It's Hardly Sportin' Costas Spirou, Larry Bennett, 2003-01-01 Document the controversies that accompanied the redevelopment of several sports stadiums in Chicago describing the concerns and frustrations of both the residents and sports enthusiasts as well as the positions held by the sport franchises who desired the redevelopment *Sport and the Shaping of Civic Identity in Chicago* Gerald R. Gems, 2020-02-13 This study uses sociological and historical methodologies to analyze the role of sport in the formation of urban identity in Chicago The author traces the transformation of Chicago from a frontier town to a commercial behemoth examining its role as an immigration transportation and entertainment hub The author argues that as a pioneering leader in American sport history Chicago allowed teams and athletes to forge a unique national and global identity This thorough and well researched study makes a major contribution to debates on the social and psychological functions of sport culture **The Rise of Stadiums in the Modern United States** Mark Dyreson, Robert Trumpbour, 2013-09-13 Many Americans know more about the stadiums that loom over their cityscapes or college campuses than they do about any other aspect of the nation's geography Stadiums serve as iconic monuments of urban and university identities Indeed the power of sport in modern American culture has produced sportscares landscapes literally shaped by their devotion to athletic competition Curiously given the importance of the secular cathedrals in American culture historians have paid little attention to these edifices *The Rise of Stadiums in the Modern United States Cathedrals of Sport* seeks to remedy that oversight This book will analyze stadiums from a variety of perspectives paying special attention to the links between the built environment in which Americans watch and play games and the larger social environments that the nation's sporting practices inhabit *The Rise of Stadiums in the Modern United States Cathedrals of Sport* explores the role of stadiums in shaping urban identities determining the economics of intercollegiate athletics influencing local and national politics This book was previously published as a special issue of the *International Journal of the History of Sport* *Sport in the City* Michael P. Sam, John Hughson, 2013-09-13 Sport is seen as an increasingly important aspect of urban and regional planning Related programmes have moved to the forefront of agendas for cities of the present and future This has occurred as the barriers between so called high and popular culture continue to disintegrate Sport is now a key component within strategies for the cultural regeneration of cities and regions a tendency with mixed outcomes at times fostering genuinely democratic arrangements at others pseudo democratic arrangements whereby political business and cultural elites manipulate a sense of sameness and unity among their fellow citizens to smooth the path for the pursuit of what are actually vested interests Almost any active enactment of a sports city of culture risks divisiveness Recognizing controversies with both potentially positive and negative outcomes this book examines sport within contexts of urban and regional regeneration via a number of rather different case studies Within these studies the role of sport stadium development franchise expansion and sports fan and anti sport activism is addressed and articulated with issues concerning inter alia public funding

environmental impact urban infrastructure and citizen identity The sport in the city project commenced as a research symposium held at the University of Otago Dunedin New Zealand and number of the essays originate from this occasion This book was previously published as a special issue of Sport in Society **Routledge Companion to Sports History** S. Consumption Cory Hillman, 2016-07-27 Sports are not what they used to be New publicly funded stadiums resemble shopping malls Fans compete for cash prizes in fantasy sports leagues Sports video games are now marketing and public relations tools and team logos have become fashionable brands The larger social meanings sports hold for fans are being eclipsed by their commercial function as a means to sell merchandise and connect corporate sponsors with consumers This book examines how the American consumer culture affects professional and collegiate sports reducing fans to consumers and trivializing sports themselves Instructors considering this book for use in a course may request an examination copy here

American Society for Sport History NASSH **Optimal Strategies in Sports Economics and Management** Sergiy Butenko, Jaime Gil-Lafuente, Panos M. Pardalos, 2010-08-25 During the last century we have witnessed the birth and evolution of sport as an economic activity which has created jobs on the one hand but also problems of management on the other This process has not been immune from the particular characteristics associated with sport typically united here more than in other activities technique physical effort entertainment and passion And all this within a framework of ever increasing consumption of financial resources It is not surprising therefore that commonly used economic models based on mechanistic approaches do not provide a viable solution to increasingly complex and increasingly frequent problems Any attempt to apply such an approach in this technical economic and financial context can only result in failure The high degree of subjectivity inherent in sporting activity requires new tools in which remodeled conceptual theoretical and technical elements should play an important role Complexity uncertainty and subjectivity are therefore basic to understand and deal with the phenomenon of sport The necessity of resorting to these elements was identified over a quarter of a century ago by a small group of professors and researchers at the University of Barcelona Together we started the first postgraduate courses and organized seminars to alert sports centre managers as well as to make private and public organizations aware of the increasing importance of a proper specific management for sports organizations
