**Tarzan was an Eco-tourist--** Luis Antonio Vivanco, Robert J. Gordon, 2006 Adventure is currently enjoying enormous interest in public culture The image of Tarzan provides a rewarding lens through which to explore this phenomenon In their day Edgar Rice Burroughs novels enjoyed great popularity because Tarzan represented the consummate colonial era adventurer a white man whose noble civility enabled him to communicate with and control savage peoples and animals The contemporary Tarzan of movies and cartoons is in many ways just as popular but carries different connotations Tarzan is now the consummate eco tourist a cosmopolitan striving to live in harmony with nature using appropriate technology and helpful to the natives who cannot seem to solve their own problems Tarzan is still an icon of adventure because like all adventurers his actions have universal qualities doing something previously untried revealing the previously undiscovered and experiencing the unadulterated Prominent anthropologists have come together in this volume to reflect on various aspects of this phenomenon and to discuss contemporary forms of adventure

**Heart of Dryness** James G. Workman, 2009-08-11 We don't govern water Water governs us writes James Workman In *Heart of Dryness* he chronicles the memorable cautionary tale of the famed Bushmen of the Kalahari remnants of one of the world's most successful civilizations today at the exact epicenter of Africa's drought and their remarkable widely publicized battle over water with the government of Botswana to explore the larger story of what many feel is becoming the primary resource battleground of the 21st century water The Bushmen's story may well prefigure our own Even the most upbeat optimists concede the U.S. now faces an unprecedented water crisis Large dams on the Colorado River which serve 30 million in 7 states will be dry in 13 years Southeast drought cut Tennessee Valley Authority hydropower in half exposed Lake Okeechobee's floor dried 787 million of Georgia's crops and left Atlanta with 60 days of water Cities east and west are drying up As reservoirs and aquifers fail officials ration water neighbors snitch on one another corporations move in and states fight states to control shared rivers Each year inadequate water kills more humans than AIDS malaria and all wars combined Global leaders pray for rain Bushmen tap more pragmatic solutions James Workman illuminates the present and coming tensions we will all face over water and shows how from the remoteness of the Kalahari a primitive by our standards people is showing the world a viable path through the encroaching desert of the coming Dry Age

**Civil War Wests** Adam Arenson, Andrew R. Graybill, 2015-03-07 This volume unifies the concerns of Civil War and western history revealing how Confederate secession created new and shifting borderlands In the West both Civil War battlefields and Civil War politics engaged a wider range of ethnic and racial distinctions raising questions that would arise only later in places farther east Likewise the histories of occupation reincorporation and expanded citizenship during Reconstruction in the South have ignored the connections to previous as well as subsequent efforts in the West The stories contained in this volume complicate our understanding of the paths from slavery to freedom for white as well as non white

Americans By placing the histories of the American West and the Civil War and Reconstruction into one sustained conversation this volume expands the limits of both by emphasizing how struggles over land labor sovereignty and citizenship shaped the U S nation state in this tumultuous era This volume highlights significant moments and common concerns of this continuous conflict as it stretched across the continent and throughout the nineteenth century Provided by publisher
