Vanderbilt maps the visible and invisible legacies of the cold war exhuming the blueprints for the apocalypse we once envisioned and chronicling a time when we all lived at ground zero In this road trip among ruined missile silos atomic storage bunkers and secret test sites a lost battleground emerges amid the architecture of the 1950s accompanied by Walter Cotten s stunning photographs Survival City looks deep into the national soul unearthing the dreams and fears that drove us during the latter half of the twentieth century A crucial and dazzling book masterful and for me at least intoxicating Dave Eggers A genuinely engaging book perhaps because Vanderbilt is skillful at conveying his own sense of engagement to the reader Los Angeles Times A retracing of Dr Strangelove as ordinary life Greil Marcus Bookforum
