Recent years have witnessed an increased interest in classical studies in the ways meaning is generated through the medium of intertextuality namely how different texts of the same or different authors communicate and interact with each other Attention although on a lesser scale has also been paid to the manner in which meaning is produced through interaction between various parts of the same text or body of texts within the overall production of a single author namely intratextuality Taking off from the seminal volume on Intratextuality Greek and Roman Textual Relations edited by A Sharrock H Morales Oxford 2000 which largely sets the theoretical framework for such internal associations within classical texts this collective volume brings together twenty seven contributions written by an international team of experts exploring the evolution of intratextuality from Late Republic to Late Antiquity across a wide range of authors genres and historical periods Of particular interest are also the combined instances of intra and intertextual poetics as well as the way in which intratextuality in Latin literature draws on reading practices and critical methods already theorized and operative in Greek antiquity

**A Translation and Interpretation of Horace's Iambi**  
 Andy Law, 2024-03-25 Horace's book of seventeen iambi by convention called Epodes contains some of the most complex and controversial poetry of his entire career This new interpretation exposes a poet in the throes of the torment of writing Horace crafts an artwork which reveals the agony of expressing agony He struggles to find the words as he gives voice to the anticipation of grief The poet's inner demons conspire against him Anything that could go wrong does go wrong At the end we realise that Horace might have never wanted to write this book in the first place But the fate of this writer is to be forever persecuted by his own writing Horace's iambi are methodically stitched together Meter intertextuality wordplay and theme combine strategically to provide an utterly compelling and vivid watercolor in words It is a work of art which is able to hold its place amongst any top tier poetry in any language in any era *Edinburgh Companion to Ancient Greece and Rome*
