Language Of Space Bryan Lawson:

Language of Space Bryan Lawson, 2007-08-15 Helps to reconnect your everyday implicit knowledge with your professional conceptual knowledge Gain a greater understanding of clients by questioning the values you commonly hold Promotes easier communication by taking the abstract idea of space and placing it in real terms Territoriality and Hospitality John Azumah, Cheikh Anta Babou, 2024-10-16 In a world where religion is frequently viewed as a source of conflict and division what can we learn from the harmonious coexistence of Christian and Muslim communities flourishing in Africa and elsewhere This collaborative work inspired by the life and legacy of Lamin Sanneh seeks to highlight valuable lessons from the rich Christian and Muslim traditions of hospitality through bringing together voices and perspectives from diverse backgrounds and contexts developing a vision for the common good of society Amplifying a contextual understanding of Christian Muslim relations the authors from Africa and across the world reflect on and respond to the cultural themes of territoriality and hospitality resulting in a comprehensive resource for constructive engagement of the faiths in shared public spaces Readers invested in the future of Christianity and Islam will learn how these cultural and theological resources are vital for both faiths to live and flourish together in Africa and beyond *Computational Science and Its Applications - ICCSA 2014* Beniamino Murgante, Sanjay Misra, Ana Maria Alves Coutinho Rocha, Carmelo Torre, Jorge Gustavo Rocha, Maria Irene Falcão, David Taniar, Bernady O. Apduhan, Osvaldo Gervasi, 2014-07-01 The six volume set LNCS 8579 8584 constitutes the refereed proceedings of the 14th International Conference on Computational Science and Its Applications ICCSA 2014 held in Guimarães Portugal in June July 2014 The 347 revised papers presented in 30 workshops and a special track were carefully reviewed and selected from 1167 The 289 papers presented in the workshops cover various areas in computational science ranging from computational science technologies to specific areas of computational science such as computational geometry and security **Architecture and Ritual** Peter Blundell Jones, 2016-08-25 Architecture and Ritual explores how the varied rituals of everyday life are framed and defined in space by the buildings which we inhabit It penetrates beyond traditional assumptions about architectural style aesthetics and utility to deal with something more implicit how buildings shape and reflect our experience in ways of which we remain unconscious Whether designed to house a grand ceremony or provide shelter for a daily meal all buildings coordinate and consolidate social relations by giving orientation and focus to the spatial practices of those who use them Peter Blundell Jones investigates these connections between the social and the spatial providing critical insights into the capacity for architecture to structure human ritual from the grand and formal to the mundane This is achieved through deep readings of individual pieces of architecture each with a detailed description of its particular social setting and use The case studies are drawn from throughout architectural history and from around the globe each enabling a distinct theoretical theme to emerge and showing how social conventions vary with time and place as well as what they have in common Case studies range from the Nuremberg Rally to the Centre Pompidou and from the Palace of

Westminster to Dogon dwellings in Africa and a Modernist hospital In considering how all architecture has to mesh with the habits beliefs rituals and expectations of the society that created it the book presents deep implications for our understanding of architectural history and theory It also highlights the importance for architects of understanding how buildings frame social space before they prescribe new architectural designs of their own The book ends with a recent example of user participation showing how contemporary user interest and commitment to a building can be as strong as ever Architectural Intelligence in the Age of Artificial Intelligence Andri Gerber,Oya Atalay Franck,Michael

Mieskes,2025-09-19 How will AI transform architecture How can we conceptualize AI in the context of architecture The contributors to this volume discuss different positions to understand the fundamental shift provoked by AI and contextualize this shift in forms of operational theories and performative uses of the medium The volume includes essays by practicing architects who explain how AI is used in their work by philosophers who reflect on the impact of AI on our way of thinking and conceptualizing the world and by scientists who explain the foundations and the potential of AI for architecture It provides the starting point to engaging with AI in architecture **Handbook of Theory and Practice of Sustainable**

Modern Hospice Design Ken Worpole, 2009-05-13 There is a global public debate going on about care for the elderly and the dying and what is meant by good quality palliative care This book begins with the rise of the modern hospice movement begun in 1967 Today there are 8 500 modern hospice projects in 123 countries The hospice has become an iconic building for this new culture This is not a book about hospitals as such but about what lessons the hospice movement has for new ideas about buildings for healthcare across the world For architects and interior designers estate and facility managers involved in hospice design healthcare professionals hospital administrators and Healthcare Trust Boards

Our House, 2006-01-01 Space has emerged in recent years as a radical category in a range of related disciplines across the humanities Of the many possible applications of this new interest some of the most exciting and challenging have addressed the issue of domestic architecture and its function as a space for both the dramatisation and the negotiation of a cluster of highly salient issues concerning amongst other things belonging and exclusion fear and desire identity and difference Our House is a cross disciplinary collection of essays taking

as its focus both the prospect and the possibility of the house This latter term is taken in its broadest possible resonance encompassing everything from the great houses so beloved of nineteenth century English novelists to the caravans and mobile homes of the latterday travelling community and all points in between The essays are written by a combination of established and emerging scholars working in a variety of scholarly disciplines including literary criticism sociology cultural studies history popular music and architecture No specific school or theory predominates although the work of two key figures Gaston Bachelard and Martin Heidegger is engaged throughout This collection engages with a number of key issues raised by the increasingly troubled relationship between the cultural built and natural environments in the contemporary world

Rethinking Basic Design in Architectural Education Mine Ozkar, 2017-03-27 Rethinking Basic Design in Architectural Education provides historical and computational insights into beginning design education for architecture Inviting the readers to briefly forget what is commonly known as basic design it delivers the account of two educators Denman W Ross and Arthur W Dow from the turn of the twentieth century in Northeast America interpreting key aspects of their methodology for teaching foundations for design and art This alternate intellectual context for the origins of basic design as a precursor to computational design complements the more haptic more customized and more open source design and fabrication technologies today Basic design described and illustrated here as a form of low tech computation offers a setting for the beginning designer to consciously experience what it means to design Individualized dealings with materials tools and analytical techniques foster skills and attitudes relevant to creative and technologically adept designers The book is a timely contribution to the theory and methods of beginning design education when fast changing design and production technology demands change in architecture schools foundations curricula

Bounded Wilderness Kathryn Jasper, 2024-10-15 In Bounded Wilderness Kathryn Jasper focuses on the innovations undertaken at the hermitage of Fonte Avellana in central Italy during the eleventh century by its prior Peter Damian d 1072 The congregation of Fonte Avellana experimented with reforming practices that led to new ways of managing property and relations among clergy nobles and the laity Jasper charts how Damian's notion of monastic reform took advantage of the surrounding topography and geography to amplify the sensory aspects of ascetic experiences By focusing on monastic landscapes and land ownership Jasper demonstrates that reform extended beyond abstract ideas Rather reform circulated locally through monastic networks and addressed practical concerns such as property boundaries and rights over water orchards pastures and mills Putting new sources both documentary and archaeological into conversation with monastic charters and Damian's letters Bounded Wilderness reveals the interrelationship of economic practices religious traditions and the natural environment in the idea and implementation of reform

Art and Architecture for Congregational Worship Richard S. Vosko, 2019-08-01 A deep strain of tribal politics is dividing societies around the globe Organized religions are also coping with scandals disappointments and polarizing ideologies The history of Christianity reveals that such frictions deeply wound the church Fr

Richard S Vosko recognizes that liturgical buildings are metaphorical expressions of the people of God He proposes in a relational way that when all physical and psychological boundaries in a place of worship are removed people will discover a common ground Building on theological foundations and design principles Vosko envisions what an egalitarian servant church can look like In a bold but thoughtful manner he presents progressive insights into the fields of church art and architecture

Digital History and Hermeneutics Andreas Fickers,Juliane Tatarinov,2022-06-21 As a result of rapid advancements in computer science during recent decades there has been an increased use of digital tools methodologies and sources in the field of digital humanities While opening up new opportunities for scholarship many digital methods and tools now used for humanities research have nevertheless been developed by computer or data sciences and thus require a critical understanding of their mode of operation and functionality The novel field of digital hermeneutics is meant to provide such a critical and reflexive frame for digital humanities research by acquiring digital literacy and skills A new knowledge for the assessment of digital data research infrastructures analytical tools and interpretative methods is needed providing the humanities scholar with the necessary munition for doing critical research The Doctoral Training Unit Digital History and Hermeneutics at the University of Luxembourg applies this analytical frame to 13 PhD projects By combining a hermeneutic reflection on the new digital practices of humanities scholarship with hands on experimentation with digital tools and methods new approaches and opportunities as well as limitations and flaws can be addressed

Film, Philosophy and Religion William H. U. Anderson,2022-01-04 Hollywood is a 40 billion annual business one that is highly influential in culture If we want to know who we are as individuals and a society what we believe and what we value we need to know and understand Hollywood and film Make no mistake Hollywood is neither philosophically politically nor morally neutral Many studies demonstrate how movies affect us long before we have thought it through In other words Hollywood smuggles all kinds of ideas into our minds and hearts without us even knowing it While Hollywood may be the biggest and most influential in the world this book will demonstrate the growing international influence of film from India Bollywood Nigeria Nollywood Zimbabwe Zollywood and Yesil am Turkey Film Philosophy and Religion explicitly and implicitly takes a philosophical approach to analyzing film theoretically and methodologically There are topic and film specific chapters that take a theological approach and others that explore ideas like Affect Axiology Art Reflecting the Artist and Transcendence Spirituality of Film Hermeneutics also have a central role in the book including films based on biblical texts that act as interpretations of these texts and fill in the blanks albeit speculatively by way of script and directors Chapters also explore the philosophy of aesthetics and film realism which end with theology while other chapters explore the incompatibility of science with religion as well as a chapter on the timely topic of rape in Turkish film The book s scope goes from the Horror of Evil in Ridley Scott s Alien Universe to Love Can Thaw a Frozen Heart The Philosophy of Love in the Frozen Films Disney Princess Narratives This book represents international films and scholars The diverse perspectives from theist to atheist and

Why Architects Matter Flora Samuel, 2018-03-09 Why Architects Matter examines the key role of research led ethical architects in promoting wellbeing sustainability and innovation It argues that the profession needs to be clear about what it knows and the value of what it knows if it is to work successfully with others Without this clarity the marginalization of architects from the production of the built environment will continue preventing clients businesses and society from getting the buildings that they need The book offers a strategy for the development of a twenty first century knowledge led built environment including tools to help evidence develop and communicate that value to those outside the field Knowing how to demonstrate the impact and value of their work will strengthen practitioners ability to pitch for work and access new funding streams This is particularly important at a time of global economic downturn with ever greater competition for contracts and funds driving down fees and making it imperative to prove value at every level Why Architects Matter straddles the spheres of Practice Management and Law History and Theory Design Housing Sustainability Health Marketing and Advice for Clients bringing them into an accessible whole The book will therefore be of interest to professional architects architecture students and anyone with an interest in our built environment and the role of professionals within it

Space and Muslim Urban Life Simon O'Meara, 2007-08-09 This book develops academic understanding of Muslim urban space by pursuing the structural logic of the premodern Arab Muslim city or medina With particular reference to The Book of Walls an historical discourse of Islamic law whose primary subject is the wall the book determines the meaning of a wall and then uses it to analyze the space of Fez One of a growing number of studies to address space as a category of critical analysis the book makes the following contributions to scholarship Methodologically it breaks with the tradition of viewing Islamic architecture as a well defined object observed by a specialist at an aesthetically directed

distance rather it inhabits the logic of this architecture by rethinking it discursively from within the culture that produced it Hermeneutically it sheds new light on one of North Africa s oldest medinas and thereby illuminates a type of environment still common to much of the Arab Muslim world Empirically it brings to the attention of mainstream scholarship a legal discourse and aesthetic that contributed to the form and longevity of this type of environment and it exposes a preoccupation with walls and other limits in premodern urban Arab Muslim culture and a mythical paradigm informing the foundation narratives of a number of historic medinas Presenting a fresh perspective for the understanding of Muslim urban society and thought this innovative study will be of interest to students and researchers of Islamic studies architecture and sociology

The Architects' Journal ,2002 **Public Urban Space, Gender and Segregation** Reza Arjmand,2016-09-13 Public spaces are the renditions of the power symmetry within the social setting it resides in and is both controlling and confining of power In an ideologically laden context urban design encompasses values and meanings and is utilized as a means to construct the identity and perpetuate visible and invisible boundaries Hence gendered spatial dichotomy based on a biological division of sexes is often employed systematically to evade the transgression of women into the public spaces The production of modern urban space in the Middle East is formed in the interplay between modernity tradition and religion Examining women in public spaces and patterns of interaction with gender segregated and mixed space this book argues that gendered spaces are far from a static physical spatial division and produce a complex and dynamic dichotomy of men public and women private Taking the example of Iran normative and ideologically laden gender segregated public spaces have been used as a tool for the Islamization of everyday life The most recent government effort includes women only parks purportedly designed and administered through women s contributions as well as to accommodate their needs and provide space for social interaction and activities Combining research approaches from urban planning and social sciences this book analyses both technical and social aspects of women only parks Addressing the relationships between ideology urban planning and gender the book interprets power relations and how they are used to define and plan public and semi public urban spaces Lack of communication across disciplinary boundaries as result of complexities of urban life has been one of the major hindrances in studying urban spaces in the Middle East Addressing the concern the cross disciplinary approach employed in this volume is an amalgamation of methods informed by urban planning and social sciences which includes an in depth analysis of the morphological perceptual social visual functional and temporal dimensions of the public space the women only parks in Iran Based on critical ethnography this volume uses a phenomenological approach to understating women in gendered spaces Interaction of women in women only parks in Iran a gendered space which is growing in popularity across the Muslim world is discussed thoroughly and compared vis vis gender neutral public spaces The book targets scholars and students within a wide range of academic disciplines including urban studies urban planning gender studies political science Middle Eastern studies cultural studies urban anthropology urban sociology Iranian studies and Islamic studies
