Language Study Based Bantu Root Formation Word Comparison:

A Language-study Based on Bantu F. W. Kolbe,1888 *A Language-study Based on Bantu* F. W. Kolbe,1972 The Right Method of Studying the Greek and Latin Classics Herbert William Horwill,1887 **A Comparative Grammar of South African Languages** Wilhelm Heinrich Immanuel Bleek,1862 **A Language-study Based on Bantu** Frederick William Kolbe,1888 **Scientific Racism in Modern South Africa** Saul Dubow,1995-06-30 A study of the history of intellectual and scientific racism in modern South Africa **Trübner's American, European, & Oriental Literary Record**,1883 *A Language-Study Based on Bantu* Rev F W Kolbe,2015-12-16 An excerpt from CHAPTER I INTRODUCTORY What is language Essays on this ever recurring question abound their number is legion From the earliest times there have not been wanting speculative minds who have endeavoured to solve this problem Various theories have been propounded but not one has led to an absolute certainty as to the true beginnings of human speech Indeed such is the mass of conflicting opinions on the subject and such the obscurity which still envelops it that a Linguistic Society in France is said to declare in one of its first statutes that it will receive no communication concerning the origin of language But a resolution like this is evidently premature and unscientific Is it possible then in any science or art to determine beforehand what can be discovered and what not And is it not so that comparative philology is a progressive science and compared with other branches of human knowledge still in its infancy What if after all in some obscure part of the globe a language or family of languages be in existence so primitive that the words can be traced to first elements and that in it the first laws of universal speech can be discovered It appears to me that there is good reason for believing that the African Bantu family and especially Herero which may be called the Sanskrit of Bantu has been preserved in such a primitive state as to make it possible to discover certain simple laws that guided the first man in creating the stock of radicals from which universal language has sprung Let the student for once divest himself of all preconceived notions on the subject and carefully examine the facts that shall be laid before him He will then be convinced that the continent of Africa supplies new and wondrous forms the examination of which will upset many favourite theories based upon the very limited phenomena supplied by the Aryan and Semitic families R N Cust Languages of Africa **Hausa Grammar with Exercises, Readings and Vocabulary** Charles Henry Robinson,1897 *Trübner's American and Oriental Literary Record*,1884 A monthly register of the most important works published in North and South America in India China and the British colonies with occasional notes on German Dutch Danish French Italian Spanish Portuguese and Russian books **Trübner & Co.'s Monthly List**,1886 **Bookseller and the Stationery Trades' Journal**,1887 The Bookseller and the Stationery Trades' Journal,1888 Official organ of the book trade of the United Kingdom *Journal of the African Society* African Society,1922 **Kafir Scholar's Companion** I. Book of the Panjābī Language William St. Clair Tisdall, 1889 **Africa in Translation** Sara Pugach, 2012-01-03

Africa in Translation is a thoughtful contribution to the literature on colonialism and culture in Germany and will find readers in the fields of German history and German studies as well as appealing to audiences in the large and interdisciplinary fields of colonialism and postcolonialism Jennifer Jenkins University of Toronto The study of African languages in Germany or Afrikanistik originated among Protestant missionaries in the early nineteenth century and was incorporated into German universities after Germany entered the Scramble for Africa and became a colonial power in the 1880s Despite its long history few know about the German literature on African languages or the prominence of Germans in the discipline of African philology In Africa in Translation A History of Colonial Linguistics in Germany and Beyond 1814 1945 Sara Pugach works to fill this gap arguing that Afrikanistik was essential to the construction of racist knowledge in Germany While in other countries biological explanations of African difference were central to African studies the German approach was essentially linguistic linking language to culture and national identity Pugach traces this linguistic focus back to the missionaries belief that conversion could not occur unless the Word was allowed to touch a person's heart in his or her native language as well as to the connection between German missionaries living in Africa and armchair linguists in places like Berlin and Hamburg Over the years this resulted in Afrikanistik scholars using language and culture rather than biology to categorize African ethnic and racial groups Africa in Translation follows the history of Afrikanistik from its roots in the missionaries practical linguistic concerns to its development as an academic subject in both Germany and South Africa throughout the nineteenth and twentieth centuries Sara Pugach is Assistant Professor of History at California State University Los Angeles Jacket image Perthes Justus Mittel und S d Afrika Map Courtesy of the University of Michigan's Stephen S Clark Library map collection
