Authentic Knowing Imants Barušs,1996 What is the meaning of life Where does everything come from Why is anything In Authentic Knowing Imants Baruss shows us how we might transform ourselves so that we can come closer

to answering these existential questions Baruss argues persuasively that our knowledge is limited by the interpretations of experiences provided by the society around us These include the materialistic explanations belonging to a traditional scientific worldview which can account for neither the nature of matter nor anomalous phenomena such as near death experiences However authenticity the effort to act on the basis of one's own understanding can form the basis for answers to existential and scientific questions **Choice** ,1995 **Secrets of Modern Witchcraft Revealed** Lady Sabrina,2000-06 Lady Sabrina shows how to cast spells for love money personal success and renewed health **The Firstborn of God** Gail Allison Evans,2000-05-20 The Firstborn of God is an in depth yet concise look at the contradictions in the Bible This book may well have the answers that you have been looking for Throughout history our religious beliefs have been instrumental in shaping our social and political strictures Whether we are devout or not the fundamental philosophies of any give religion will dictate the way in which we interact with each other on a mental social and political level Most of the Western world is no exception and has based its theology on a text known as The Bible But what is The Bible Is it a collection of scrolls written by a group of old men Or is it the word of God as so many claim it to be If the Bible really is the word of God then it should follow that the chapters and verses will be clear cut easily understood and lack ambiguity But this is not the case The Bible is ambiguous and many of its texts contradict each other which in turn implies that the scribes who wrote them had differing views on the divine word of God as well as differing social and political philosophies **Discovery of God** Rafiq Zakaria,2000 This Volume Presents A Historical Not A Religions Survey It Analyses The Place Of God In Every Major Religion Cutting Across Religious Precepts And Practices And Brings Out The Continual Discovery Of The Only One Who Has Endured

Moral Development Theories -- Secular and Religious R. Murray Thomas,1997-03-25 Moral Development Theories Secular and Religious introduces readers to 13 secular models and 13d religious theories in a wide ranging comparative study of the roots of moral development The secular models include attribution theory cognitive structural views social learning and social cognition approaches Freud's psychoanalysis plus Erikson and Fromm Marxist beliefs a composite theory Hoffman's conception of empathy Anderson's information integration view Gilligan's gender distinction Sutherland and Cressey's explanation of delinquency and Lovinger on ego development Religious theories represent the Judaic Christian Islamic line Hinduism and derivatives Buddhism Jainism Sikhism Confucianism Shinto and four minor theories drawn from the belief systems of the Navajo Zulus Vodou adherents and Okinawans The description of each theory is designed to answer a common set of questions introduced in Chapter 1 The closing section of each chapter evaluates that chapter's theories in terms of a series of assessment standards described in Chapter 2 The book's final chapter inspects all of the theories from the viewpoint of five desires that people often hold in relation to their conceptions of moral development The desires are a for immanent justice b to understand the causes of the consequences that result from people's behavior in moral situations c to become immortal d to enjoy a happy life and e to understand the moral development process in order to help others who

need moral guidance International Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity
