Globalization and Children Natalie Hevener Kaufman, Irene Rizzini, 2007-05-08 ALLISON JAMES Globalization seems to be the word on everyone's lips with politicians as much as academics extolling its benefits as well as its contradictions For some globali tion means in practice that whether in Bangkok or Boston in London or Rio as travelers from wealthy countries they can be sure to find the beer the pizzas and the jeans that they can at home they can be both at home and away simulta ously For others though globalization has had rather different often less bene cial consequences In their everyday lives people have come to find themselves tied in albeit in often unseen ways into larger economic and political systems over which they have no control yet these systems cause radical changes often for the worse rather than the better in the pattern of their daily lives And it is those who have least voice whose lives are usually affected the most In this book attention is drawn systematically really for the first time to a consideration of how processes of globalization variously impact upon the lives of children Such an approach is not only most welcome in the field of childhood studies but also long overdue It will at last enable us to begin to contextualize in a broader framework some of the many issues to do with ch dren s rights and participation which have long been discussed as separate and discrete issues within childhood studies

Through the Kaleidoscope Vivian Schelling, 2000 Modernity in Latin America is defined above all by its

multi layered kaleidoscopic quality Reminiscent of Octavio Paz s labyrinth it is a modernity which has accommodated a piling on of new traditions to old a blending of external cultures with local and of high cultures with more popular ones mixes which allowed a rich and celebratory avant garde movement for example to emerge in the 1920s and prompted the explosive growth of cities like Rio de Janeiro Many such cultural as well as technological innovations have occurred without equivalent changes in social and political life however and so the region has also been at the mercy of what might be termed an uneven development in many of its civic institutions In this prestigious volume of original essays many of the best writers on the region are brought together to examine the nature and manifestations of a specifically Latin American modernity Beatriz Sarlo and Nicolau Sevcenko write about Buenos Aires and Sao Paulo in an exploration of twentieth century urban experience and shifting patterns of migration and immigration Renato Ortiz and Ana Lopez look at mass media and the ways in which radio television and cinema have shaped modernity Jose Jorge de Carvalho Jose de Souza Martins and Nelson Manrique address questions of religion politics ideology and social movements Gwen Kirkpatrick and Beatriz Rezende explore the intricacies of artistic and literary modernism and Nestor Canclini and Ruben Oliven open the collection with essays which unravel the many forces the legacy of slavery the freedom from an unquestioning faith in development and progress the impact of globalisation that have given rise to a characteristically hybrid modernity

Mercosur Francisco Domínguez, 2004 This collection of essays aims to contribute to our understanding of the process of regional integration currently underway in South America Mercosur is a regional manifestation of a world wide process of globalisation whose driving force is economic but which is potentially much more than that It involves a variety of political social and cultural processes some of them

barely at an embryonic stage though each advancing at its own rate of progress Mercosur's neo liberal matrix however has led to the economic decision making process being taken outside the realm of politics thus leaving large sections of the population with no mechanism to influence the integration process so that it addresses their urgent needs and demands
