Latin Course For Schools Part 1:

Latin Course for Schools Longworth Allen Wilding, 1957 **Latin Course for Schools Part 1** L.A. Wilding, 1995-08-24 L A Wilding's Latin Course for Schools is well established as an excellent introduction to the language providing details of grammar and syntax in an ordered and easily assimilable sequence Continuous translation from original sources is used throughout the course from the earliest stages both in order to give pupils a sense of progress and achievement and to instill a genuine interest in Latin **Principia Latina [pt. 1]. A first Latin course** sir William Smith, 1860 Teaching Latin: Contexts, Theories, Practices Steven Hunt, 2022-03-10 Building on and updating some of the issues addressed in Starting to Teach Latin Steven Hunt provides a guide for novice and more experienced teachers of Latin in schools and colleges who work with adapted and original Latin prose texts from beginners to advanced levels It draws extensively on up to date theories of second language development and on multiple examples of the practices of real teachers and students Hunt starts with a detailed look at deductive inductive and active teaching methods which support teachers in making the best choices for their students needs and for their own personal preferences but goes on to organise the book around the principles of listening reading speaking and writing Latin It is designed to be informative experimental and occasionally provocative The book closes with two chapters of particular contemporary interest Access Diversity and Inclusion investigates how the subject community is meeting the challenge of teaching Latin more equitably in today's schools and The Future offers some thoughts on lessons that have been learnt from the experiences of online teaching practices during the Covid 19 lockdowns Practical examples extensive references and a companion website at www.stevenhuntclassics.com are included Teachers of Latin will find this book an invaluable tool inside and outside of the classroom **North American Cambridge Latin Course Unit 1 Student's Book**, 2015-08-10 The world's bestselling introductory Latin course Classics and Irish Politics, 1916-2016 Isabelle Torrance, Donncha O'Rourke, 2020-10-28 This collection addresses how models from ancient Greece and Rome have permeated Irish political discourse in the century since 1916 The 1916 Easter Rising when Irish nationalists rose up against British imperial forces became almost instantly mythologized in Irish political memory as a turning point in the nation's history that paved the way for Irish independence Its centenary has provided a natural point for reflection on Irish politics and this volume highlights an unexplored element in Irish political discourse namely its frequent reliance on reference to and tensions with classical Greek and Roman models Topics covered include the reception and rejection of classical culture in Ireland the politics of Irish language engagement with Greek and Roman models the intersection of Irish literature with scholarship in Classics and Celtic Studies the use of classical referents to articulate political inequalities across gender sexual and class hierarchies meditations on the Northern Irish conflict through classical literature and the political implications of neoclassical material culture in Irish society As the only country colonized by Britain with a pre-existing indigenous heritage of expertise in classical languages and literature

postcolonial Ireland represents a unique case in the field of classical reception This book opens a window on a rich and varied dialogue between significant figures in Irish cultural history and the Greek and Roman sources that have inspired them a dialogue that is firmly rooted in Ireland's historical past and continues to be ever evolving **Education Outlook**
