The New York Market for French Art in the Gilded Age, 1867-1893 Leanne M. Zalewski,2022-12-15 This transatlantic study analyses a missing chapter in the history of art collecting the first art market bubble in the United States In the decades following the Civil War French art monopolized art collections across the United States During this Gilded Age picture rush the commercial art system art dealers galleries auction houses exhibitions museums art journals press coverage art histories and collection catalogues established a strong foothold it has not relinquished to this day In addition a pervasive concern for improving aesthetics and providing the best contemporary art to educate the masses led to the formation not only of private art collections but also of institutions such as the Metropolitan Museum of Art and to the publication of art histories Richly informed by collectors and art dealers diaries letters stock books journals and hitherto neglected art histories The New York Market for French Art in the Gilded Age 1867 1893 offers a fresh perspective on this trailblazing era

Italy for Sale ,2023-08-14 In the late nineteenth and early twentieth centuries Italian Renaissance art objects and even the idea of Italy itself figured heavily both in the dynamic international art market and in the eyes of the general public The alternative objects that were actively dispersed and collected authentic works pastiches Renaissance inspired counterfeits and reproductions in the diverse media of paint plaster terracotta and photography had a tremendous impact on visual culture across social strata These essays examine less studied aspects of this market through the lens of just a few of the countless successful sales of objects out of Italy

Collecting the Now Michael Maizels,2022-08-09 Collecting the Now offers a new in depth look at the economic forces and institutional actors that have shaped the outlines of postwar art history with a particular focus on American art 1960 1990 Working through four case studies Michael Maizels illuminates how a set of dealers and patrons conditioned the iconic developments of this period the profusions of pop art the quixotic impossibility of land art the dissemination of new media and the speculation fueled neo expressionist painting of the 1980s This book addresses a question of pivotal importance to a swath of art history that has already received substantial scholarly investigation We now have a clear nuanced understanding of why certain evolutions took place why pop artists exploded the delimited parameters of aesthetic modernism why land artists further strove against the object form itself and why artists

returned to neo traditional painting in the 1980s But remarkably elided by extant scholarship has been the question of how How did conditions coalesce around pop so that its artists entered into museum collections and scholarly analyses at pace unprecedented in the prior history of art How when seeking to transcend the delimited gallery object were land artists able to create monumental and by extension monumentally expensive interventions in the extreme wilds of the Western deserts And how did the esoteric objects of media art come eventually to scholarly attention in the sustained absence of academic interest or a private market The answers to these questions lie in an exploration of the financial conditions and funding mechanisms through which these works were created advertised distributed and preserved Byron, Sully, and the Power of Portraiture John Clubbe, 2017-11-28 Since the early nineteenth century Byron the man and his image have captured the hearts and minds of untold legions of people of all political and social stripes in Britain Europe America and around the world This book focuses on the history and cultural significance for Federal America of the only portrait of Byron known to have been painted by a major artist In private hands from 1826 until this day Thomas Sully's Byron has never before been the subject of scholarly study Beginning with his discovery of the portrait in 1999 and a 200 year narrative of the portrait's provenance and its relation to other well known Byron portraits the author discusses the work within the broad context of British and American portraiture of the late eighteenth and early nineteenth centuries Receiving most attention are Thomas Lawrence and Sully his American counterpart The author gives the fullest account to date of Sully's career and his relation to English influences and to figures prominent in the early nineteenth century American imagination among them Washington Fanny Kemble Lafayette Joseph Bonaparte and Nicholas Biddle Byron is discussed as an icon of the young American Republic whose Jubilee year coincided with Sully's initial work on the poet's portrait Later chapters offer a close reading of the portrait arguing that Sully has given a visual interpretation truly worthy of his celebrated controversial and famously handsome subject *The Economy of Early America* Cathy D. Matson, 2006-01-01 In recent years scholars in a number of disciplines have focused their attention on understanding the early American economy The result has been an outpouring of scholarship some of it dramatically revising older methodologies and findings and some of it charting entirely new territory new subjects new places and new arenas of study that might not have been considered economic in the past The Economy of Early America enters this resurgent discussion of the early American economy by showcasing the work of leading scholars who represent a spectrum of historiographical and methodological viewpoints Contributors include David Hancock Russell Menard Lorena Walsh Christopher Tomlins David Waldstreicher Terry Bouton Brooke Hunter Daniel Dupre John Majewski Donna Rilling and Seth Rockman as well as Cathy Matson Routledge Library Editions: Lord Byron Various, 2021-02-25 This set reissues 7 books on the Romantic poet Lord Byron originally published between 1957 and 2005 The volumes examine Byron's poetry his poetic development and his social and private life Lord Byron's epic satiric poem Don Juan is examined by some of the leading scholars of Romanticism **Manufacturing the Modern Patron in Victorian California**

John Ott, 2017-07-05 Through the example of Central Pacific Railroad executives Manufacturing the Modern Patron in Victorian California redirects attention from the usual art historical protagonists artistic producers and rewrites narratives of American art from the unfamiliar vantage of patrons and collectors Neither denouncing nor lionizing nor dismissing its subjects it demonstrates the benefits of taking art consumers seriously as active contributors to the cultural meanings of artwork It explores the critical role of art patronage in the articulation of a new and distinctly modern elite class identity for newly ascendant corporate executives and financiers These economic elites also sought to legitimate trends in industrial capitalism such as mechanization incorporation and proletarianization through their consumption of a diverse array of elite culture including regional landscapes panoramic and stop motion photography history paintings of the California Gold Rush the architecture of Stanford University and the design of domestic galleries This book addresses not only readers in the art history and visual and material cultures of the United States but also scholars of patronage studies American Studies and the sociology of culture It tells a story still relevant to this new Gilded Age of the early 21st century in which wealthy collectors dramatically shape contemporary art markets and institutions The Legal System of Art Auction in China Zhen

Zheng, 2022-02-21 This book is the first book to comprehensively and deeply explain and construct the legal system of Chinese art auctions Based on agency theory in traditional contract law this book combs the legal relationship between client auctioneer and buyer Aiming at the most difficult problem of art identification this book shows the obligations that auctioneers must perform and the common methods for auctioneers to avoid these obligations The purpose of this book is to ease the current situation in which the interests of buyers and auctioneers are too opposed and speed up the legalization process of art auctions through the construction of the legal system of art auctions in China Additionally using the method of policy demonstration this book discusses how public power should intervene in the process of art auctions *Talking Prices*

Olav Velthuis, 2013-10-24 How do dealers price contemporary art in a world where objective criteria seem absent Talking Prices is the first book to examine this question from a sociological perspective On the basis of a wide range of qualitative and quantitative data including interviews with art dealers in New York and Amsterdam Olav Velthuis shows how contemporary art galleries juggle the contradictory logics of art and economics In doing so they rely on a highly ritualized business repertoire For instance a sharp distinction between a gallery's museumlike front space and its businesslike back space safeguards the separation of art from commerce Velthuis shows that prices far from being abstract numbers convey rich meanings to trading partners that extend well beyond the works of art A high price may indicate not only the quality of a work but also the identity of collectors who bought it before the artist's reputation was established Such meanings are far from unequivocal For some a high price may be a symbol of status for others it is a symbol of fraud Whereas sociological thought has long viewed prices as reducing qualities to quantities this pathbreaking and engagingly written book reveals the rich world behind these numerical values Art dealers distinguish different types of prices and attach moral significance to

them Thus the price mechanism constitutes a symbolic system akin to language **Rogues' Gallery** Philip Hook,2017-01-26 Philip Hook takes the lid off the world of art dealing to reveal the brilliance cunning greed and daring of its practitioners In a richly anecdotal narrative he describes the rise and occasional fall of the extraordinary men and women who over the centuries have made it their business to sell art to kings merchants nobles entrepreneurs and museums From its beginnings in Antwerp where paintings were sometimes sold by weight to the rich hauteur of the contemporary gallery in London Paris and New York art dealing has been about identifying what is intangible but infinitely desirable and then finding clients for whom it is irresistible Those who have purveyed art for a living range from tailors spies and the occasional anarchist to scholars aristocrats merchants and connoisseurs each variously motivated by greed belief in their own vision of art and its history or simply the will to win The cast of characters includes Paul Durand Ruel the Impressionists champion Herwath Walden who first brought Modernism into the limelight Daniel Henry Kahnweiler high priest of Cubism Leo Castelli dealer midwife to Abstract Expressionism and Pop Art and Peter Wilson the charismatic Sotheby's chairman who made the auction room theatre Philip Hook's history is one of human folly greed and duplicity interspersed with ingenuity inspiration and acts of heroism Rogues Gallery is learned witty and irresistibly readable **Collecting China** Vimalin

Rujivacharakul,2011-02-14 Collecting China is a unique collection of essays that brings together theories of materiality and what collecting has meant to various peoples over time Collecting China grew out of a simple question how does a thing become Chinese Fifteen essays explore this question from different angles ranging from close examination of world renowned private collections to critical reinterpretations of historical writings **In the Desert of Desire** William L.

Fox,2007-08-01 Las Vegas says William Fox is a pay as you play paradise that succeeds in satisfying our fantasies of wealth and the excesses of pleasure and consumption that go with it In this context Fox examines how Las Vegas's culture of spectacle has obscured the boundaries between high art and entertainment extravaganza nature and fantasy for profit and nonprofit enterprises His purview ranges from casino art galleries including Steve Wynn's private collection and a branch of the famed Guggenheim Museum to the underfunded Las Vegas Art Museum from spectacular casino animal collections like those of magicians Siegfried and Roy and Mandalay Bay's Shark Reef exhibit to the city's lack of support for a viable public zoo from the environmental and psychological impact of lavish water displays in the arid desert to the artistic ambiguities intrinsic to Las Vegas's floating world of showgirls lapdancers and ballet divas That Las Vegas represents one of the world's most opulent displays of private material wealth in all its forms while providing miserly funding for local public amenities like museums and zoos is no accident Fox maintains Nor is it unintentional that the city's most important collections of art and exotic fauna are presented in the context of casino entertainment part of the feast of sensation and excitement that seduces millions of visitors each year Instead this phenomenon shows how our insatiable modern appetite for extravagance and spectacle has diminished the power of unembellished nature and the arts to teach and inspire us and demonstrates the way

our society privileges private benefit over public good Given that Las Vegas has been a harbinger of national cultural trends Fox's commentary offers prescient insight into the increasing commercialization of nature and culture across America
