comparative literature **The Intellectual Education of the Italian Renaissance Artist** Angela Dressen, 2021-09-02

Scholars have traditionally viewed the Italian Renaissance artist as a gifted but poorly educated craftsman whose complex and demanding works were created with the assistance of a more educated advisor. These assumptions are in part based on research that has focused primarily on the artist's social rank and workshop training. In this volume, Angela Dressen explores the range of educational opportunities that were available to the Italian Renaissance artist. Considering artistic formation within the history of education, Dressen focuses on the training of highly skilled average artists, revealing a general level of learning that was much more substantial than has been assumed. She emphasizes the role of mediators who had a particular interest in augmenting artists' knowledge and highlights how artists used Latin and vernacular texts to gain additional knowledge that they avidly sought. Dressen's volume brings new insights into a topic at the intersection of early modern intellectual, educational, and art history.

Our Beautiful, Dry, and Distant Texts James Elkins, 2010-11-01 Elkins argues that writing is what art historians produce and whether such writing is a transparent vehicle for the transmission of facts or an embattled forum for the rehearsal of institutional relations and constructions of history, it is an expressive medium with the capacity for emotion and reflection. Therefore, it needs to be taken seriously for its own sake; it is the testament of art history and of individual historians, and it is only weakened and slighted by versions of history that imagine it either as uncontrolled dissemination or as objective discovery and reporting.

Late Medieval Italian Art and Its Contexts Joanna Cannon, 2022
Joanna Cannon's scholarship and teaching have helped shape the historical study of thirteenth and fourteenth century Italian art; this essay collection by her former students is a tribute to her work. The essays collected here form a tribute to Joanna Cannon, whose scholarship and teaching have done so much to shape the historical study of thirteenth and fourteenth century Italian art. Her teaching lies at the heart of this book, as its chapters are all written by those who gained their doctorates under her supervision. The reach of her interests and expertise is also reflected in its range of subjects. The book is unified by its concentration on Italian art history and material culture, spanning the thirteenth to the fifteenth centuries, but within that scope, the individual essays focus on an impressive variety of subjects across many media, including panel painting, wall painting, architecture, sculpture, metalwork, manuscripts, and gilded glass. Ranging across Italy from Bologna to Siena to Assisi to Florence, they address key themes in the field, such as artistic patronage, sainthood and sanctity, the visual culture of the mendicant orders, devotional practice, and civic religion. Some essays bring fresh approaches to familiar material: Ambrogio Lorenzetti's Saint Nicholas panels, the frescoes in Siena's Palazzo Pubblico, Simone Martini's Holy Family, while others illuminate objects and images that are less well known: the central panel of the Santa Chiara triptych in Trieste and the statue of Saint Francis in San Francesco in Siena. As a collection, they combine to make an important contribution to the study of Early Italian art, seeking thereby to echo the extraordinary contribution of Joanna Cannon's own work to that field.

Fischer,2017-08-21 Popularized by the hit television show the phrase breaking bad is defined in urban slang as someone who challenges convention defies authority or rejects moral and social norms Running from 2008 to 2013 on AMC Breaking Bad featured one of the most unforgettable characters in television history Walter White a high school chemistry teacher husband and father who is diagnosed with terminal cancer For five seasons fans watched as Walter White tried to secure financial security for his family by using his chemistry skills to manufacture drugs Throughout the series run Walter White was the epitome of the phrase breaking bad as he broke the law and continually rejected the social mores that he had dutifully followed until his cancer diagnosis Taking its cue from Walter White this volume explores the various ways in which artists patrons and art historians throughout history have broken bad by defying authority challenging convention or rejecting the norm For example artists also sometimes break away from tradition by using unconventional iconography as is the case in Chapter Two which investigates how Etruscan tomb reliefs show mourning rather than celebration The book also includes a chapter in which an art historian breaks bad by challenging the conventional interpretation and date of an object thus eschewing tradition and defying authority In this case Chapter Three disputes the largely accepted Hellenistic date and interpretation of the Tazza Farnese and instead asserts that the cameo must be Roman Spanning the art of ancient Etruria to the twentieth century the eight chapters here explore the theme of breaking bad from a variety of time periods and artistic media from Etruscan mirrors and Roman cameos to Baroque portraits and Italian Pop Art Scholars approach the topic of breaking bad from a number of perspectives including examining the artist patronage reception propaganda iconography methodology and use

Renaissance Characters Eugenio Garin,1997-05-09 Compared to the Middle Ages the Renaissance is brief little more than two centuries extending roughly from the mid fourteenth century to the end of the sixteenth century and largely confined to a few Italian city states Nevertheless the epoch marked a great cultural shift in sensibilities the dawn of a new age in which classical Greek and Roman values were reborn and human values in all fields from the arts to civic life were reaffirmed With this volume Eugenio Garin a leading Renaissance scholar has gathered the work of an international team of scholars into an accessible account of the people who animated this decisive moment in the genesis of the modern mind We are offered a broad spectrum of figures major and minor as they lived their lives the prince and the military commander the cardinal and the courtier the artist and the philosopher the merchant and the banker the voyager and women of all classes With its concentration on the concrete the specific even the anecdotal the volume offers a wealth of new perspectives and ideas for study

Renaissance & Mannerism Diane Bodart,2008 From the 15th to the 16th centuries Western European culture flourished thanks in part to the astonishing achievements of such Renaissance artists as da Vinci Donatello Raphael Botticelli and Michelangelo and Mannerist painters including El Greco Pontormo and Tintoretto In Florence the cradle of the Renaissance artists pursued ancient classical ideals of harmony and naturalism and in architecture forms of perfection and grandeur Mannerists in the early 16th century valued exaggeration elongated figures unnatural lighting and vivid even lurid colors to create more tension and emotion in their work This stunning volume follows these two
