*The Aeneid and the Modern World* J.R. O'Neill, Adam Rigoni, 2021-12-30 This collection of essays from a diverse group of scholars represents a multidisciplinary redeployment of the Aeneid that aims to illuminate its importance to our present moment. It provides a rigorous and multifaceted answer to the question: Why should we still think about the Aeneid? The book contains chapters detailing previously undocumented modern literary receptions of Vergil's epic, addressing the Aeneid's relevance to understanding modern political discourse, explaining how the Aeneid assists in making sense of the pressing current issues of trauma and damage to one's sense of identity, and even looking at how the epic can shape our future. The chapters build upon and extend beyond reception studies to provide the most current and complete answer to the question of the epic's current relevance. The primary audiences for this collection are undergraduate students, graduate students, and professional academics from all disciplines. This collection should be of interest to readers whose academic interests include textual and cultural studies, classics, comparative literature, pedagogy, medical humanities, veterans studies, trauma studies, immigration studies, young adult fiction, world literature, communication, and political discourse, citizenship studies, and ethnic studies.

**The American Aeneas** John C. Shields, 2004-11 Choice Magazine Outstanding Academic Book John Shields's book is a provocative challenge to the venerable Adamic myth so exhaustively deployed in examinations of early American literature and in American studies. Moreover, *The American Aeneas* builds wonderfully on Shields's considerable work on Phillis Wheatley, *American Literature*. *The American Aeneas* should be of interest to classicists and American studies scholars alike. *The New England Quarterly* John Shields exposes a significant cultural blindness within American consciousness. Noting the biblical character Adam as an archetype who has long dominated ideas of what it means to be American, Shields argues that an equally important component of our nation's cultural identity, a secular one deriving from the classical tradition, has been seriously neglected. Shields shows how Adam and Aeneas, Vergil's hero of the Aeneid, in crossing over to America from Europe, dynamically intermingled in the thought of the earliest American writers. Shields argues that uncovering and acknowledging the classical roots of our culture can allay the American fear of pastlessness that the long-standing emphasis on the Adamic myth has generated. John C. Shields is the editor of *The Collected Works of Phillis Wheatley* and the author of *The American Aeneas: Classical Origins of the American Self*, which won a Choice Outstanding Academic Book award and an honorable mention in the Harry Levin Prize competition sponsored by the American Comparative Literature Association.

*The Primacy of Vision in Virgil's Aeneid* Alden Smith, 2005 One of the masterpieces of Latin and indeed world literature Virgil's Aeneid was written during the Augustan renaissance of architecture art and literature that redefined the Roman world in the early years of the empire This period was marked by a transition from the use of rhetoric as a means of public persuasion to the use of images to display imperial power Taking a fresh approach to Virgil's epic poem Riggs Alden Smith argues that the Aeneid fundamentally participates in the Augustan shift from rhetoric to imagery because it gives primacy to vision over speech as the principal means of gathering and conveying information as it recounts the heroic adventures of Aeneas the legendary founder of Rome Working from the theories of French phenomenologist Maurice Merleau Ponty Smith characterizes Aeneas as a voyant visible a person who both sees and is seen and who approaches the world through the faculty of vision Engaging in close readings of key episodes throughout the poem Smith shows how Aeneas repeatedly acts on what he sees rather than what he hears Smith views Aeneas final act of slaying Turnus a character associated with the power of oratory as the victory of vision over rhetoric a triumph that reflects the ascendancy of visual symbols within Augustan society Smith's new interpretation of the predominance of vision in the Aeneid makes it plain that Virgil's epic contributes to a new visual culture and a new mythology of Imperial Rome
