Made in China Amelia Pang, 2022-01-04 A February Indie Next Pick A New York Times Book Review Editors Choice A Newsweek Refinery 29 Most Anticipated Book of 2021 A Finalist for the 2019 J Anthony Lukas Work in Progress Award In 2012 when Julie Keith opened a package of Halloween decorations she had purchased at a big box store near her home in Oregon something shocking fell out an SOS letter handwritten in broken English by the prisoner who had made and packaged the items The letter's author Sun Yi was a Chinese engineer turned political prisoner an ordinary citizen forced into grueling labor for campaigning for the freedom to join a forbidden meditation movement He was imprisoned alongside petty criminals civil rights activists and tens of thousands of others the Chinese government had decided to reeducate carving foam gravestones and stitching clothing for more than fifteen hours a day In this page turning and urgent book investigative journalist Amelia Pang pulls back the curtain on the human cost of the cheap consumer products Americans take for granted She goes deep inside a closely guarded network of laogai forced labor camps to tell the stories of men and women like Sun as well as members of the persecuted Uyghur minority group whose abuse and mass internment have provoked international outcry Impeccably researched and bravely reported Made in China is ultimately a call to action urging us to think more critically about and demand more answers from the companies we patronize Book jacket **Citizen Publications in China Before the Internet** S. Jiang, 2015-06-16 This book presents the first panoramic study of minkan citizen publications in China before the Internet This recent history of citizen publications contributes to the reclamation of a lost past of resistance It is an exercise in remembering a past that has been marginalized by official history and recovering ideas obliterated by state power

Revolutionary Transformations Anja Blanke, Julia C. Strauss, Klaus Mühlhahn, 2023-04-13 An international team of scholars explore China's transformative revolutionary decade the 1950s calling into question existing narratives

Stalin and Mao Lucien Bianco, 2018-03-15 China's ascent to the ranks of the world's second largest economic power has given its revolution a better image than that of its Russian counterpart Yet the two have a great deal in common Indeed the Chinese revolution was a

carbon copy of its predecessor until Mao became aware not so much of the failures of the Russian model but of its inability to adapt to an overcrowded third world country Yet instead of correcting that model Mao decided to go further and faster in the same direction The aftershock of an earthquake may be weaker but the Great Leap Forward of 1958 in China was far more destructive than the Great Turn of 1929 in the Soviet Union It was conceived with an idealistic end but failed to take all the possibilities into account China's development only took off after and thanks to Mao's death once the country turned its back on the revolution Lucien Bianco's original comparative study highlights the similarities the all powerful bureaucracy the over exploitation of the peasantry which triggered two of the worst famines of the 20th century control over writers and artists repression and labor camps The comparison of Stalin and Mao that completes the picture leads the author straight back to Lenin and he quotes the observation by a Chinese historian that If at all possible it is best to avoid revolutions altogether
