Political Reform in Indonesia After Soeharto Harold A. Crouch, 2010 Three decades of authoritarian rule in Indonesia came to a sudden end in 1998 The collapse of the Soeharto regime was accompanied by massive economic decline widespread rioting communal conflict and fears that the nation was approaching the brink of disintegration Although the fall of Soeharto opened the way towards democratization conditions were by no means propitious for political reform This book asks how political reform could proceed despite such unpromising circumstances It examines electoral and constitutional reform the decentralization of a highly centralized regime the gradual but incomplete withdrawal of the military from its deep political involvement the launching of an anti corruption campaign and the achievement of peace in two provinces that had been devastated by communal violence and regional rebellion

ethnic content emerged across the country In West Kalimantan the predominant feature was particularly that of the Dayaks This surge however was not unprecedented After centuries of occupying a subordinate place in the political and social hierarchy under the nominal rule of the Malay sultanates Dayaks became involved in an enthusiastic political emancipation movement from 1945 The Dayaks secured the governorship as well as the majority of the regional executive head positions before they were shunned by the New Order regime This book examines the development of Dayak politics in West Kalimantan from the colonial times until the first decade of the 21st century It asks how and why Dayak politics has experienced drastic changes since 1945 It will look at the effect of regime change the role of the individual leaders and organizations the experience of marginalization and conflicts on the course of Dayaks politics It will also examine ethnic relations and recent political development up to 2010 in the province

Political Change and Territoriality in

Indonesia Ehito Kimura, 2013-05-07 What makes large multi ethnic states hang together At a time when ethnic and religious conflict has gained global prominence the territorial organization of states is a critical area of study Exploring how multi ethnic and geographically dispersed states grapple with questions of territorial administration and change this book argues that territorial change is a result of ongoing negotiations between states and societies where mutual and overlapping interests can often emerge It focuses on the changing dynamics of central local relations in Indonesia Since the fall of Suharto's New Order government new provinces have been sprouting up throughout the Indonesian archipelago After decades of stability this sudden change in Indonesia's territorial structure is puzzling The author analyses this provincial proliferation which is driven by multilevel alliances across different territorial administrative levels or territorial coalitions He demonstrates that national level institutional changes including decentralization and democratization explain the timing of the phenomenon Variations also occur based on historical cultural and political contexts at the regional level The concept of territorial coalitions challenges the dichotomy between centre and periphery that is common in other studies of central local relations This book will be of interest to scholars in the fields of comparative politics political geography history and Asian and Southeast Asian politics

Activists in Transition

Thushara Dibley, Michele Ford, 2019-12-15 Activists in Transition examines the relationship between social movements and democratization in Indonesia Collectively progressive social movements have played a critical role over in ensuring that different groups of citizens can engage directly in and benefit from the political process in a way that was not possible under authoritarianism However their individual roles have been different with some playing a decisive role in the destabilization of the regime and others serving as bell weathers of the advancement or otherwise of Indonesia's democracy in the decades since Equally important democratization has affected social movements differently depending on the form taken by each movement during the New Order period The book assesses the contribution that nine progressive social movements have made to the democratization of Indonesia since the late 1980s and how in turn each of those movements has been influenced by democratization

Bureaucracy and

Development Diana Suhardiman, 2016-05-13 The fall of the New Order government in 1998 and the political reform that followed posed substantial challenges for Indonesia's bureaucracy to continue fulfilling its mandate. This book analyses the process of bureaucratic reform in the irrigation sector. Using Irrigation Management Transfer policy as the entry point for analysis, it documents and analyses the irrigation bureaucracy's ability to sustain its power and prominence in the sector's development amidst and against national and international pressures for reform. The book argues that bureaucratic reform in the irrigation sector rather than attempting to change the bureaucracy's functioning in the image of national and global good governance perspectives and priorities should instead focus on linking the irrigation bureaucracy's everyday practice more effectively with farmers' needs and aspirations. Reform efforts of the past decades show that Indonesia's irrigation sector development cannot be redirected without the irrigation bureaucracy's knowledge, experience and cooperation and without strengthening its downward accountability to farmer irrigators. **(Un) Civil Society and Political Change in Indonesia**

Verena Beittinger-Lee, 2013-01-11 *Un Civil Society and Political Change in Indonesia* provides critical analysis of Indonesia's civil society and its impact on the country's democratization efforts that does not only take the classical pro-democratic actors of civil society into account but also portrays uncivil groups and their growing influence on political processes. Beittinger-Lee offers a revised categorization of civil society including a model to define the sphere of uncivil society more closely and to identify several subcategories of uncivil society. This is the first book to portray various uncivil groups in Indonesia ranging from vigilantes, militias, paramilitaries, youth groups, civil security task forces and militant Islamic and other religious groups, ethnonationalist groups to terrorist organizations and groups belonging to organized crime. Moreover, it provides the reader with an overview of Indonesia's history, its political developments after the democratic opening, main improvements under the various presidents since Suharto's fall, constitutional amendments and key reforms in human rights legislation. This book will be of interest to upper level undergraduates, postgraduates and academics in political science and Southeast Asian studies. **The Revival of Tradition in Indonesian Politics** Jamie Davidson, David Henley, 2007-03-12

This important resource provides detailed coverage of the growing significance of adat in Indonesian politics. It identifies its origins, the historical factors that have conditioned it and the reasons behind its recent blossoming. **Indonesia, Law and Society** Timothy Lindsey, 2008 Since the first edition, Indonesia has undergone massive political and legal change as part of its post-Soeharto reform process and its dramatic transition to democracy. This work contains 25 new chapters and the 4 surviving chapters have all been revised where necessary. *Indonesia Law and Society* now covers a broad range of legal fields and includes both historical and very up to date analyses and views on Indonesian legal issues. It includes work by leading scholars from a wide range of countries. There is still no comparable English language text in existence.
