Grasso,2013-11-14 Boxing is one of the oldest sports in the world reaching back to the Ancient Greeks although it has become popular only in the past century or so But in some ways it is a rather complicated sport since to avoid unnecessary harm it has been endowed with rules to keep it clean referees to see the rules are obeyed and organizations to regulate the sport Boxing was once largely amateur although the professional bouts attracted the most attention but now it is also an Olympic sport And over the years there has been one champion after another who symbolized what boxing was all about such Joe Louis Mohammad Ali and Cassius Clay Naturally these champions are the focus of the Historical Dictionary of Boxing as well and they have the biggest entries in the dictionary section but they had to fight against someone and there are dozens and dozens of other boxers with smaller entries More of these boxers come from the United States than elsewhere but there are others from Europe Asia and Latin America and there are also entries on the major boxing countries as well Plus entries on the rules on the organizations and on the technical terminology and jargon you have to know just to follow the bouts The introduction provides a broad view of boxing s history while the chronology traces events from 688 B C to 2012 A D Not all that much has been written on boxing that is not ephemeral but much of that literature can be found in the bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the sport of boxing

The Fighting Frenchman Paul Levy,2016-06-01 Scott LeDoux s face read like a roadmap of boxing s last golden era eye thumbled by Larry Holmes brow gashed by Mike Tyson ears stung by none other than Muhammad Ali George Foreman hit me so hard LeDoux said my ancestors in France felt it The only man to step into the ring with eleven heavyweight champions LeDoux also fought through two of boxing s greatest scandals recurring illness and childhood trauma that haunted him for decades This is his story the life and times of a Minnesota Rocky making the most of the hard knocks that bruise the American Dream told in full for the first time by award winning journalist Paul Levy He was never a world champion but

Scott LeDoux was always the people's champ. Doing his best to turn a small town miner's son into boxing's next great white hope. Don King said of Scott LeDoux: "He eats rusty nails for breakfast, punches holes in concrete with either hand, bobs and weaves like a giant Rocky Marciano." He was a big, good-natured kid with a ready wit and the will to take all comers along on a ride he himself found hard to believe. From the mining community of Crosby, Minnesota, to the dingy, mildew-scented dressing rooms in minor league towns like Sioux Falls and Billings, to the stage of Madison Square Garden, Levy gives us a real sense of what it was like to spar with fighters such as Tyson and Ali. The buried secrets of childhood abuse and the harrowing sadness of death and disease in his family make LeDoux's triumphs and defeats all the more poignant, and in Levy's irresistible narrative, unforgettable.

Even before the desegregation of the military and public education, and before blacks had full legal access to voting, racial barriers had begun to fall in American sports. This collection of essays shows that for many African Americans, it was the world of athletics that first opened an avenue to equality and democratic involvement. *Race and Sport* showcases African Americans as key figures making football, baseball, basketball, and boxing internationally popular, though inequalities still exist today. Among the early notables discussed is Fritz Pollard, an African American who played professional football before the National Football League established a controversial color barrier. Another, the boxer Sugar Ray Robinson, exemplifies the black American athlete as an international celebrity. African American women also played an important role in bringing down the barriers, especially in the early development of women's basketball. In baseball, both African American and Hispanic players faced down obstacles and entered the sports mainstream after World War II. One essay discusses the international spread of American imperialism through sport. Another shows how mass media images of African American athletes continue to shape public perceptions. Although each of these six essays explores a different facet of sports in America, together they comprise an analytical examination of African American society's tumultuous struggle for full participation, both on and off the athletic field.
