**Governing the World?** Thomas G Weiss, 2015-11-17 Problems posed by Syria's chemical weapons attacks Egypt's ouster of an elected government and myriad other global dilemmas beg the question of whether and how the world can be governed. The challenge is addressing what former UN Secretary General Kofi Annan called Problems without Passports: environmental, economic, humanitarian, and political crises that threaten stability, prosperity, and even human survival. Everything is globalized, everything except politics which remain imprisoned behind national borders. The world has changed but our basic way of managing it has not. We pursue fitful, tactical, short-term and local responses for actual or looming threats that require sustained, strategic, longer-run and global actions. With clarity and passion, Thomas G Weiss argues for a diversity of organizational arrangements: some centralized, some decentralized, and a plurality of problem-solving strategies: some worldwide, some local. He proposes a three-pronged strategy: the expansion of the formidable amount of practical global governance that already exists; the harnessing of political and economic possibilities opened by the communications revolution; and the recommitment by states to a fundamental revamping of the United Nations. **the Politics of Apology** Loramy Gerstbauer, 2016-10-14 Acts of contrition and transitional justice, admission of wrong, apology, and reparations have become fashionable in the discourse of international affairs. Using a case study approach that inspires student discussion of concrete examples, this text addresses important questions about the politics of apology in relation to some of the most controversial cases of US foreign policy over the past fifty years: Vietnam, Nicaragua, and the most recent war in Iraq. Loramy Gerstbauer offers an original, transdisciplinary, and accessible argument for the practical value of contrition, forgiveness, and reconciliation in international relations while examining why the United States has been a less than contrite nation and offering a prescription for how to change this state of affairs. **International Relations as**

**Negotiation** Brian R Urlacher, 2015-12-03 Negotiations are central to the operation of the international system found at the heart of every conflict and every act of cooperation Negotiation is the primary vehicle that states use to manage conflict and build prosperity in a complicated and dangerous international system International Relations as Negotiation provides an overview of world politics that is both approachable and detailed It explores the factors that help or undermine efforts to negotiate solutions to international problems Key topics including international conflict and security the global economy international law and governance and environmental sustainability are explored in turn The history of the international system is traced through major treaty agreements and peace conferences and the future of the international system is projected The result is a survey of world politics that provides a seamless narrative about conflict and cooperation in the international system

**Violence Against Women and the Law** David L Richards, Jillienne Haglund, 2015-11-17 This book examines the strength of laws addressing four types of violence against women rape marital rape domestic violence and sexual harassment in 196 countries from 2007 to 2010 It analyzes why these laws exist in some places and not others and why they are stronger or weaker in places where they do exist The authors have compiled original data that allow them to test various hypotheses related to whether international law drives the enactment of domestic legal protections They also examine the ways in which these legal protections are related to economic political and social institutions and how transnational society affects the presence and strength of these laws The original data produced for this book make a major contribution to comparisons and analyses of gender violence and law worldwide
