**An Economic and Social History of the Netherlands, 1800-1920** Michael Wintle, 2000-09-21 An Economic and Social History of the Netherlands 1800 1920 provides a comprehensive account of Dutch history from the late eighteenth to the early twentieth century examining population and health the economy and socio political history The Dutch experience in this period is fascinating and instructive the country saw extremely rapid population growth awesome death rates staggering fertility some of the fastest economic growth in the world a uniquely large and efficient service sector a vast and profitable overseas empire characteristic pillarization and relative tolerance Michael Wintle also examines the lives of ordinary people what they ate how much they earned what they thought about public affairs and how they wooed and wed This book will be of central importance to Dutch specialists as well as European historians more generally

**Women's Emancipation Movements in the Nineteenth Century** Sylvia Paletschek, 2005-11-14 The nineteenth century a time of far reaching cultural political and socio economic transformation in Europe brought about fundamental changes in the role of women Women achieved this by fighting for their rights in the legal economic and political spheres In the various parts of Europe this process went forward at a different pace and followed different patterns Most historical research up to now has ignored this diversity preferring to focus on women s emancipation movements in major western European countries such as Britain and France The present volume provides a broader context to the movement by including countries both large and small from all regions of Europe Fourteen historians all of them specialists in women s history examine the origins and development of women s emancipation movements in their respective areas of expertise By exploring the cultural and political diversity of nineteenth century Europe and at the same time pointing out connections to questions explored by conventional scholarship the essays shed new light on common developments and problems

**Journal of Rehabilitation Research and Development**, 1988 [Journal of Rehabilitation Research & Development](#), 1988 *Monthly Bibliography*

United Nations Library (Geneva, Switzerland), 1989 *Traveling Heritages* Saskia Wieringa, 2008 In the context of our increasingly globalized and digitalized world libraries and archives are experiencing major changes The methods used internationally to collect cultural heritage and other historical material are shifting as new media have added important

innovative tools for gathering preserving and sharing information around the globe In light of our increasingly multicultural societies and the expanding digital divide we need new and more inclusive approaches to the collection of cultural heritage This means that critical reflection on both the contents of collections and methods of acquisition is crucial The International Information Center and Archives for the Women's Movement IIAV in Amsterdam provides a case study in how to approach these issues It considered such questions as how to make optimal use of new media and whose histories should be represented in its archives In *Traveling Heritages* international and national heritage experts from academic library and archival professions reflect upon these questions offering new perspectives on documenting women's histories

**Transnational Feminism in Non-English Speaking Europe, c.1960-1990** Agnes Andeweg, Heidi Kurvinen, 2024-12-27 This edited collection aims to look beyond established narratives of feminist history by focusing on non English speaking European countries Recent scholarship on the history of the women's liberation movement in individual countries has enhanced our understanding of the importance of transnational influences in the history of European feminism and problematised the periodisation of feminisms Additionally the translation of feminist practices and texts have received interest during the past years Despite this work the United States and to a lesser extent the United Kingdom are still the main points of reference in histories of post war feminism This book asks what happens to the picture if we place non English speaking European countries in the centre Using Lucy Delap's concept of mosaic feminism its contributors emphasise the variety of patterns that women's feminist organising showed in different cultural contexts despite similarities in their ideological corner stones

*The Netherlands and the Dutch* Eduardo F. J. De Mulder, Ben C. De Pater, Joos C. Drooglee, Fortuijn, 2018-07-28 This book presents a geographical survey of the Netherlands reviewing recent and historic developments that made the nation It is a relatively wealthy country and the Dutch belong to the happiest and healthiest on earth But these qualities are not evenly spread over the country The urban agglomeration of Randstad Holland in the west hosts most of the nation's capital and young well educated people whereas older and less educated people are concentrated in the peripheral areas in the north east and south Interactions between physical and human geographical aspects of the Netherlands are described quite extensively Its position on one of Europe's most prominent deltas its abundance of energy resources and the course of history have all contributed to its present national position and international networks But early and recent Dutch have also shaped this country They reclaimed lakes and shallow seas protected the lowlands against floods re allotted land parcels and designed and developed urban areas Besides its focus on water related topics the book also covers social and cultural aspects The book also discusses future challenges and offers scenarios for solutions This is a book for those interested in a wide variety of recent aspects of the geography of the Netherlands described in a historical context It appeals to students and researchers of many disciplines in geography urban and landscape planning water management history and cultural studies

**New Findings in Long-Wave Research** Alfred Klienkecht, Ernest Mandel, Immanuel Wallerstein, 1993-02-12 This book

presents new methods for the analysis of time series and the identification of long waves In Part One it is shown that new time series analyses confirm the existence of Kondratieff long waves in economic growth for the 19th and 20th centuries Part Two presents evidence on long waves in aggregate profit rates for selected major industrialized countries Part Three covers theoretical discussions and attempts at modeling social economic and technological factors in long waves **The Library Catalogs of the Hoover Institution on War, Revolution, and Peace, Stanford University** Hoover Institution on War, Revolution, and Peace,1969 *History of the Low Countries* J. C. H. Blom,E. Lamberts,2006-06-01 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it as even more difficult to the region set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike

**Two Centuries of Experience in Water Resources Management** John Lonnquest,Bert Toussaint,Joe Manous,2015-03-20 **Protecting Women** Ulla Wikander,Alice Kessler-Harris,Jane E. Lewis,1995 Enacted in almost every industrial country a century ago protective legislation directed toward women provoked bitter controversy pitting men against women women against women and elected officials against political parties Strong conflicts arose over what constituted protection Does this kind of legislation help preserve women s capacities to mother or is it intended to preserve men s jobs Does protective legislation help achieve workplace equality Does it give the state the right to intrude into private family life and if so how far In this international collection thirteen historians explore the origin and array of protective labor legislation directed at women The authors analyze ideologies attitudes and effects of legislation across women s classes among employers and workers organizations and in both bourgeois and socialist feminist groups Their essays raise profoundly disturbing questions and provide startling insights as to why the debates that originated more than a hundred years ago are still unresolved The contributors are from Australia Austria Denmark Germany Great Britain Greece the

**A Tiny Spot on the Earth**

Piet Rooy, 2025-10-01 In this survey of the Dutch political culture of the nineteenth and twentieth centuries Piet de Rooy reveals that the polder model often used to describe economic and social policymaking based on consensus is a myth Instead modern political culture in the Dutch Low Countries began with a revolution and is rife with rivalries among political and ideological factions De Rooy argues that because of its extremely open economy the country is vulnerable to external political cultural and economic pressures and Dutch politics is a balancing act between profiting from international developments and maintaining sovereignty The sudden rise of populism and Euroscepticism at the turn of the millennium then indicated a loss of this balance Shining new light on the political culture of the Netherlands this book provides insights into the polder model and the principles of pillarization in Dutch society The Dutch edition of this book *Ons stipje op de wereldkaart* was awarded the Prinsjesboekenprijs for the best book on Dutch national politics in 2014 Survey of the Dutch political culture of the

nineteenth and twentieth centuries
