Derrida's Secret Charles Barbour, 2017-05-18 The Snowden Affair Wikileaks the lone wolf terrorist Clinton's private email account the secret is arguably the central element of our contemporary political experience Now Charles Barbour looks at the basic ontological question what is a secret Organised as a reflection on Jacques Derrida's later writings on secrecy four chapters each look at a separate problematic society and the oath literature and testimony philosophy and deception and time and death Barbour shows that secrecy is not a negation of our relations with others but a necessary condition of those relations We can only reveal ourselves to one another and indeed to anything other insofar as we conceal as well **Derrida**

bestselling author in his own time and long after Sir Walter Scott was not only a writer of thrilling tales of romance and adventure but also an insightful historical thinker and literary craftsman Over the last two decades scholars have come to see him as an important figure in Romantic period literature Scottish literature and the development of the historical novel Walter Scott and Contemporary Theory builds on this renewed appreciation of Scott's importance by viewing his most significant novels from Waverley and Rob Roy to Ivanhoe Redgauntlet and beyond through the lens of contemporary critical theory By juxtaposing pairings of Scott's early and later novels with major contemporary theoretical concepts and the work of such thinkers as Alain Badiou Judith Butler Jacques Derrida and Slavoj Žižek this book uses theory to illuminate the complexities of Scott's fictions while simultaneously using Scott's fictions to explain and explore the state of contemporary theory **The Unheard Prayer** Joseph Sterrett, 2012-07-26 Repeatedly Shakespeare dramatizes one who prays when no

one is listening interested or even there This study reads the scenario parallel to early modern anxieties surrounding prayer itself suggesting a vision of religious syncretism Shakespeare imagines for his world **Reading and Responsibility** Derek Attridge,2011-09-14 Newly available in paperback this book traces a close engagement with Derrida's writing over two decades examining the relationship between deconstruction literature and ethics **The ends of Ireland** Conor Carville,2024-06-04 The Ends of Ireland considers the work of a key group of critics emerging from Ireland through the 1980s and 1990s Seamus Deane Luke Gibbons David Lloyd W J McCormack Gerardine Meaney and Emer Nolan As the main representatives of the turn to theory in Irish Studies these critics have examined Irish culture in the light of ideas taken from psychoanalysis feminism Marxism and postcolonialism In a series of incisive yet accessible chapters Carville analyses the way in which these often provocative ideas have been put to work in the Irish context transforming our understanding of writers like Joyce and Beckett as well as informing broader debates around nationalism modernization memory and historical revisionism Essential reading for anyone concerned with Irish Studies and its relationship with theory the issues raised by The Ends of Ireland set a new agenda for Irish Studies in the coming times **The Tears of Sovereignty** Philip Lorenz,2013-06-26 The Tears of Sovereignty is a comparative study of the representation of the concept of sovereignty in paradigmatic plays of early modern English and Spanish drama It argues that baroque drama produces the critical terms through which contemporary philosophical criticism continues to think through the problems of sovereignty today

Pyropolitics in the World Ablaze Michael Marder,2020-11-09 From books and heretics burnt on the pyres of the Inquisition to self immolations at protest rallies from the burning of fossil fuels to inflammatory speech from the imagery of revolutionary sparks ready to ignite the spirits of the oppressed to car bombings and scorched earth policy fire proves to be an indispensable element of the political Pyropolitics in the World Ablaze builds upon the scintillating by turns horrifying and hopeful images and realities of flames hearths sparks immolations melting pots incinerations and burning in political thought and practices Relying on classical political theory theology philosophy literature and cinema as well as an analysis of current events Michael Marder argues that geo politics or the politics of the Earth has always had an unstable at once shadowy and blinding underside pyro politics or the politics of fire If this obscure double of geopolitics is increasingly dictating the rules of the game today then it is crucial to learn to speak its language to discern its manifestations and to project where our world ablaze is heading This new edition includes recent examples of the uses and accusations of incendiary speech both by Donald Trump and by European populist right and exploration of threats of global warming that have now reached a turning point in our collective relation to the dangers and promises of fire **The Literary Representation of World War II Childhood** Mary Honan,2017-08-21 Focusing on twenty one primary texts about childhood under Nazism this book examines how childhood in literature has changed over the years from the Romantic writers to child slave labour in the Victorian era the child soldier and the impact of deportation on both the child victim and their families post wartime The genres covered here

range from diaries letters comics allegories time travel novels fairy tales and novels about the Hitler Youth Because of its broad focus the work will be of interest to a broad readership from survivors of World War II and their families to historians teachers and librarians It will also benefit those practitioners working in the areas of deportation trauma child soldiering and human rights and tolerance studies The End of the World Marcia Sa Cavalcante Schuback,Susanna Lindberg,2017-03-29 The end of the world opens up philosophical questions concerning the very notion of the world which is a fundamental element of all existential phenomenological and hermeneutical philosophy Is the end of the world for us somebody s death the end of being in the world or the extinction of many or of all the end of the world itself Is the erosion of the world a phenomenon that does not in fact affect the notion of the world as a fundamental feature of all existential ontological inquiry This volume examines the present state of these concerns in philosophy film and literature It presents a philosophical hermeneutics of the present state of the world and explores the principal questions of the philosophical accounts of the end of the world such as finality and finitude It also shows how literature and cinema have ventured to express the end of the world while asking if a consequent expression of the end of the world is also an end of its expression **Give the Word: Responses to Werner Hamacher's "95 Theses on Philology"** Werner Hamacher,2019-06-19 Werner Hamacher s witty and elliptical 95 Theses on Philology challenges the humanities and particularly academic philology that assume language to be a given entity rather than an event In Give the Word eleven scholars of literature and philosophy Susan Bernstein Mich le Cohen Halimi Peter Fenves Sean Gurd Daniel Heller Roazen Jan Plug Gerhard Richter Avital Ronell Thomas Schestag Ann Smock and Vincent van Gerven Oei take up the challenge presented by Hamacher s theses At the close Hamacher responds to them in a spirited text that elaborates on the context of his 95 Theses and its rich theoretical and philosophical ramifications The 95 Theses included in this volume makes this collection a rich resource for the study and practice of radical philology Hamacher s philology interrupts and transforms parting with tradition precisely in order to remain faithful to its radical but increasingly occluded core The contributors test Hamacher s break with philology in a variety of ways attempting a philological practice that does not take language as an object of knowledge study or even love Thus in responding to Hamacher s Theses the authors approach language that because it can never be an object of any kind awakens an unfamiliar desire Taken together these essays problematize philological ontology in a movement toward radical reconceptualizations of labor action and historical time **The Storm at Sea** Christopher Pye,2015-03-02 The Storm at Sea Political Aesthetics in the Time of Shakespeare counters a tradition of cultural analysis that judges considerations of aesthetic autonomy in the early modern context to be either anachronistic or an index of political disengagement Pye argues that for a post theocratic era in which the mise en forme of the social domain itself was for the first time at stake the problem of the aesthetic lay at the very core of the political it is precisely through its engagement with the question of aesthetic autonomy that early modern works most profoundly explore their relation to matters of law state sovereignty and political subjectivity Pye establishes the

significance of a creationist political aesthetic at once a discrete historical category and a phenomenon that troubles our familiar forms of historical accounting and suggests that the fate of such an aesthetic is intimately bound up with the emergence of modern conceptions of the political sphere *The Storm at Sea* moves historically from Leonardo da Vinci to Thomas Hobbes it focuses on Shakespeare and English drama with chapters on *Hamlet* *Othello* *A Winter's Tale* and *The Tempest* as well as sustained readings of *As You Like It* *King Lear* Thomas Kyd's *Spanish Tragedy* and Christopher Marlowe's *Doctor Faustus* Engaging political thinkers such as Carl Schmitt Giorgio Agamben Claude Lefort and Roberto Esposito *The Storm at Sea* will be of interest to political theorists as well as to students of literary and visual theory **Kant's Dog** David E. Johnson, 2012-03-06 Kant's Dog provides fresh insight into Borges's preoccupation with the contradiction of the time that passes and the identity that endures By developing the implicit logic of the Borgesian archive which is most often figured as the universal demand for and necessary impossibility of translation Kant's Dog is able to spell out Borges's responses to the philosophical problems that most concerned him those of the constitution of time eternity and identity the determination of original and copy the legitimacy of authority experience the nature of language and the possibility of a decision and the name of God Kant's Dog offers original interpretations of several of Borges's best known and most important stories and of the works of key figures in the history of philosophy including Aristotle Saint Paul Maimonides Hume Locke Kant Heidegger and Derrida This study outlines Borges's curious relationship to literature and philosophy and through a reconsideration of the relation between necessity and accident opens the question of the constitution of philosophy and literature The afterword develops the logic of translation toward the secret at the heart of every culture in order to posit a Borgesian challenge to anthropology and cultural studies *The Oxford Handbook of Percy Bysshe Shelley* Madeleine Callaghan, 2013 The book is an authoritative and up to date collection of original essays on one of the greatest of all English poets Percy Bysshe Shelley It covers a wide range of topics exploring Shelley's life and work from various angles **Exploring Textual Action** Anders M Gullestad, Patrizia Lombardo, Lars Saetre, 2010-12-31 Exploring Textual Action questions how we analyse works of art after the performative turn and shows how the interplay of performativity textual action space and topography and the converging of genres and art forms is essential in modern drama theatre prose fiction poetry and film The volume also fosters a keen concern for the development of congenial theory Its 14 detailed essays analyse works of art ranging from Balzac Melville and George Eliot to Breton Kafka Benjamin Blixen and Woolf and from W C Williams Bresson and Scorsese to Sarraute Duras Reygadas Dumont and Waltz The approach of these studies discloses the art works as creative and dynamic utterances with active and shaping forces so powerful and consequential that they have the potential to transform human perception and blur clear distinctions between art and real life Using an alternative and dynamic method and suggesting a direction towards the detailed analysis of literature art media and culture Exploring Textual Action addresses current debates within the humanities *Language in Life, and a Life in Language: Jacob Mey, a Festschrift* Ken Turner, 2012-11-02 This is a collection

They Have All Been Healed Jan Plug, 2016-07-15 In perhaps the most provocative reading to date of the Swiss German modernist Robert Walser Walter Benjamin asserted that Walser's figures have all been healed *They Have All Been Healed* takes up and extends Benjamin's assessment by following the figure of healing throughout major works by Walser from his minidrama *Snow White* and his acknowledged masterpieces *The Walk* and *Jakob von Gunten* to his enigmatic last novel *The Robber* At the same time Jan Plug reads Walser alongside his most compelling readers tracing how not only Benjamin but also Giorgio Agamben W G Sebald and the Brothers Quay complicate clarify and enact that same process of healing in their

own work Working out the theological implications of Walser s work and of the tradition to which he gives rise Plug at once recasts one of the major authors of the twentieth century and articulates a new conception of healing and salvation On Schmitt and Space Claudio Minca,Rory Rowan,2015-07-24 This book represents the first comprehensive study of the influential German legal and political thinker Carl Schmitt s spatial thought offering the first systematic examination from a Geographic perspective of one of the most important political thinkers of the twentieth century It charts the development of Schmitt s spatial thinking from his early work on secularization and the emergence of the modern European state to his post war analysis of the spatial basis of global order and international law whilst situating his thought in relation to his changing biographical and intellectual context controversial involvement in Weimar politics and disastrous support for the Nazi regime It argues that spatial concepts play a crucial structural role throughout Schmitt s work from his well known analyses of sovereign power and states of exception to his often overlooked spatial history of modernity Locating a fundamental relationship between space and the political lies at the core of his thought The book explores the critical insight that Schmitt s spatial thought bears on some of the key political questions of the twentieth century whilst tracking his profound and enduring influence on key debates on sovereignty international relations war and the nature of world order at the start of the twenty first century
