Teachers and Code-breakers Thomas O'Loughlin, 1998 That Genesis was a key text in the formation of the medieval intellectual world is well recognised But what were the motives and methods of those who used it This book looks at the writers and how they wrote about

Genesis to reconstruct the intellectual history of the period It explores how their use of Genesis discloses common attitudes to revelation authority and one another In turn the book examines how awareness of their self understanding can help in understanding their exegesis Since they built on authorities and one another and wished to remain true to their authorities how did exegesis change and develop This study reveals a group who saw themselves as a single body dispersed over time charged with a common task as Christian Schoolmasters and who wished to retain all the had received make it suitable for teaching their students and ensure its continuance The book explores the intellectual bonds between those we usually study e g Augustine and umpteen others whose often anonymous exegeses we tend to ignore yet it was the cumulative impact of both that created medieval theology *On Signs, Christ, Truth and the Interpretation of Scripture* Susannah

Ticciati,2022-01-27 Susannah Ticciati draws on Augustine to address the question of truth in the public sphere In the face of the degeneration of public normative discourse the book finds in Augustine the resources for the repair of a series of post modern oppositions making way for a rehabilitation of public normativity The book discovers in Augustine a truth that is at once inward and public It is a truth which both scriptural author and interpreter prompted by the words of Scripture seek in common It is a truth which Christ speaks on behalf of others and which others in turn are liberated to speak in Christ

Through Augustine Ticciati offers a scriptural hermeneutic that overcomes a false opposition between modern and postmodern modes of reading and arrives at a Christologically informed vision of coinherence rather than inclusion of substitutionary rather than tokenist representation and of cosmic rather than colonial breadth *Forthcoming Books* Rose
