Thorsen, 2013-11-21 Latin love elegy is one of the most important poetic genres in the Augustan era also known as the golden age of Roman literature This volume brings together leading scholars from Australia Europe and North America to present and explore the Greek and Roman backdrop for Latin love elegy the individual Latin love elegists both the canonical and the non canonical their poems and influence on writers in later times The book is designed as an accessible introduction for the general reader interested in Latin love elegy and the history of love and lament in Western literature as well as a collection of critically stimulating essays for students and scholars of Latin poetry and of the classical tradition *Latin Love Elegy* Robert Maltby, 1980 This book offers a representative selection of the three main exponents of Latin love elegy Propertius Tibullus and Ovid A few elegiac poems by Catullus are included for purposes of comparison The book includes a general introduction to the elegy select bibliography Latin text of twenty poems and commentary to introduce each poem notes both grammatical and to aid literary analysis

Vasileios Pappas, 2025-05-19 For about five hundred years between Ovid s death 17 AD and Maximianus Elegies 6th century AD the genre of love elegy disappears Does this mean that love poetry in general was no longer being written This was certainly not the case Poets continued to compose love poetry merely in other forms than elegy This book deals with non elegiac Latin love poetry of Late Antiquity It is the first monograph to focus on the metaliterary interpretation of four non elegiac poetic works the *Pervigilium Veneris* Ausonius Bissula Reposianus *De concubitu Martis et Veneris* and the *Aegritudo Perdicae* The book contains all the required information about these poems including their date authorship structure and literary tradition However its content is predominantly original as it examines subjects that have not previously been discussed in the past These include a the generic interaction between the poems host genre and several guest genres that are present within them b the metaliterary discourse developed in several passages which reveals the metapoetic self consciousness of their poets c their hidden demands for the innovation of love poetry and d their allusive comments on the conservatism of this era

**Greek and Latin Love** Thea S. Thorsen, Iris Brecke, Stephen Harrison, 2021-09-07 It is often claimed that the kind of love that is variously deemed romantic or true did not exist in antiquity Yet ancient literature abounds with stories that seem to adhere precisely to this kind of love This volume focuses on such literature and the concepts of love it espouses The volume differs from and challenges much existing classical scholarship which has traditionally privileged the theme of sex over love and prose genres over those of poetry By conversely focusing on love and poetry the present volume freshly explores central poets in ancient literature such as Homer Sappho Terence Catullus Virgil

Horace and Ovid alongside less canonized such as the anonymous poet of The Lament for Bion Philodemus and Sulpicia The chapters which are written by world leading as well as younger scholars reveal that Greek and Latin concepts of love seem interconnected that such love is as relevant for hetero as homoerotic couples and that such ideas of love follow the mainstream of poetry throughout antiquity In addition to the general reader interested in the history of love this volume is relevant for students and scholars of the ancient world and the poetic tradition The Latin Poetry of Thomas Gray Estelle Haan, 2024-11-11 In the first full scale edition of Thomas Gray s Latin poetry the Latin text and facing English translation are complemented by a detailed introduction and comprehensive commentary that situate Gray s Latin verse in relation to his vernacular poetry epistolary correspondence and especially his appropriation of classical and Neo Latin literature This book also traces hitherto unlocated manuscripts of several of his Latin poems and includes an editio princeps of recently discovered Latin verses pertaining to his Neapolitan sojourn Gray s Latin poetry presents an illuminating portrait of the artist as a young man mapping his growth and development from his Etonian days to his undergraduate years at Cambridge University to his continental journey and his return to England Impressively eclectic in its scope and tone it ranges from experimental renderings of English Greek and Italian verse to more strikingly original pieces including poetic reinterpretations of Alexander Pope s Essay on Man and John Locke s An Essay Concerning Humane Understanding Gray looks back to a classical past offering imaginative re readings of Lucretius Virgil and Horace At the same time his Latin verse is firmly rooted in a postclassical world At its heart is the theme of presences whether sacred imagined absent or remembered conveyed with a linguistic ingenuity that facilitates the encoding of homoeroticism in a Neo Latin language of sensibility Travel, Geography, and Empire in Latin Poetry Micah Young Myers, Erika Zimmermann Damer, 2021-09-29 This volume considers representations of space and movement in sources ranging from Roman comedy to late antique verse exploring how poetry in the Roman world is fundamentally shaped by its relationship to travel within the geography of Rome s far reaching empire The volume surveys Roman poetics of travel and geography in sources ranging from Plautus to Augustan poetry from the Flavians to Ausonius The chapters offer a range of approaches to the complex relationship between Latin poetry Roman identity imperialism and travel and geospatial narratives and the diachronic and generic evolutions of poetic descriptions of space and mobility In addition two chapters including the concluding one contextualize and respond to the volume s discussion of poetry by looking at ways in which Romans not only write and read poems about travel and geography but also make writing and reading part of the experience of traveling as demonstrated in their epigraphic practices The collection as a whole offers important insights into Roman poetics and into ancient notions of movement and geographical space Travel Geography and Empire in Latin Poetry will be of interest to specialists in Latin poetry ancient travel and Latin epigraphy as well as to those studying travel writing geography imperialism and mobility in other periods The chapters are written to be accessible to researchers graduate students and advanced undergraduates **Elegies**

contributor relates a wide range of fascinating but now little known texts to the handful of more familiar Latin works of the period such as Thomas More's *Utopia*, Milton's Latin poetry and the works of Petrarch and Erasmus. All Latin is translated throughout the volume.

**Studies in Goethe's Lyric Cycles** Meredith Lee, 2020-05-01 The book presents a series of interpretive readings of the Römische Elegien, Sonette Chinesisch, deutsche Jarhes und Tageszeiten, several trilogies and the shorter cycles of 1821, taking into account the variety of literary devices Goethe employs to link poems together into a cycle. The author examines Goethe's role in the history of the lyric cycle and, in stressing structural design, urges a reevaluation of the cycle's emergence as a standard poetic device.

*Intratextuality and Latin Literature* Stephen J. Harrison, Stavros Frangoulidis, Theodore D. Papanghelis, 2018-10-08 Recent years have witnessed an increased interest in classical studies in the ways meaning is generated through the medium of intertextuality, namely how different texts of the same or different authors communicate and interact with each other. Attention, although on a lesser scale, has also been paid to the manner in which meaning is produced through interaction between various parts of the same text or body of texts within the overall production of a single author, namely intratextuality. Taking off from the seminal volume on *Intratextuality: Greek and Roman Textual Relations* edited by A. Sharrock and H. Morales (Oxford, 2000), which largely sets the theoretical framework for such internal associations within classical texts, this collective volume brings together twenty-seven contributions written by an international team of experts exploring the evolution of intratextuality from Late Republic to Late Antiquity across a wide range of authors, genres and historical periods. Of particular interest are also the combined instances of intra- and intertextual poetics as well as the way in which intratextuality in Latin literature draws on reading practices and critical methods already theorized and operative in Greek antiquity.

**An Anthology of European Neo-Latin Literature** Gesine Manuwald, Daniel Hadas, Lucy R. Nicholas, 2020-10-01 Compiled by a team of international experts, this volume showcases the best of the huge abundance of literature written in Latin in Europe from about 1500 to 1800. A general introduction provides readers with the context they need before diving into the 19 high-quality short Latin extracts and English translations. Together, these texts present a rich panorama of the different literary genres, styles and themes that flourished at the time and include authors such as Erasmus, Buchanan, Leibniz and Newton, along with less well-known writers. From the vast array of material available, a varied and meaningful sample of texts has been carefully curated by the editors of the volume. Passages not only exhibit literary merit or historical importance but also illustrate the role of the complete texts from which they have been selected in the development of Neo-Latin literature. They reflect the wide range of authors writing in Latin in early modern Europe as well as the importance of Latin in the history of ideas. As with all volumes in the series, section introductions and accompanying notes on every text provide orientation on the material for students.
