Latino Metropolis Globalization And Community:

Latino Metropolis Victor M. Valle, Rodolfo D. Torres, 2000 Los Angeles scratch the surface of the city's image as a rich mosaic of multinational cultures and a grittier truth emerges its huge shimmering economy was built on the backs of largely Latino immigrants and still depends on them This book exposes the underside of the development and restructuring that have turned Los Angeles into a global city and in doing so it reveals the ways in which ideas about ethnicity Latino identity itself are implicated and elaborated in the process A penetrating analysis of the social economic cultural and political consequences of the growth of the Latino working class populations in Los Angeles Latino Metropolis is also a nuanced account of the complex links between political economy and the social construction of ethnicity Lifting examples from recent news stories political encounters and cultural events the authors demonstrate how narratives about Latinos are used to maintain the status quo particularly the existing power grid in the city In media representations of riots in the recasting and whitening of Mexican food as Spanish American cuisine in the community displacement that occurred as part of the development of the Staples Center in telling instances large and small we see how Los Angeles and its Latino population are mutually transforming And we see how an old Latino politics of racial identity is inevitably giving way to a new politics of class Combining political and economic insight with trenchant social and cultural analysis this work offers the clearest statement to date of how ethnicity and class intersect in defining racialized social relations in the contemporary metropolis Globalization and Community Series volume 7 Translation Inquiries University of Minnesota Press **The Oxford**

Remaking New York William Sites, 2003

El Paso Victor M. Ortiz-González, 2004 A grounded and instructive analysis of the ways globalization affects a border city Every marker of social difference can be easily interpreted in the fashionable language of borderlands and if so as Victor M Ortiz Gonzalez reveals the practical reality of the border region is often grossly misrepresented and its people woefully served He argues that amid the tantalizing abstractions generated by the sweeping reconfigurations of globalization people in cities like El Paso and Ciudad Juarez on the U S Mexican border are actually living the gritty realities of a new world order With descriptions of grassroots initiatives to confront the challenges and opportunities that NAFTA represents for the city El Paso challenges us to acknowledge and address the conceptual and sociopolitical tasks of a world in which abstract representations and nonlocal interests override concrete situations Ortiz Gonzalez also provides an indepth analysis of groups such as La Mujer Obrera Unite El Paso and the Hispanic Chamber of Commerce and their attempts to give local residents and workers more autonomy and power Balancing ethnographic detail with precise theoretical insights El Paso offers a compelling case study and a stirring call to understand both the conceptual challenge and the social urgency of the effects of globalization in local settings

Latino Urbanism David R. Diaz, Rodolfo D. Torres, 2012-01-01 America's Latino population has now reached over 50 million or 15% of the estimated total U.S. population of 300 million and a growing portion of the world's population now lives and works in cities that are increasingly diverse. Latino Urbanism provides the first national perspective on Latino urban policy addressing a wide range of planning policy issues that impact both Latinas/os in the US as well as the nation as a whole tracing how cities develop function and are affected by socio-economic change. The three sections of the book address the politics of planning and its historic relationship with Latinas/os the relationship between the Latino community and conventional urban planning issues and challenges and the future of urban policy and Latino barrios. Moving beyond a traditional analysis of Latinas/os in the Southwest the volume expands the understanding of the important relationships between urbanization and Latinas/os including Mexican Americans of several generations within the context of the restructuring of cities in view of the cultural and political transformation currently encompassing the nation.

Landscapes of Urban Memory Smriti Srinivas, A rich analysis of religion civic life and global transformation in India. Established in the middle of the sixteenth century Bangalore has today become a center for high technology research and production the new Silicon Valley of India with a metropolitan population approaching six million. It is also the site of the very popular annual performance called the Karaga dedicated to Draupadi the polyandrous wife of the heroes of the pan Indian epic of the Mahabharata. Through her analysis of this performance and its significance for the sense of the civic in Bangalore Smriti Srinivas shows how constructions of locality and globality emerge from existing cultural milieus and how articulations of the urban are modes of cultural self-invention tied to historical spatial somatic and ritual practices. The book highlights cultural practices embedded in urbanization and moves beyond economic arguments about globalization or their reliance on the European polis or the American metropolis as models. Drawing from urban studies sociology anthropology performance studies religion and history Landscapes of Urban Memory greatly expands our understanding of how the civic is constructed.
