Latinos in American Society Ruth Enid Zambrana, 2011-06-15 It is well known that Latinos in the United States bear a disproportionate burden of low educational attainment high residential segregation and low visibility in the national political landscape In Latinos in American Society Ruth Enid Zambrana brings together the latest research on Latinos in the United States to demonstrate how national origin age gender socioeconomic status and education affect the well being of families and individuals By mapping out how these factors result in economic social and political disadvantage Zambrana challenges the widespread negative perceptions of Latinos in America and the single story of Latinos in the United States as a monolithic group Synthesizing an increasingly substantial body of social science research much of it emerging from the interdisciplinary fields

Democratic Renewal and the Mutual Aid Legacy of US Mexicans Julie Leininger Pycior, 2014-05-17 The legacy of the historic mutual aid organizing by US Mexicans with its emphasis on self help and community solidarity continues to inform Mexican American activism and subtly influence a number of major US social movements In Democratic Renewal and the Mutual Aid Legacy of US Mexicans Julie Leininger Pycior traces the early origins of organizing in the decades following the US Mexican War when Mexicans in the Southwest established mutualista associations for their protection Further she traces the ways in which these efforts have been invoked by contemporary Latino civil rights leaders Pycior notes that the Mexican immigrant associations instrumental in the landmark 2006 immigration reform marches echo mutualista societies at their peak in the 1920s Then Mexican immigrants from San Diego to New York engaged in economic

medical cultural educational and legal aid This path breaking study culminates with an examination of Southwest community organizing networks as crucial counterweights to the outsize role of large financial contributions in the democratic political process It also finds ways in which this community organizing echoes the activity of mutualista groups in the very same neighborhoods a century ago *Family Matters* Marisel C. Moreno, 2012-08-29 Adopting a comparative and multidisciplinary approach to Puerto Rican literature Marisel Moreno juxtaposes narratives by insular and U S Puerto Rican women authors in order to examine their convergences and divergences By showing how these writers use the trope of family to question the tenets of racial and social harmony an idealized past and patriarchal authority that sustain the foundational myth of la gran familia she argues that this metaphor constitutes an overlooked literary contact zone between narratives from both sides Moreno proposes the recognition of a transinsular corpus to reflect the increasingly transnational character of the Puerto Rican population and addresses the need to broaden the literary canon in order to include the diaspora Drawing on the fields of historiography cultural studies and gender studies the author defies the tendency to examine these literary bodies independently of one another and therefore aims to present a more nuanced and holistic vision of this literature *Adoption in a Color-blind Society* Pamela Anne Quiroz, 2007 Recent adoption policy changes are based on assumptions that race is no longer relevant and that if government officials and activists would just get out of the way adoption would provide one means of eradicating the fixation on race and racism Adoption in a Color Blind Society examines the public presentation of private adoption agency Web sites and race talk in adoption chat rooms to lay bare the lie of color blind discourse and reveal that rather than eroding the meaning of race has shifted The private adoption market provides an illustration of Eduardo Bonilla Silva's thesis of the Latinization of the U S as biracial children are either downgraded or upgraded into a tri racial system of categories depending at least in part upon their heritage Drawing also on popular adoption literature and information in the public domain the book provides a critical interpretation of the discursive practices of private adoption and argues that despite the current discourse of equity in contemporary adoption African American children continue to be marginalized as bargain basement deals Color blind individualism extends beyond the U S to our new global reality where children are simply another commodity within the transnational marketplace of adoption **Caribbean Migration to Western Europe and the United States** Margarita Cervantes-Rodriguez, Ramon Grosfoguel, Eric H Mielants, 2008-12-20 A novel and interdisciplinary volume on the dynamics of migration with comparative case studies of the Caribbean experience **The Xaripu Community across Borders** Manuel Barajas, 2009-04-17 During the past three decades there have been many studies of transnational migration Most of the scholarship has focused on one side of the border one area of labor incorporation one generation of migrants and one gender In this path breaking book Manuel Barajas presents the first cross national comparative study to examine a Mexican origin community's experience with international migration and transnationalism He presents an extended case study of the Xaripu community with home bases in both Xaripu

Michoacán and Stockton California and elaborates how various forms of colonialism institutional biases and emergent forms of domination have shaped Xaripu labor migration community formation and family experiences across the Mexican U S border for over a century Of special interest are Barajas s formal and informal interviews within the community his examination of oral histories and his participant observation in several locations Barajas asks What historical events have shaped the Xaripus migration experiences How have Xaripus been incorporated into the U S labor market How have national inequalities affected their ability to form a community across borders And how have migration settlement and employment experiences affected the family especially gender relationships on both sides of the border **Mexicano Political**

Experience in Occupied Aztlan Armando Navarro,2005-07-14 This exciting new volume from Armando Navarro offers the most current and comprehensive political history of the Mexicano experience in the United States He examines in depth topics such as American political culture electoral politics demography and organizational development Viewing Mexicanos today as an occupied and colonized people he calls for the formation of a new movement to reinvigorate the struggle for resistance and change among Mexicanos Navarro envisions a new political and cultural landscape as the dominant Latino population Re Mexicanizes the U S into a more multicultural and multiethnic society This book will be a valuable resource for political and social activists and teaching tool for political theory Latino politics ethnic and minority politics race relations in the United States and social movements Global Communications Paula Chakravartty,Yuezhi Zhao,2007-08-29 This provocative book takes a new approach toward understanding the uneven flows of global communications Rather than guiding its discussion by geography types of media or traditional separations of power and resistance Global Communications examines political economic power and communication in relation to historically specific encounters with modernity It underscores lived experiences in its approach to globalization showing that the state and the market can both be sites of empowerment just as civil society might also be a site of repression Taking a political economic analysis of communication and culture this dynamic group of international authors looks beyond developments in the North American information and culture industries to map new forms of citizenship and exclusion The chapters spotlight China Ghana India Japan Palestine Russia Singapore and Venezuela and foreground the transnational formations of the European Union the pan Arab and Spanish speaking markets and civil society actors in sub Saharan African the Middle East and North America Theoretically driven and empirically grounded Global Communications defines communication broadly to include production circulation and consumption and addresses urgent questions about the inequalities of globalization and the possibilities of hybrid cultural forms and practices Blood Oranges Timothy P. Bowman,2016-05-15 Blood Oranges traces the origins and legacy of racial differences between Anglo Americans and ethnic Mexicans Mexican nationals and Mexican Americans in the South Texas borderlands in the twentieth century Author Tim Bowman uncovers a complex web of historical circumstances that caused ethnic Mexicans in the region to rank among the poorest least educated and unhealthiest demographic in the country

The key to this development Bowman finds was a modern colonization movement a process that had its roots in the Mexican American war of the nineteenth century but reached its culmination in the twentieth century South Texas in Bowman s words became an internal economy just inside of the US Mexico border Beginning in the twentieth century Anglo Americans consciously transformed the region from that of a culturally Mexican space with an economy based on cattle into one dominated by commercial agriculture focused on citrus and winter vegetables As Anglos gained political and economic control in the region they also consolidated their power along racial lines with laws and customs not unlike the Jim Crow system of southern segregation Bowman argues that the Mexican labor class was thus transformed into a marginalized racial caste the legacy of which remained in place even as large scale agribusiness cemented its hold on the regional economy later in the century Blood Oranges stands to be a major contribution to the history of South Texas and borderland studies alike
