Harrison,2021-08-12 As the population of the greater Las Vegas area grows and the climate warms the threat of a water shortage looms over southern Nevada But as Christian S Harrison demonstrates in All the Water the Law Allows the threat of shortage arises not from the local environment but from the American legal system specifically the Law of the River that governs water allocation from the Colorado River In this political and legal history of the Las Vegas water supply Harrison focuses on the creation and actions of the Southern Nevada Water Authority SNWA to tell a story with profound implications and important lessons for water politics and natural resource policy in the twenty first century In the state with the smallest allocation of the Colorado s water supply Las Vegas faces the twin challenges of aridity and federal law to obtain

water for its ever expanding population All the Water the Law Allows describes how the impending threat of shortage in the 1980s compelled the five metropolitan water agencies of greater Las Vegas to unify into a single entity Harrison relates the circumstances of the SNWA s evolution and reveals how the unification of local county and state interests allowed the compact to address regional water policy with greater force and focus than any of its peers in the Colorado River Basin Most notably the SNWA has mapped conservation plans that have drastically reduced local water consumption and in the interstate realm it has been at the center of groundbreaking water sharing agreements Yet these achievements do not challenge the fundamental primacy of the Law of the River If current trends continue and the Basin States are compelled to reassess the river s distribution the SNWA will be a force and a model for the Basin as a whole The Worst Hard Time Timothy Egan,2006-09-01 In a tour de force of historical reportage Timothy Egan s National Book Award winning story rescues an iconic chapter of American history from the shadows The dust storms that terrorized the High Plains in the darkest years of the Depression were like nothing ever seen before or since Following a dozen families and their communities through the rise and fall of the region Timothy Egan tells of their desperate attempts to carry on through blinding black dust blizzards crop failure and the death of loved ones Brilliantly capturing the terrifying drama of catastrophe he does equal justice to the human characters who become his heroes the stoic long suffering men and women whose lives he opens up with urgency and respect New York Times In an era that promises ever greater natural disasters The Worst Hard Time is arguably the best nonfiction book yet Austin Statesman Journal on the greatest environmental disaster ever to be visited upon our land and a powerful reminder about the dangers of trifling with nature This e book includes a sample chapter of THE IMMORTAL IRISHMAN **Unsettling the Literary West** Nathaniel Lewis,2003-01-01 The test of western literature has invariably been Is it real Is it accurate Authentic The result is a standard anything but literary as Nathaniel Lewis observes in this ambitious work a wholesale rethinking of the critical terms and contexts and thus of the very nature of western writing Why is western writing virtually missing from the American literary canon but a frequent success in the marketplace The skewed status of western literature Lewis contends can be directly attributed to the strategies of the region s writers and these strategies depend consistently on the claim of authenticity A perusal of western American authorship reveals how these writers effectively present themselves as accurate and reliable recorders of real places histories and cultures but not as stylists or inventors The imaginative qualities of this literature are thus obscured in the name of authentic reproduction Through a study of a set of western authors and their relationships to literary and cultural history Lewis offers a reconsideration of the deceptive and often undervalued history of western American literature With unequivocal admiration for the literature under scrutiny Lewis exposes the potential for startling new readings once western writing is freed from its insistence on a questionable authenticity His book sets out a broader system of inquiry that points writers and critics of western literature in the direction of a new and truly sustaining literary tradition Blood of the Prophets Will

Bagley,2012-09-06 The massacre at Mountain Meadows on September 11 1857 was the single most violent attack on a wagon train in the thirty year history of the Oregon and California trails Yet it has been all but forgotten Will Bagley s *Blood of the Prophets* is an award winning riveting account of the attack on the Baker Fancher wagon train by Mormons in the local militia and a few Paiute Indians Based on extensive investigation of the events surrounding the murder of over 120 men women and children and drawing from a wealth of primary sources Bagley explains how the murders occurred reveals the involvement of territorial governor Brigham Young and explores the subsequent suppression and distortion of events related to the massacre by the Mormon Church and others *Western Water Rights and the U.S. Supreme Court* James H.

Davenport,2020-09-30 Exploring the little known history behind the legal doctrine of prior appropriation first in time is first in right used to apportion water resources in the western United States this book focuses on the important case of *Wyoming v Colorado* 1922 U S Supreme Court Associate Justice Willis Van Devanter a former Chief Justice of Wyoming ruled in that state s favor finding that prior appropriation applied across state lines a controversial opinion influenced by cronyism The dicta in the case that the U S Government has no interest in state water allocation law drove the balkanization of interstate water systems and resulted in the Colorado River Interstate Compact between Wyoming Colorado Utah New Mexico Arizona Nevada and California The exhaustive research that has gone into this book has uncovered the secret that Associate Justice Van Devanter had waited eleven years to publish his opinion in this important but politically self serving case at last finding a moment when his senior colleagues were sufficiently absent or incapacitated to either concur or dissent Without the knowledge of his brethren save his loyal friend Taft and without recusal Van Devanter unilaterally delivered his sole opinion to the Clerk for publication on the last day of the Supreme Court s October 1921 Term **The Land That Could Be** William

A. Shutkin,2001-08-24 Environmentalist and lawyer William Shutkin describes a new kind of environmental and social activism spreading across the nation one that joins the pursuit of environmental quality with that of civic health and sustainable local economies In this book environmentalist and lawyer William Shutkin describes a new kind of environmental and social activism spreading across the nation one that joins the pursuit of environmental quality with that of civic health and sustainable local economies In the face of challenges posed by often corrosive market forces and widespread social disaffection this civic environmentalism is creating nothing less than a new public discourse and dynamic social vision grounded in environmental action Shutkin points the way to vibrant sustainable communities through four inspiring examples of civic environmentalism in action the redevelopment of contaminated urban land for agriculture in inner city Boston mass transit based development and waterfront restoration in Oakland protection of open space and conservation based development in rural Colorado and smart growth and sustainability strategies in suburban New Jersey The book s underlying message is that the nation s environmental health is a critical factor in its success as a vital democracy Social health democratic community and environmentalism Shutkin shows are one From the author s preface This book asserts that

environmentalism is as much about protecting ordinary places as it is about preserving wilderness areas as much about promoting civic engagement as it is about pursuing environmental litigation and as much about implementing sound economic development strategies as it is about negotiating global climate change treaties Ultimately I believe environmentalism is nothing less than about our conception of ourselves as a social and political community what the bald eagle our national symbol really means *FS (Series)* ,2001
