**Metro Manila Street Map** Asiatype, Incorporated, 2003      **A Heritage of Ruins** William R. Chapman, 2013-07-31 The ancient ruins of Southeast Asia have long sparked curiosity and romance in the world's imagination. They appear in accounts of nineteenth century French explorers as props for Indiana Jones adventures and more recently as the scene of Lady Lara Croft's fantastical battle with the forces of evil. They have been featured in National Geographic magazine and serve as backdrops for popular television travel and reality shows. Now William Chapman's expansive new study explores the varied roles these monumental remains have played in the histories of Southeast Asia's modern nations. Based on more than fifteen years of travel research and visits to hundreds of ancient sites, *A Heritage of Ruins* shows the close connection between ruins, conservation, and both colonialism and nation building. It also demonstrates the profound impact of European-derived ideas of historic and aesthetic significance on ancient ruins and how these continue to color the management and presentation of sites in Southeast Asia today. Angkor, Pagan, Bagan, Borobudur, and Ayutthaya lie at the center of this cultural and architectural tour, but less-visited sites including Laos's stunning Vat Phou, the small temple platforms of Malaysia's Lembah Bujang Valley, the candi of the Dieng Plateau in Java, and the ruins of Mingun in Burma and Wiang Kum Kam near Chiang Mai in northern Thailand are also discussed. All share a relative isolation from modern urban centers of population, sitting in park-like settings serving as objects of tourism and as lynchpins for local and even national economies. Chapman argues that these sites also remain important to surrounding residents both as a means of income and as continuing sources of spiritual meaning. He examines the complexities of heritage efforts in the context of present-day expectations by focusing on the roles of both outside and indigenous experts in conservation and management and on attempts by local populations to reclaim their patrimony and play a larger role in protection and interpretation. Tracing the history of interventions aimed at halting time's decay, Chapman provides a chronicle of conservation efforts over a century and a half, highlighting the significant part foreign expertise has played in the region and the ways that national programs have in recent years begun to break from earlier models. The book ends with suggestions for how Southeast Asian managers and officials might best protect their incomparable heritage of art and architecture and how this legacy might be preserved for future generations.

**Architecture of Thailand** Nithi Sathāpitānōn, Brian Mertens, 2012 Beginning with a history of the country and its cultural influences, this book describes and illustrates a range of structures from Thai houses to elaborate temples and even crematoriums. It concludes with a look at contemporary Thai architecture and how traditional architecture practices have been adapted to suit modern needs.      **Bangkok Guide**, 2005      **Dictionary of South & Southeast Asian Art** Gwyneth Chaturachinda, Sunanda Krishnamurty, Pauline W. Tabtiang, 2004-04-01 This basic dictionary of South and Southeast Asian art offers clear and concise explanations of hundreds of useful terms. With over 1,300 entries and 112 line illustrations, this volume makes a handy reference for anyone interested and engaged in South and Southeast Asia. Entries range from terms

encountered in South and Southeast Asian history religion mythology literature to those specific to art and architecture and are drawn from the diverse religious traditions of the region      **Woman between Two Kingdoms** Leslie

Castro-Woodhouse,2020-12-15 *Woman between Two Kingdoms* explores the story of Dara Rasami one of 153 wives of King Chulalongkorn of Siam during the late nineteenth and early twentieth centuries Born in a kingdom near Siam called Lan Na Dara served as both hostage and diplomat for her family and nation Thought of as a harem by the West Siam's Inner Palace actually formed a nexus between the domestic and the political Dara's role as an ethnic Other among the royal concubines assisted the Siamese in both consolidating the kingdom's territory and building a local version of Europe's hierarchy of civilizations Dara Rasami's story provides a fresh perspective on both the sociopolitical roles played by Siamese palace women and Siam's response to the intense imperialist pressures it faced in the late nineteenth century Thanks to generous funding from the Andrew W Mellon Foundation through The Sustainable History Monograph Pilot the ebook editions of this book are available as Open Access volumes from Cornell Open [cornellpress.cornell.edu/cornell-open](http://cornellpress.cornell.edu/cornell-open) and other repositories

**Forest Guardians, Forest Destroyers** Tim Forsyth,Andrew Walker,2011-07-01 In this far reaching examination of environmental problems and politics in northern Thailand Tim Forsyth and Andrew Walker analyze deforestation water supply soil erosion use of agrochemicals and biodiversity in order to challenge popularly held notions of environmental crisis They argue that such crises have been used to support political objectives of state expansion and control in the uplands They have also been used to justify the alternative directions advocated by an array of NGOs In official and alternative discourses of economic development the peoples living in Thailand's hill country are typically cast as either guardians or destroyers of forest resources often depending on their ethnicity Political and historical factors have created a simplistic misleading and often scientifically inaccurate environmental narrative Hmong farmers for example are thought to exhibit environmentally destructive practices whereas the Karen are seen as linked to and protective of their ancestral home Forsyth and Walker reveal a much more complex relationship of hill farmers to the land to other ethnic groups and to the state They conclude that current explanations fail to address the real causes of environmental problems and unnecessarily restrict the livelihoods of local people The authors critical assessment of simplistic environmental narratives as well as their suggestions for finding solutions will be valuable in international policy discussions about environmental issues in rapidly developing countries Moreover their redefinition of northern Thailand's environmental problems and their analysis of how political influences have reinforced inappropriate policies demonstrate new ways of analyzing how environmental science and knowledge are important arenas for political control This book makes valuable contributions to Thai studies and more generally to the fields of environmental science ecology geography anthropology and political science as well as to policy making and resource management in the developing world      **The Rough Guide to Thailand** Paul Gray,Lucy Ridout,2012-01-01 These acclaimed travel guides feature a dramatic full color section at the front design elements to make them easier to use up to
