Manifesto for New Social Movements César Augusto Rossatto, 2019-10-01 The world is currently witnessing the emergence of a new context for education labor and transformative social movements Global flows of people capital and energy increasingly define the world we live in The multinational corporation with its pursuit of ever cheaper sources of labor and materials and its disregard for human life is the dominant form of economic organization where capital can cross borders but people can't Affirmative action democracy and human rights are moving in from the margins to challenge capitalist priorities of efficiency i.e. exploitation In some places the representatives of popular movements are actually taking the reins of state power Across the globe new progressive movements are emerging to bridge national identities and boundaries in solidarity with transnational class gender and ethnic struggles At this juncture

educators have a key role to play The ideology of market competition has become more entrenched in schools even as opportunities for skilled employment diminish We must rethink the relationship between schooling and labor developing transnational pedagogies that draw upon the myriad social struggles shaping students lives and communities Critical educators need to connect with other social movements to put a radically democratic agenda based on the principles of equity access and emancipation at the center of educational praxis Many countries in Latin America like in other continents are developing new alternatives for the reconstruction of social projects these emerging sources of hope are the central focus of this book Major historical change always starts with people s social movement Democracy can be one of the best political and social systems in the world but for it to work entails the sustainable participation of citizens Above all it requires that people be informed and critically educated since the quality of democracy depends on quality of education There are 2 kinds of power money and people If people exercise their agency they can be more powerful than money There are some organizing principles of social movements as don t do for others what they should do for themselves Saul Alinsky wrote Rules for Radicals A pragmatic primer for realistic radicals Mary Rogers Cold Anger A story of faith and power politics Michael Gecan Going Public An organizer s guide to citizen action and Ernesto Cortez s Industrial Area Foundation are all great sources for organized activism that do work I put some of these principles to the test and they produced positive results I was a founder and president of a union at my university and I lived my whole life as an activist and learned that we can do more together than alone Now we also have a new digital war with the Cambridge Analytica and Breitbart s fake news manipulation however we also have social justice hacktivism to counter act it as well as other democratic social media venues that critical thinkers and activist use The chapters in this book demonstrate the importance of widening and diversifying social movements at the same time emphasizes the need to build cohesive alliances among all the different fronts What some people think is impossible can become a transformed reality for those who dare attempt changing the world as global citizens

The Latina Advantage Christina E. Bejarano, 2013-09-01 During the past decade racial ethnic minority women have made significant strides in U S politics comprising large portions of their respective minority delegations both in Congress and in state legislatures This trend has been particularly evident in the growing political presence of Latinas yet scholars have offered no clear explanations for this electoral phenomenon until now In *The Latina Advantage* Christina E Bejarano draws on national public opinion datasets and a close examination of state legislative candidates in Texas and California to

demonstrate the new power of the political intersection between race and gender Underscoring the fact that racial ethnic minority women form a greater share of minority representatives than do white women among white elected officials Bejarano provides empirical evidence to substantiate previous theoretical predictions of the strategic advantage in the intersectionality of gender and ethnicity in Latinas Her evidence indicates that two factors provide the basis for the advantage increasingly qualified candidates and the softening of perceived racial threat leading minority female candidates to encounter fewer disadvantages than their male counterparts Overturning the findings of classic literature that reinforce stereotypes and describe minority female political candidates as being at a compounded electoral disadvantage Bejarano brings a crucial new perspective to dialogues about the rapidly shifting face of America s electorate Running for Judge Matthew J. Streb,2009-07 This outstanding collection of essays provides new insight into one of the most important features of the American judicial system Matthew J Streb has assembled a first rate set of contributors who offer a fascinating exploration of the institutions incentives and democratic consequences of electing judges Kevin T McGuire author of *Understanding the U S Supreme Court* A timely and important addition to the literature on state courts and judicial politics by a stellar team of contributors New research is presented on a range of issues that will interest scholars and students not only of courts but state politics more generally David M O Brien author of *Storm Center The Supreme Court in American Politics* Across the country races for judgeships are becoming more and more politically contested As a result several states and cities are now considering judicial election reform *Running for Judge* examines the increasingly contentious judicial elections over the last twenty five years by providing a timely insightful analysis of judicial elections The book ties together the current state of the judicial elections literature and presents new evidence on a wide range of important topics including the history of judicial elections an understanding of the types of judicial elections electoral competition during races the increasing importance of campaign financing voting in judicial elections the role interest groups play in supporting candidates party organizing in supposedly non partisan elections judicial accountability media coverage and judicial reform of elections *Running for Judge* is an engaging accessible empirical analysis of the major issues surrounding judicial elections with contributions from prominent scholars in the fields of ju Time Briton Hadden, Henry Robinson Luce, 1924 Reels for 1973 include Time index 1973 *The Democratic Party* Douglas B. and speeches this history comes alive in the words and thoughts of those who built sustained and transformed the Democratic Party No other book uses documents in this way to tell a comprehensive history of this party The book utilizes primary documents to investigate a breadth of topics such as the Democratic party s positions on civil rights discrimination voting rights taxation representation immigration primary elections caucuses the Republican opposition relations between church and state the role of government and foreign policy The scholarly commentary provides essential context that bridges the gaps between documents and insightful explanations and clarifications of specific passages or terms to ensure reader comprehension A work unlike any other on the history of the Democratic Party this book will serve advanced high school students in government and history classes as well as undergraduate students taking courses in political science and history
