Language War Peace Palestine Justice:

Critical Pedagogies for Modern Languages Education Derek Hird, 2023-07-13 In the context of Black Lives Matter decolonizing initiatives MeToo climate emergency protests and other movements for social and environmental justice this volume posits a simple question how can modern languages be taught so that they challenge rather than reinforce social inequalities Informed by interdisciplinary theories Critical Pedagogies for Modern Language Education focuses on practical discussions of case studies in areas directly relevant to the classroom contexts of modern languages educators The volume transforms modern language educators and the modern language profession by putting the politics of language teaching at the centre of its analysis With case studies covering 11 languages Modern Standard Arabic Dutch English French German Levantine Mandarin Portuguese Spanish Swedish Tamazight across 13 countries and regions Austria Brazil China France Italy the Levant Morocco the Netherlands Palestine Spain Sweden the UK and the USA the contributors cover a wide range of theories including critical discourse analysis activist pedagogies culturally sustaining pedagogy linguistic justice and translanguaging With student teacher collaboration at its heart critical modern languages pedagogy unmasks the ideologies and hegemonies that lie behind mainstream language use and affirms the value of minority linguistic and cultural practices The volume thus provides transformative approaches to modern languages teaching and learning that respond to the key social concerns of the 21st century **Justice and Peace in the Israeli-Palestinian Conflict** Yaacov Bar Siman

Tov, 2014-09-19 In this book the late Prof Yaacov Bar Siman Tov argues that the failure of the Israeli Palestinian peace process so far has been mainly the result of the inability of both sides to reach an agreed formula for linking justice to peace The issues of justice and injustice are focused mainly on the outcomes of the 1947 1949 first Arab Israeli War and specifically in the creation of the Palestinian refugee problem The conflicting historical narratives of the two sides regarding the question of responsibility for the injustice done to the Palestinians turn the Israeli Palestinian conflict into a classic case of linking the issues of justice and peace Yaacov Bar Siman Tov maintains that the narratives of justice and injustice in the Israeli Palestinian conflict have proved to be formidable barriers to peace Hence he recommends that justice should be compromised for the sake of peace The link between justice and peace is an important issue requiring both sides attention but given the wide and currently unbridgeable gap separating the two sides it should be postponed to the phase of reconciliation rather than being included in the process of conflict resolution The two state solution is endorsed as the best and practical solution and as a first step for a just peace in this conflict to be followed by reconciliation Highly topical this book is essential reading for scholars and researchers of International Relations Peace Studies and the Arab Israeli conflict

Shifting Sands Raja Shehadeh, Penny Johnson, 2015-08-06 At a time when the Middle East dominates media headlines more than ever and for reasons that become ever more heartbreaking *Shifting Sands* brings together fifteen impassioned and informed voices to talk about a region with unlimited potential and yet which can feel as one writer puts it as though the

world around me is on fire Collecting together the thoughts and insights of writers who live or have deep roots in there Shifting Sands takes a look at aspects of the Middle East from the catastrophic long term effects of the carving up of the region by the colonial powers after World War One to the hopes and struggles of the Arab spring in relation to Egypt Iran and Syria And it asks questions such as what is it like to be a writer in the Middle East What does the future hold And where do we go from here For all those who are wearied by the debates surrounding the Middle East often at best ill informed and at worst defeatist propaganda this intelligent reasoned perspective on life in the Middle East is a breath of fresh air

Language of War, Language of Peace Raja Shehadeh, 2015-08-20 **Victims of Political Violence and Terrorism**

William McGowan, 2022-02-22 This book examines the survivors of political violence and terrorism considering both how they have responded and how they have been responded to following critical incidents As this work demonstrates survivors of comparatively rare and spectacular violence hold a mirror up to society's normative assumptions around trauma recovery and resilience Drawing on two years of observational field research with a British NGO who work with victims and former perpetrators of PVT this book explores contested notions of resilience and what it might mean for those negotiating the aftermaths of violence Examining knowledge about resilience from a multitude of sources including security policy media academic literature and the survivors themselves this book contends that in order to make empirical sense of resilience we must reckon with both its discursive and practical manifestations An accessible and compelling read this book will appeal to students and scholars of criminology sociology victimology criminal justice and all those interested in the stories of survivors

Transitional (in)Justice and Enforcing the Peace on Palestine Brendan Ciarán Browne, 2023-02-15 This book considers the growing interest in transitional justice practices that take place against the backdrop of ongoing settler colonialism in Palestine By critiquing the role of common top down and bottom up interventions namely truth recovery and international criminal justice the book argues that transitional justice acts as an extension of a deeply flawed peacebuilding process that has been so destructive in Palestine and has a deflating effect when it comes to advancing calls for meaningful decolonisation A radicalisation of transitional justice that takes place in settler colonial contexts one that prioritises conversations around meaningful decolonisation is therefore required The book will appeal to those with an interest in peacebuilding conflict transformation and transitional justice Justice, Responsibility and Reconciliation in the Wake of Conflict

Alice MacLachlan, Allen Speight, 2012-12-04 What are the moral obligations of participants and bystanders during and in the wake of a conflict How have theoretical understandings of justice peace and responsibility changed in the face of contemporary realities of war Drawing on the work of leading scholars in the fields of philosophy political theory international law religious studies and peace studies the collection significantly advances current literature on war justice and post conflict reconciliation Contributors address some of the most pressing issues of international and civil conflict including the tension between attributing individual and collective responsibility for the wrongs of war the trade offs made

between the search for truth and demands for justice and the conceptual intricacies of coming to understand just what is meant by peace and conflict Individual essays also address concrete topics including the international criminal court reparations truces political apologies truth commissions and criminal trials with an eye to contemporary examples from conflicts in the Middle East Africa and North and South America *War, Peace and International Relations in Islam* Yitzhak Reiter, 2011 Presents and analyses fatwas rulings of Islamic law issued by religious sages and clerics on issues of war and peace in regard to the actual or future possibility of conducting a peace agreement between Muslim states and Israel

Advocate of Peace Through Justice, 1921 *Meditations* Roger Lee Ray, 2019-07-18 A Sample Meditation Loss on the Way to Enlightenment Avoidance rationalization religion reality projection distraction Acknowledging that we often grow tired of the painful truth about poverty illness racism discrimination environmental ruin and warfare we confess that we have escaped through distraction using food entertainment alcohol and personal isolation We regret most deeply that we have fashioned religions to mask reality often blaming our cruel indifference on a divine being of our own creation Liberate us from the darkness of ignorance and call us we pray into the light of truth that we may be partners in working for peace and justice **Justice in Conflict** Mark Kersten, 2016 What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts What are the effects of interventions by the International Criminal Court ICC on the wars in which the institution intervenes Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution This book offers an in depth examination of the effects of interventions by the ICC on peace justice and conflict processes The peace versus justice debate wherein it is argued that the ICC has either positive or negative effects on peace has spawned in response to the Court s propensity to intervene in conflicts as they still rage This book is a response to and a critical engagement with this debate Building on theoretical and analytical insights from the fields of conflict and peace studies conflict resolution and negotiation theory the book develops a novel analytical framework to study the Court s effects on peace justice and conflict processes This framework is applied to two cases Libya and northern Uganda Drawing on extensive fieldwork the core of the book examines the empirical effects of the ICC on each case The book also examines why the ICC has the effects that it does delineating the relationship between the interests of states that refer situations to the Court and the ICC s institutional interests arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace justice and conflict processes While the effects of the ICC s interventions are ultimately and inevitably mixed the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying analyzing and understanding the effects of the Court s interventions in Libya northern Uganda and beyond Gender, Justice, and the Wars in Iraq Laura Sjoborg, 2006-01-01 Gender Justice and the Wars in Iraq offers a feminist critique and reconstruction of just war theory It points out gender biases in the just war tradition and suggests alternative jus ad bellum and jus in bello standards that emphasize women political marginality and

empathy Laura Sjoberg applies this feminist just war theory to analyze the wars in Iraq since the end of the Cold War the First Gulf War the war of sanctions and the Second Gulf War By examining international political discourse from and about Iraq it shows where war generally and just war specifically are gendered Through the stories of key just war characters like Jessica Lynch this book reveals where women are omitted and subordinated in global politics Sjoberg suggests that dialogue and empathy replace righteousness in just war thinking for the good of human safety everywhere and concludes with alternative visions of Gulf War policies inspired by feminist just war theory

What is a Just Peace? Pierre Allan, Alexis Keller, 2006-01-26 Just War has attracted considerable attention The words peace and justice are often used together Surprisingly however little conceptual thinking has gone into what constitutes a Just Peace This book which includes some of the world's leading scholars debates and develops the concept of Just Peace The problem with the idea of a Just Peace is that striving for justice may imply a Just War In other words peace and justice clash at times Therefore one often starts from a given view of what constitutes justice but this a priori approach leads especially when imposed from the outside straight into discord This book presents conflicting viewpoints on this question from political historical and legal perspectives as well as from a policy perspective The book also argues that Just Peace should be defined as a process resting on four necessary and sufficient conditions thin recognition whereby the other is accepted as autonomous thick recognition whereby identities need to be accounted for renouncement requiring significant sacrifices from all parties and finally rule the objectification of a Just Peace by a text requiring a common language respecting the identities of each and defining their rights and duties This approach based on a language oriented process amongst directly concerned parties goes beyond liberal and culturalist perspectives Throughout the process negotiators need to build a novel shared reality as well as a new common language allowing for an enduring harmony between previously clashing peoples It challenges a liberal view of peace founded on norms claiming universal scope The liberal conception has difficulty in solving conflicts such as civil wars characterized typically by fundamental disagreements between different communities Cultures make demands that are identity defining and some of these defy the cultural neutrality that is one of the foundations of liberalism Therefore the concept of Just Peace cannot be solved within the liberal tradition

Just Peace Theory Book One Valerie Elverton Dixon, 2012-11-29 In these essays I often refer to social contracts such as the Declaration of Independence the Constitution of the United States the Universal Declaration of Human Rights and other international conventions that describe a vision of just human relations especially in the area of culture and health care We do not live behind a veil of ignorance where we enter into contemplation of questions of right and wrong without an awareness of our own particularities Moreover we do not always determine what is right based on reason But we do make decisions every day about how we will live within the social contracts that govern our lives Many of us go along to get along with a let's not rock the boat preserve the status quo caution Then there are those of us who use the documents of our social contracts to secure more justice and more peace The purpose is to rock the boat

and to disrupt the status quo when it is unjust I understand Christ as a title not as a person It is a designation of an anointing This in my opinion is the anointing of radical love Christ is the human incarnation of divine love We each ought to strive to become this whether or not we are Christian whether or not we are even believers Those of us who are Christians believe that Jesus paid it all There is no more need for blood shed sacrifice Murder is never holy God does not need it or want it Our work now is to become living sacrifices that will redeem this world through justice and peace That is the meaning of these essays From the Introduction Creating Justice Eliza Garnsey, Caitlin Hamilton, 2024-12-16 What can art offer to facilitate a fuller understanding of human rights and human rights violations How do arts based interventions help to highlight injustices empower individuals and groups and advocate for and effect change How do art practices help to reveal new dimensions of violations and aid in post conflict recovery In this edited volume twenty seven artists and scholars working across a range of practices and approaches answer these questions and many more through a series of conversations They offer deeply personal reflections on creative labour sharing original and rich insights into a range of ongoing social and political struggles violent conflicts and human rights abuses **Pharaohs on Both Sides of the Blood-Red Waters** Allan Aubrey Boesak, 2017-07-12 After the civil rights and anti apartheid struggles are we truly living in post racial post apartheid societies where the word struggle is now out of place Do we now truly realize that as President Obama said the situation for the Palestinian people is intolerable This book argues that this is not so and asks What has Soweto to do with Ferguson New York with Cape Town Baltimore with Ramallah With South Africa the United States and Palestine as the most immediate points of reference it seeks to explore the global wave of renewed struggles and nonviolent revolutions led largely by young people and the challenges these pose to prophetic theology and the church It invites the reader to engage in a trans Atlantic conversation on freedom justice peace and dignity These struggles for justice reflect the proposal the book discusses there are pharaohs on both sides of the blood red waters Central to this conversation are the issues of faith and struggles for justice the call for reconciliation its possibilities and risks the challenges of and from youth leadership prophetic resistance and the resilient audacious hope without which no struggle has a future The book argues that these revolutions will only succeed if they are claimed embraced and driven by the people **Resilience, Adaptive Peacebuilding and Transitional Justice** Janine Natalya Clark, Michael Ungar, 2021-10-07 Explores innovative ways to build peace after large scale violence by combining resilience adaptive peacebuilding and transitional justice **Justice and World Order** George Andreopoulos, Henry F Carey, 2022-04-28 This book critically assesses the impact of Richard A Falk s scholarship which has spanned nearly six decades and addressed key issues at the intersections of international law and relations Falk has offered powerful insights on the nature and reach of international law international relations and the structure of their respective processes in order to assess the main challenges to the creation of a just world order the path breaking concept which he has helped to develop Continuing in the critical spirit that has informed Richard s work as a scholar and a public intellectual this

book reflects a multiplicity of perspectives and approaches in the analysis and assessment of these selected themes This volume looks at four key themes of Falk s work International Law and International Relations Theories and Concepts War Peace and Human Security Social and Political Justice and The Scholar as Citizen and Activist This will be a useful book for scholars and students of international law global governance political theory and international relations theory and for those studying human security international organizations and transnational activism **Four Arab-Israeli Wars and the Peace Process** Sydney D. Bailey, 2016-07-27 In focusing on four major wars in the Arab Israeli conflict from 1947 to 1979 all of them ending in agreed ceasefires truces or armistices this book concentrates on the external efforts after each war to help resolve the conflict Boundaries of Discourse in the International Court of Justice Michelle L. Burgis, 2009 How can Third World experiences of colonialism and statehood be expressed within the confines of the International Court of Justice How has the discourse of international law developed to reflect postcolonial realities of universal statehood In a close and critical reading of four territorial disputes spanning the Arab World Burgis explores the extent to which international law can be used to speak for and speak to non European experiences of authority over territory The book draws on recent critical international legal scholarship to question the ability of contemporary international adjudication to address Third World grievances from the past A comparative analysis of the cases suggests that international law remains a discourse only capable of capturing a limited range of non European experiences during and after colonialism
