Governing Narratives Symbolic Politics And Policy Change Public Admin Criticism And Creativity:

Governing Narratives Hugh T. Miller, 2012-09-14 By highlighting the degree to which meaning making in public policy is more a cultural struggle than a rational and analytical project Governing Narratives brings public administration back into a political context In Governing Narratives Hugh T Miller takes a narrative approach in conceptualizing the politics of public policy In this approach signs and ideographs that is constellations of images feelings values and conceptualization are woven into policy narratives through the use of story lines For example the ideograph acid rain is part of an environmental narrative that links dead trees to industrial air pollution The struggle for meaning capture is a political struggle most in evidence during times of change or when status quo practices are questioned Public policy is often considered to be the end result of empirical studies quantitative analyses and objective evaluation But the empirical norms of science and rationality that have informed public policy research have also hidden from view those vexing aspects of public policy discourse outside of methodological rigor Phrases such as three strikes and you re out or flood of immigrants or don t ask don t tell or crack baby or the death tax have come to play crucial roles in public policy not because of the reality they are purported to reflect but because the meanings emotions and imagery connoted by these symbolizations resonate in our culture Social practices the very material of social order and cultural stability are inextricably linked to the policy discourse that accompanies social change Eventually a winning narrative dominates and becomes institutionalized into practice and implemented via public administration Policy is symbiotically associated with these winning narratives Practices might change again but this inevitably entails renewed political contestation The competition among symbolizations does not imply that the best narrative wins only that a narrative has won for the time being However unsettling the established narrative is a difficult political task particularly when the narrative has evolved into habitual institutionalized practice Governing Narratives convincingly links public policy to the discourse and rhetoric of deliberative politics
