how each model presents recurring challenges in both content moderation and the protection of free speech. The study delves into the regulation of harmful speech including defamation, violence, misinformation, and propaganda, highlighting the tensions between regulating prohibited content and preserving free speech online. Additionally, the book addresses digital authoritarianism and its manifestation in regulatory approaches, particularly the Chinese model of content regulation. It also scrutinizes platform-driven regulation, assessing the challenges posed by both human and AI-driven content moderation. Through a comparative analysis of legal frameworks across key jurisdictions including the United States (Section 230 of the Communications Decency Act), Germany (the Network Enforcement Act), India (the Information Technology Intermediary Guidelines and Digital Media Ethics Code Rules 2021), and Sri Lanka (the Online Safety Act 2024), the book examines how these frameworks navigate the balance between free speech rights and platform responsibilities in these jurisdictions, with the distinct context, power asymmetry of authorities, with the platforms, political and cultural landscape, and social media market. It further explores how these evolving models reflect significant differences in the roles of governments, platforms, regulatory authorities, standards, and compliance mechanisms. By engaging in a scholarly discussion on these issues from a legal and regulatory perspective, this book seeks to strike a balance between online free speech and legitimate restrictions. It provides a comparative lens on Western jurisprudence and the Majority World, linking common themes across jurisdictions to shed light on the intricate challenges of regulating online speech. In doing so, the book addresses a gap in the existing literature, offering a much-needed foundation for developing and updating both internal and external regulatory frameworks.

**The Culture of Migration** Sten Pultz Mosland, Ann Ring Petersen, 2015-06-30 Migration has been a phenomenon throughout human history, but today, as a result of economic hardship, conflict, and globalization, a higher percentage of people than ever before live outside their country of birth. Increased international migration has resulted in more movement of information, traditions, and cultures. Migration acts as a catalyst, not only for social change but also for the generation of new aesthetic phenomena. *The Culture of Migration* explores the ways in which culture and the arts have been transformed by migration in recent decades and, in turn, how these cultural and aesthetic transformations have contributed to shaping our identities, politics, and societies. Making an important contribution to the emerging cross-disciplinary field of migration studies, this book examines contemporary cultural and artistic representations of migration and gathers new perspectives on the subject from across the disciplines of the arts and humanities. Renowned and emerging scholars in the field of migration, culture, and aesthetics, among them the distinguished theorists Mieke Bal, Nikos Papastergiadis, Roger Bromley, and Edward Casey, address the broader themes and underlying discourses of recent studies in migration and culture.

### **The Virtual Rob**

Shields, 2005-06-27. This book looks at the origins and the many contemporary meanings of the virtual. Rob Shields shows how the construction of virtual worlds has a long history. He examines the many forms of faith and hysteria that have surrounded computer technologies in recent years. Moving beyond the technologies themselves, he shows how the virtual plays a role in our daily lives at every level. The virtual is also an essential concept needed to manage innovation and risk. It is real but not actual, ideal but not abstract. The virtual, he argues, has become one of the key organizing principles of contemporary society in the public realms of politics, business, and consumption as well as in our private lives.

### **The Kazakh Spring** Diana T.

Kudaibergen, 2024-05-23. How can a de-institutionalised protest movement disrupt a solidified repressive and extremely resilient authoritarian regime? Using the context of the Kazakh Spring protests, 2019-ongoing, Diana T. Kudaibergen focuses on how the interplay between a repressive regime and democratisation struggles define and shape each other. Combining original interview data, digital ethnography, and contentious politics studies, she argues that the new generation of activists, including Instagram political influencers and renowned public intellectuals, have been able to delegitimise and counter one of the most resilient authoritarian regimes and inspire mass protests that none of the formalised opposition ever imagined possible in Kazakhstan. The Kazakh Spring is the first book to detail the emergence of this political field of opportunities that allowed the possibility to rethink the political limits in Kazakhstan, essentially toppling the long-term dictator in unprecedented mass protests of the Bloody January 2022.

Until ambitions started overstretching, boundaries started melting, and favours became overpromising. Ram

could not have imagined up until the big wave hit him that he would be so instantly betrayed and uprooted by those who he thought to be the closest Startup Secrets from the Ramayana is the story of Ram's struggle of setting up his business empire from scratch in a span of fourteen years. It took grit moving out of his comfort zone and re-establishing himself with a new identity removed from the hangover of the past. The stories are inspired from the Ramayana to capture the celebrated wisdom of the god.

*The Company We Keep* Divya Khanna, 2023-01-16 There are many challenges facing business corporations today the pandemic we have barely moved on from economic recession rapid changes in consumer behaviour and technological and competitive disruptions. These challenges stick out like the visible tip of an iceberg while culture the biggest challenge is like the slow moving gigantic mass that lurks deep under the surface. We cannot deal sufficiently with superficial problems if we do not understand the depths that drive them. Culture eats strategy for breakfast is a widely accepted saying in the business world often attributed to Peter Drucker. This is as true for corporate India as it is for its consumers. Yet we spend more time and money studying our consumers and their cultures than we do ourselves. *The Company We Keep* is a market research based exploration of Indian corporate culture. It looks beyond the glamour and jargon of the business world to individual stories that share real personal insights into the aspirations vulnerabilities pressures and possibilities of corporate careers and lives. These are urgent conversations we need to keep having as we reflect review and decide where we can go from here.
