that strive to do something more than recommend or discourage a purchase we're most interested in pieces that push the form of the book review into other genres such as memoir polemic or short story We are excited to explore the possibilities of this new format and feel confident that the audience we've attracted over the past two years on the web will follow us We know that our peers at Harper's Bookforum n.1 The Believer and the New York and London Review of Books all of whom have expressed support and goodwill for this latest venture welcome a new voice from the West as will subscribers The long form literary and cultural arts review is alive and well and now has a new home in Los Angeles

**Democratic Anarchy** Matthew Scully, 2024-07-02 A dramatic and necessary rethinking of the meaning of Democracy Democratic Anarchy grapples with an uncomfortable but obvious truth inimical to democracy both aesthetics and politics depend on the structuring antagonism of inclusion and exclusion Yet in Democratic Anarchy Matthew Scully asks how can the people be represented in a way that acknowledges what remains unrepresentable What would it mean to face up to the constitutive exclusions that haunt U.S. democracy and its anxious fantasies of equality Synthesizing a broad range of theoretical traditions and interlocutors including Lacan Rancière Edelman and Hartman Democratic Anarchy polemically declares that there has never been nor can there ever be a realized democracy in the U.S. because democracy always depends on the hierarchical institution of a formal order by one part of the population over another Engaging with an expansive corpus of American literature and art Harriet Jacobs Nathaniel Hawthorne Louis Zukofsky Thomas Pynchon Toni Morrison Theresa Hak Kyung Cha Nari Ward Ocean Vuong and Safiya Sinclair Democratic Anarchy argues that many liberal concepts and institutions are in fact structurally opposed to democratic equality because they depend on regulating what can appear and in what form By focusing on works that disrupt this regulatory impulse Scully shows how rhetorical strategies of interruption excess and disorder figure the anarchic equality that egalitarian fantasies of democracy disavow Democratic Anarchy develops a rigorous theory of equality that refuses to repeat the inequalities against which it positions itself and it does so by turning to moments of resistance both aesthetic and political inaugurated by the equality that inheres in and antagonizes the order of things

**Interrogating Neoliberalism and Cruel Optimism in Education** Louise Azzarello, 2025-03-31 This book is a philosophical examination of the ways in which neoliberalism underpins and impedes public education It proposes that education's adoption of neoliberal logic generates a sense of despair amongst educators who often enter the profession with the hope of building a better more just world Drawing on the author's 27 years of experience as a secondary classroom

teacher and engaging with a range of theoretical concepts cultural objects and scenes of violence from her time in the classroom The Radical Potency of Despair renders visible the ongoing harms that neoliberal logic creates for education and educators The author proposes a new ruptured fantasy of education and suggests that it is not hope that ignites educators who keep fighting for education but rather despair Despair is conceived of as a generative force provoking educators to hold time and space open for pedagogical encounters that interrupt the ongoing instrumentalization of education The author further conceptualizes a notion of thinking with images as a pedagogical interruptive force Thinking with images she argues gives students time and space to attend to what they see thus affording them the chance to think differently about the violence of modern society Such pedagogical interruptions are presented as a refusal of the normative order of education countering present infrastructures that aim to constrain and instrumentalize education A compelling and original volume it will appeal to scholars researchers and upper level students with interests in neoliberalism and education the philosophy of education critical pedagogy and educational policy and politics

**Los Angeles Review of Books - Quarterly Journal Fall**

**2015** Tom Lutz, 2016-01-19 The Los Angeles Review of Books Quarterly Journal No Crisis issue considers the state of critical thinking and writing literary interpretation art history and cultural studies in the 21st century The last several years have been an era of crisis for the academic humanities traditionally the home of the interpretive disciplines Across the system of education in the United States there are in fact many crises For our part we see the crisis as the effect of economic and administrative decisions not a failure of ideas So we asked a group of eminent critics to choose a recent critical text and to write about why it matters not to coolly evaluate it but to stand and think with a critic whose writing they value The essays produced are works of criticism in themselves in them and with No Crisis we hope to show that the art of criticism is flourishing rich with intellectual power and sustaining beauty in hard times

**The Digital Humanities Coursebook**

Johanna Drucker, 2021-03-24 The Digital Humanities Coursebook provides critical frameworks for the application of digital humanities tools and platforms which have become an integral part of work across a wide range of disciplines Written by an expert with twenty years of experience in this field the book is focused on the principles and fundamental concepts for application rather than on specific tools or platforms Each chapter contains examples of projects tools or platforms that demonstrate these principles in action The book is structured to complement courses on digital humanities and provides a series of modules each of which is organized around a set of concerns and topics thought experiments and questions as well as specific discussions of the ways in which tools and platforms work The book covers a wide range of topics and clearly details how to integrate the acquisition of expertise in data metadata classification interface visualization network analysis topic modeling data mining mapping and web presentation with issues in intellectual property sustainability privacy and the ethical use of information Written in an accessible and engaging manner The Digital Humanities Coursebook will be a useful guide for anyone teaching or studying a course in the areas of digital humanities library and information science English or
