Imaging The Great Puerto Rican Family Hilda Lloréns, 2014-10-30 In this book Hilda Llor ns offers a ground breaking study of images photographs postcards paintings posters and films about Puerto Rico and Puerto Ricans made by American and Puerto Rican image makers between 1890 and 1990 Through illuminating discussions of artists images and social events the book offers a critical analysis of the power laden cultural and historic junctures imbricated in the creation of re presentations of Puerto Rico and Puerto Ricans by Americans outsiders and Puerto Ricans insiders during an historical epoch marked by the twin concepts of modernization and progress The study excavates the ways in which

colonial power and resistance to it have shaped representations of Puerto Rico and its people Hilda Lloréns demonstrates how nation race and gender figure in representation and how these representations in turn help shape the discourses of nation race and gender *Imaging The Great Puerto Rican Family* masterfully illustrates that as significant actors in the shaping of national conceptions of history image makers have created iconic symbols deeply enmeshed in an emotional aesthetics of nation The book proposes that images as important conveyers of knowledge and information are a fertile data site At the same time Lloréns underscores how colonial modernity turned global the conceptual framework informing the analysis not only calls attention to the national and global networks in which image makers have been a part of and by which they have been influenced but highlights the manners by which technologies of imaging and seeing have been prime movers as well as critics of modernity

Translating Blackness Lorgia García Peña,2022-08-29 In *Translating Blackness* Lorgia García Peña considers Black Latinidad in a global perspective in order to chart colonialism as an ongoing sociopolitical force Drawing from archives and cultural productions from the United States the Caribbean and Europe García Peña argues that Black Latinidad is a social cultural and political formation rather than solely a site of identity through which we can understand both oppression and resistance She takes up the intellectual and political genealogy of Black Latinidad in the works of Frederick Douglass Gregorio Luperón and Arthur Schomburg She also considers the lives of Black Latina women living in the diaspora such as Black Dominicana guerrillas who migrated throughout the diaspora after the 1965 civil war and Black immigrant and second generation women like Mercedes Frías and Milagros Guzmán organizing in Italy with other oppressed communities In demonstrating that analyses of Black Latinidad must include Latinx people and cultures throughout the diaspora García Peña shows how the vaivén or coming and going at the heart of migrant life reveals that the nation is not a sufficient rubric from which to understand human lived experiences
