Its About Money Charlene Brady:

For Love or Money Nancy Folbre, 2012-09-06 As women moved into the formal labor force in large numbers over the last forty years care work traditionally provided primarily by women has increasingly shifted from the family arena to the market Child care elder care care for the disabled and home care now account for a growing segment of low wage work in the United States and demand for such work will only increase as the baby boom generation ages But the expanding market provision of care has created new economic anxieties and raised pointed questions Why do women continue to do most care work both paid and unpaid Why does care work remain low paid when the quality of care is so highly valued How effective and equitable are public policies toward dependents in the United States In *For Love and Money* an interdisciplinary team of experts explores the theoretical dilemmas of care provision and provides an unprecedented empirical overview of the looming problems for the care sector in the United States Drawing on diverse disciplines and areas of expertise *For Love and Money* develops an innovative framework to analyze existing care policies and suggest potential directions for care policy and future research Contributors Paula England Nancy Folbre and Carrie Leana explore the range of motivations for caregiving such as familial responsibility or limited job prospects and why both love and money can be efficient motivators They also examine why women tend to specialize in the provision of care citing factors like job discrimination social pressure or the personal motivation to provide care reported by many women Suzanne Bianchi Nancy Folbre and Douglas Wolf estimate how much unpaid care is being provided in the United States and show that low income families rely more on unpaid family members for their child and for elder care than do affluent families With low wages and little savings these families often find it difficult to provide care and earn enough money to stay afloat Candace Howes Carrie Leana and Kristin Smith investigate the dynamics within the paid care sector and find problematic wages and working conditions including high turnover inadequate training and a pay penalty for workers who enter care jobs These conditions have consequences poor job quality in child care and adult care also leads to poor care quality In their chapters Janet Gornick Candace Howes and Laura Braslow provide a systematic inventory of public policies that directly shape the provision of care for children or for adults who need personal assistance such as family leave child care tax credits and Medicaid funded long term care They conclude that income and variations in states policies are the greatest factors determining how well and for whom the current system works Despite the demand for care work very little public policy attention has been devoted to it Only three states for example have enacted paid family leave programs Paid or unpaid care costs those who provide it At the heart of *For Love and Money* is the understanding that the quality of care work in the United States matters not only for those who receive care but also for society at large which benefits from the nurturance and maintenance of human capabilities As care work gravitates from the family to the formal economy this volume clarifies the pressing need for America to fundamentally rethink its care policies and increase public investment in this increasingly crucial sector The Money and the Power Sally

Denton, Roger Morris, 2002-03-12 Las Vegas the name evokes images of divorce and dice gangsters and glitz But beneath it all is a sordid history that is much more insidious and far reaching than ever imagined The Money and the Power is the most comprehensive look yet at Las Vegas and its breadth of influence Based on five years of intensive research and interviewing Sally Denton and Roger Morris reveal the city's historic network of links to Wall Street international drug traffickers and the CIA In doing so they expose the disturbing connections amongst politicians businessmen and the criminals that harness these illegal activities Through this lucid and gripping indictment of Las Vegas Morris and Denton uncover a national ethic of exploitation violence and greed and provide a provocative reinterpretation of twentieth century American history Now this neon maelstrom of ruthlessness and greed stands to not as an aberrant sin city but as a natural outgrowth of the corruption and worship of money that have come to permeate American life *Crimes of the Centuries* Steven Chermak Ph.D., Frankie Y. Bailey, 2016-01-25 This multivolume resource is the most extensive reference of its kind offering a comprehensive summary of the misdeeds perpetrators and victims involved in the most memorable crime events in American history This unique reference features the most famous crimes and trials in the United States since colonial times Three comprehensive volumes focus on the most notorious and historically significant crimes that have influenced America's justice system including the life and wrongdoing of Lizzie Borden the bombing of the Sixteenth Street Baptist Church the killing spree and execution of Ted Bundy and the Columbine High School shootings Organized by case the work includes a chronology of major unlawful deeds fascinating primary source documents dozens of sidebars with case trivia and little known facts and an overview of crimes that have shaped criminal justice in the United States over several centuries Each of the 500 entries provides information about the crime the perpetrators and those affected by the misconduct along with a short bibliography to extend learning opportunities The set addresses a breadth of famous trials across American history including the Salem witch trials the conviction of Sacco and Vanzetti and the prosecution of O J Simpson [Unveiling the Muse](#) Howard Philips Smith, 2017-12-18 Traditional Carnival has been well documented with a vast array of books published on the subject However few of them if any mention gay Carnival krewes or the role of gay Carnival within the larger context of the season Howard Philips Smith corrects this oversight with a beautiful vibrant and exciting account of gay Carnival Gay krewes were first formed in the late 1950s growing out of costume parties held by members of the gay community Their tableau balls were often held in clandestine locations to avoid harassment Even by the new millennium gay Carnival remained a hidden and almost lost history Much of the history and the krewes themselves were devastated by the AIDS crisis Whether facing police raids in the 1960s or AIDS in the 1980s the Carnival krewes always came back each season A culmination of two decades of research Unveiling the Muse positions this incredible story within its proper place as an amazing and important facet of traditional Carnival Based on years of detailed interviews each of the major gay krewes is represented by an in depth historical sketch outlining the founders moments of brilliance on stage and a list of all the balls themes and royalty Of critical

importance to this history are the colorful ephemera associated with the gay tableau balls Reproductions of never before published brilliantly designed invitations large scale commemorative posters admit cards and programs add dimension and life to this history Sketches of elaborate stage sets and costumes as well as photographs of ball costumes and rare memorabilia further enhance descriptions of these tableau balls Seton Girls Charlene Thomas,2023-08-22 Legitimately unputdownable It s a scathing critique of toxic masculinity wrapped up in a gorgeously written prep school mystery Becky Albertalli NYT bestselling author of Simon Vs the Homo Sapiens Agenda Seton Academic High is a prep school obsessed with its football team and their thirteen year conference win streak a record that players always say they d never have without Seton s girls What exactly Seton girls do to make them so valuable though no one ever really says They re just the best But the team s quarterback the younger brother of the Seton star who started the streak wants more than regular season glory He wants a state championship before his successor Seton s first Black QB has a chance to overshadow him Bigger rewards require bigger risks and soon the actual secrets to the team s enduring success leak to a small group of girls who suddenly have the power to change their world forever *Billboard* ,2000-10-21 In its 114th year Billboard remains the world s premier weekly music publication and a diverse digital events brand content and data licensing platform Billboard publishes the most trusted charts and offers unrivaled reporting about the latest music video gaming media digital and mobile entertainment issues and trends *The New Farm* ,1995 Congressional Record United States.
