Landscape Of Fear Stephen Kings American Gothic:

Landscape of Fear Tony Magistrale, 1988 One of the very first books to take Stephen King seriously Landscape of Fear originally published in 1988 reveals the source of King's horror in the sociopolitical anxieties of the post Vietnam post Watergate era In this groundbreaking study Tony Magistrale shows how King's fiction transcends the escapism typical of its genre to tap into our deepest cultural fears that the government we have installed through the democratic process is not only corrupt but actively pursuing our destruction that our technologies have progressed to the point at which the individual has now become expendable and that our fundamental social institutions school marriage workplace and the church have beneath their veneers of respectability evolved into perverse manifestations of narcissism greed and violence Tracing King's moralist vision to the likes of Twain Hawthorne and Melville Landscape of Fear establishes the place of this popular writer within the grand tradition of American literature Like his literary forbears King gives us characters that have the capacity to make ethical choices in an imperfect often evil world Yet he inscribes that conflict within unmistakably modern settings From the industrial nightmare of Graveyard Shift to the breakdown of the domestic sphere in The Shining from the techno horrors of The Stand to the religious fanaticism and adolescent cruelty depicted in Carrie Magistrale charts the contours of King's fictional landscape in its first decade

Stephen King's Contemporary Classics Philip L. Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror from his fiction debut Carrie to his blockbuster novels The Shining The Stand and Misery among others While he continues to be a best selling author King's more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed Recent novels like Duma Key and 11/22/63 have been marginalized and arguably cast aside as anomalies within the author's extensive canon In Stephen King's Contemporary Classics: Reflections on the Modern Master of Horror Philip L. Simpson and Patrick McAleer present a collection of essays that analyze assess and critique King's post 1995 compositions Purposefully sidestepping studies of earlier work these essays are arranged into three main parts the first section examines five King novels published between 2009 and 2013 offering genuinely fresh scholarship on King the second part looks at the development of King's distinct brand of horror the third section departs from probing the content of King's writing and instead focuses on King's process By concentrating on King's most recent writings this collection offers provocative insights into the author's work featuring essays on Dr Sleep Duma Key The Girl Who Loved Tom Gordon Joyland Under the Dome and others As such Stephen King's Contemporary Classics will appeal to general fans of the author's work as well as scholars of Stephen King and modern literature

Dark Forces at Work Cynthia J. Miller, A. Bowdoin Van Riper, 2019-11-06

Dark Forces at Work examines the role of race class gender religion and the economy as they are portrayed in and help construct horror narratives across a range of films and eras These larger social forces not only create the context for our cinematic horrors but serve as connective tissue between fantasy and lived reality as well While several of the essays focus on name horror films such as IT Get Out Hellraiser and Don't Breathe the collection also features essays focused on horror films produced in Asia Europe and Latin America and on American classic thrillers such as Alfred Hitchcock's Psycho Key social issues addressed include the war on terror poverty the housing crisis and the Time's Up movement The volume grounds its analysis in the films rather than theory in order to explore the ways in which institutions identities and ideologies work within the horror genre

Stephen King and the Uncanny Imaginary Erin Mercer, 2023-08-25 Offering an insightful examination of Stephen King's fiction this book utilises a psychoanalytical approach drawing on Freud's theory of the uncanny It demonstrates how entrenched King's work is in a literary tradition influenced by psychoanalytic theory as well as the ways that King evades and

amends Freud Such an approach positions King's texts not simply as objects of interpretation that might yield latent meaning but as producers of meaning King can certainly be read through the lens of the uncanny but this book also aims to consider the uncanny through the lens of King Organised around specific elements of the uncanny that can be found in King's fiction this book explores the themes of death and the return of the dead monstrosity telepathy inanimate objects becoming menacingly animate and spooky children Popular texts are considered such as *IT* *The Shining* and *Pet Sematary* as well as less discussed work including *The Institute* *The Regulators* and *Desperation* The book's central argument is that King's uncanny motifs offer insightful commentary on what is repressed in contemporary culture and insist on the failure of scientific rationalism to explain the world King's uncanny imaginary rejects dualistic notions of an experiencing self in an inert physical world and insists that psychic experience is bound up with the environmental This book will be of interest to students and scholars of contemporary and popular literature gothic and horror studies and cultural studies

Dissecting Stephen King Heidi Strengell, 2005 In a thoughtful well informed study exploring fiction from throughout Stephen King's immense oeuvre Heidi Strengell shows how this popular writer enriches his unique brand of horror by building on the traditions of his literary heritage Tapping into the wellsprings of the gothic to reveal contemporary phobias King invokes the abnormal and repressed sexuality of the vampire the hubris of *Frankenstein* the split identity of the werewolf the domestic melodrama of the ghost tale Drawing on myths and fairy tales he creates characters who like the heroic Roland the Gunslinger and the villainous Randall Flagg may either reinforce or subvert the reader's childlike faith in society And in the manner of the naturalist tradition he reinforces a tension between the free will of the individual and the daunting hand of fate Ultimately Strengell shows how King shatters our illusions of safety and control King places his decent and basically good characters at the mercy of indifferent forces survival depending on their moral strength and the responsibility they may take for their fellow men
