The Latin Kingdom of Jerusalem Joshua Prawer,1972 **The Latin Kingdom of Jerusalem : European Colonialism in the Middle Ages** ,1972 **Muslims of Medieval Latin Christendom, c.1050-1614** Brian A. Catlos,2014-03-20 An innovative study which explores how the presence of Muslim communities transformed Europe and stimulated Christian society to define itself *East and West in the Crusader States* Krijna Nelly Ciggaar,Adelbert Davids,Herman G. B. Teule,1996 This work the Acta of the colloquium of the same name held in Hernen Netherlands is a collection of essays dealing with the relations between East and West in the context of the Crusader States In this connection East refers in particular to the non Byzantine Oriental Christians Muslims and Jews who set the tone for daily life in Outremer to a great extent Attention is focused upon the relations between the various communities the social position of the minorities and religious and cultural especially literary contacts and influences *The Medieval Frontiers of Latin Christendom* Felipe Fernandez-Armesto,2017-05-15 The aim of this first volume in the series The Expansion of Latin Europe is to sketch the outlines of medieval expansion illustrating some of the major topics that historians have examined in the course of demonstrating the links between medieval and modern experiences The articles reprinted here show that European expansion began not in 1492 following Columbus s voyages but earlier as European Christian society re arose from the ruins of the Carolingian Empire The two phases of expansion were linked but the second period did not simply replicate the medieval experience Medieval expansion occurred as farmers merchants and missionaries reduced forests to farmland and pasture created new towns and converted the peoples encountered along the frontiers to Christianity Later colonizers subsequently adapted the medieval experience to suit their new frontiers in the New World **The Medieval Expansion of Europe** J. R. S. Phillips,1998 Between the year 1000 and the middle of the fourteenth century a remarkable series of events unfolded as Europeans made contact with a very substantial part of the inhabited world much of it never previously known to or suspected by them Leif Ericsson and other Vikings from Greenland discovered North America European crusading armies established themselves in Syria and Palestine Marco Polo and other Italian merchants and missionaries such as John of Monte Corvino penetrated the dominions of the Mongol great Khans as far as China the Vivaldi brothers sought to open a sea route to India Jaime Ferrer was lured by dreams of locating the source of West African gold and the Atlantic island groups the canaries Madeira and the Azores were all discovered For this Clarendon Paperback edition Professor Phillips has added a new Foreword and Conclusion as well as a bibliographical essay surveying recent work in what is becoming a thriving area of research **The Oxford Illustrated History of the Crusades** Jonathan Riley-Smith,2001 Written by a team of leading scholars this richly illustrated book with over 200 colour and black and white pictures presents an authoritative and comprehensive history of the Crusades from the preaching of the First Crusade in 1095 to the legacy of crusading ideas and imagery today **Franks, Muslims and Oriental Christians in the Latin Levant** Benjamin Z. Kedar,2024-10-28 Steven

Runciman characterized intellectual life in the Frankish Levant as disappointing Joshua Prawer claimed that the Franks refused to open up to the East's intellectual achievements The present collection the second by Benjamin Kedar in the Variorum series presents facts that require a modification of these still largely prevailing views The earliest laws of the Kingdom of Jerusalem were influenced by Byzantine legislation medical routine in the Jerusalem Hospital unparalleled in Europe had counterparts in Oriental hospitals worshippers of different creeds repeatedly converged multi directional conversion recurred time after time Several articles deal with groups that did abstain from intercultural contacts Muslim villagers Frankish clerics and hermits One article dwells on the asymmetry of Frankish and Muslim mutual perceptions The volume concludes with studies of specific locations one argues that Acre was considerably larger than hitherto assumed another compares its Venetian and Genoese quarters and attempts to locate the remains of a main street a third reconstructs the history of Caymont

Christ Among Them Edoardo Mungliello, 2009-05-27 This essay newly interprets the rise of the individual within the Italian peninsula between 1180 and 1300 It follows the historical events and the cultural products that define the period keeping in mind that the creators were conscious of a tangible real Christ in their midst For it is the time when Jesus was known to be in the Eucharist as a carnal potentiality as well as a time when Europeans on Crusade had reached his temporal abode As Christ as neighbor became a consistent idea the relationship towards that idea became one of accommodation making subsequent worship a form of individualism The later Renaissance was as much a specific reaction to a particular understanding of Christology

within the cultural sphere as it was a reawakening of Classical ideals through a new paradigm of European selfhood outside of Christianity Understood in this way the Incarnation helped to produce an action based Christianity amenable to the needs of the Roman Church The later insistence upon text and notions of personal conscience that identifies the Reformation can now be seen as a true end to the Renaissance Christian praxis which began with the excitement over Christ among them

Before Orientalism Kim M. Crusaders and Settlers in the Latin East Jonathan Riley-Smith,2023-05-31 The studies here reflect Jonathan Riley Smith s work as a historian which began with research on the history of the military orders the specific focus of the third section here Out of this grew the concerns covered in the previous sections an interest in the political and constitutional history of the kingdom of Jerusalem and the relations of the western settlers with the indigenous population of Palestine and Syria the theory of crusading involving research on theology and canon law and the r le of the popes as preachers and at the same time detailed consideration of the responses of lay men and women to the ideas that were being presented to them The two final papers explore some of the implications of crusading ideology and mythology in the modern world **Crusades**

Lebanon in the Twelfth Century Kevin James Lewis,2017-04-21 The county of Tripoli in what is now North Lebanon is arguably the most neglected of the so called crusader states established in the Middle East at the beginning of the twelfth century The present work is the first monograph on the county to be published in English and the first in any western language since 1945 What little has been written on the subject previously has focused upon the European ancestry of the counts of Tripoli a specifically Southern French heritage inherited from the famous crusader Raymond IV of Saint Gilles Kevin Lewis argues that past historians have at once exaggerated the political importance of the counts French descent and

ignored the more compelling signs of its cultural impact highlighting poetry composed by troubadours in Occitan at Tripoli's court. For Lewis however even this belies a deeper understanding of the processes that shaped the county. What emerges is an intriguing portrait of the county in which its rulers struggled to exert their power over Lebanon in the face of this region's insurmountable geographical forces and its sometimes bewildering always beguiling diversity of religions languages and cultures. The counts of Tripoli and contemporary Muslim onlookers certainly viewed the dynasty as sons of Saint Gilles but the county's administration relied upon Arabic its stability upon the mixed loyalties of its local inhabitants and its very existence upon the rugged mountains that cradled it. This book challenges prevailing knowledge of this little known crusader state and by extension the medieval Middle East as a whole.

Plantation Societies in the Era of European Expansion Judy Bieber, 2018-11-07 The emergence of a widespread plantation complex in which slave labour produced crops such as sugar on large estates funded by European capital was a phenomenon of the New World. This book shows how the institution of slavery was transformed by the demand for labour in the Americas to fill the gap between conquerors and vanquished Indians and to work in mines workshops ranches and above all on the new plantations that were established to exploit the empty lands. The essays use quantitative methodology to draw conclusions about slave existence and demography and examine the profitability and varying degrees of harshness of slave systems in different regions. They also consider the questions of manumission and slave resistance.

Trade, Commodities and Shipping in the Medieval Mediterranean David Jacoby, 2024-10-28 This fourth collection by David Jacoby focuses on Western economic expansion the Eastern Mediterranean during the 11th-15th centuries. He is concerned to emphasize the interconnections linking the West Byzantium and the Levant and to examine normative sources for commercial activity charters etc against the background of actual practice such as reflected in notarial documents. The articles deal with the evolution of urban centres the trade in raw materials and at the same time questions of technology transfer and the mobility of merchants and craftsmen. Particular attention is given to the silk trade the author argues that demographic expansion in the Byzantine world as in the West stimulated economic growth and demand for silk led to the emergence of a market driven industry in Byzantium.

Urban Space in the Middle Ages and the Early Modern Age Albrecht Classen, 2009 The contributors to this new volume explore the wide gamut of characteristic features determining the rise of the city as a central living space since the high Middle Ages and extend the investigation up to the eighteenth century.
