Hughes, 2012 A huge investment has been made in digitizing scholarly and cultural heritage materials through initiatives based in museums libraries and archives as well as higher education institutions The Digital Economy is an important component of institutional planning and much attention is given to the investment in digital projects and programmes However few initiatives have examined the actual use value and impact of digital collections and the role of digital collections in the changing information environment As the creative cultural and educational sector faces a period of restricted funding it is timely to re examine the use of the digital collections that have been created in the past twenty years and to consider their value to the institutions that host them and to the communities of users they serve This book brings together a group of international experts to consider the following key issues What is the role of digital resources in the research life cycle Do the arts and humanities face a data deluge How are digital collections to be sustained over the long term How is use and impact to be assessed What is the role of digital collections in the digital economy How is public engagement with digital cultural heritage materials to be assessed and supported This book will be of interest to academics librarians archivists and the staff of cultural heritage organizations as well as funders and other key stakeholders with an interest in the development and long term sustainability of digital collections Publisher's website

Transnational Italian Studies Charles Burdett, Loredana Polezzi, 2020-07-17 *Transnational Italian Studies* is specifically targeted at a student audience and is designed to be used as a key text when approaching the disciplinary field of Italian studies. It allows the study of Italian culture to be construed and practised not simply as the inquiry into a national tradition but as the study of the interaction of cultural practices both within Italy itself and in those parts of the world that have witnessed the extent of Italian mobility. The text argues that Italian culture needs to be considered in a transnational, transcultural perspective and that an understanding of linguistic and cultural translation underlies all approaches to the study of Italian culture in a global context. Contributions deploy a range of methodological approaches to understand and illustrate how language operates, how culture inhabits and constitutes public and private space, how notions of time operate within people's lives, and the multiple ways in which people experience a sense of personhood. Chapters stretch from the medieval period to the present and demonstrate how transnational Italian culture can be critically addressed through the examination of carefully chosen examples. Contributors: Alessandra Diazzi, Andrea Rizzi, Barbara Spadaro, Charles Burdett, Clorinda Donato, David Bowe, Derek Duncan, Donna Gabaccia, Eugenia Paulicelli, Fabio Camilletti, Giuliana Muscio, Jennifer Burns, Loredana Polezzi, Marco Santello, Monica Jansen, Naomi Wells, Nathalie Hester, Serena Bassi, Stefania Tufi, Teresa Fiore, and Tristan Kay.
