Psychological Perspectives of Helplessness and Control in the Elderly P.S. Fry, 1988-12-01 The past few years have witnessed widespread acceptance of the notion that few elderly individuals are willing to stand by silently in the process of growing and to relinquish whatever actual controls autonomy or control beliefs they had in the past Increasingly old age is viewed as the dynamics of growth in mastery control and self-efficacy on the one hand and a relative decline in psychological and physical resources on the other It is the intent of this volume to communicate both aspects of these changes and to offer a comprehensive review of the cross-fertilization of the field of gerontology and the psychology of reactance freedom and control Leading psychologists and social science researchers from the United States Canada and Europe give their views on

the meaning and application of control related constructs having specific implications for the field of human aging They address themselves to one or more of the major themes issues or concerns which currently figure in discussions of control beliefs and control constructs as they apply to aging and old age Written primarily for scholars researchers and developmental theorists interested in the complexities and generativity of control constructs and their applications for the psychological well being of older adults the data and issues presented will be equally informative to gero psychologists and mental health professionals concerned with healthy adaptive functioning of the elderly

### **Understanding Health**

**Determinants** Ian McDowell, 2023-05-30 This book assembles a wide range of explanatory perspectives on social inequalities in health Everywhere in the world those with less advantage die younger and suffer more illness than the wealthy Decades of research have documented this reality and yet we lack a comprehensive understanding of the mechanisms through which social circumstances ultimately influence the biological processes that lead to disease Explanations have been proposed from various disciplines economics psychology behavioral science geography and neuroscience and each sheds light on parts of the overall process But very few texts assemble these insights into an overall explanatory paradigm Through a review of concepts and theories from a wide range of disciplines the author outlines how these may be woven together to offer a more complete picture of how social influences get under the skin to affect health and disease As well as understanding individual health the book assembles explanations for social disparities in health It concludes with a proposal for a set of explanatory models that cross disciplinary boundaries Topics explored include Social Inequalities in Health Explanation and Causal Models for Social Epidemiology Social and Economic Theories to Explain Patterns of Disease Biological Pathways Linking Social Determinants to Health Theoretical Models of Health Behavior Work Environment and Health Social Networks Social Support and Health Positive Influences on Health Coping and Control The Relationship Between Personality and Health Understanding Health Determinants Explanatory Theories for Social Epidemiology is a textbook for graduate students in epidemiology health sciences health policy and psychology as well as social science students who are studying health It will also be of interest to general readers and can serve as a reference for researchers in epidemiology and the health sciences who are planning studies of the social determinants of health The book reviews theories that could be tested in such studies

**Cultures, Communities, Competence, and Change** Forrest B. Tyler, 2013-04-17 Cultures Communities Competence and Change provides a transcultural psychosocial conception of the nature of individual and social activity The author presents an integrated view of how people develop a psychosocially based awareness of themselves and their milieus to shape what he refers to as their internested social systems In so doing he challenges current deficit prevention emphases in the helping disciplines and promotes a constructive prosocial model of individual and social approaches to change

*International Journal of Social Impact, Volume 1, Issue 2* IJSI, 2016-06-30 International Journal of Social Impact is the official journal of the RED SHINE Publication The principal purpose of the journal is to publish scholarly work in the social

sciences defined in the classical sense that is in the social sciences the humanities and the natural sciences The research that is published may take a theoretical or speculative model as well as statistical and mathematical Contributions are welcome from all fields which have relevant and insightful comments to make about the social sciences While International Journal of Social Impact IJSI is the publication of a regional association it attracts submissions from a wide range of countries *The Legacy of Anomie Theory* Freda Adler, William S. Laufer, 2020-03-06 This sixth volume of *Advances in Criminological Theory* is testimony to a resurgent interest in anomie strain theory which began in the mid 1980s and continues unabated Contributors focus on the new body of empirical research and theorizing that has been added to the anomie tradition that extends from Durkheim to Merton The first section is a major 75 page statement by Robert K Merton examining the development of the anomie and opportunity structure paradigm and its significance to criminology *The Legacy of Anomie Theory* assesses the theory's continuing usefulness explains the relevance of Merton's concept of goals means disparity as a psychological mechanism in the explanation of delinquency and compares strain theory with social control theory A macrosociological theoretical formulation is used to explain the association between societal development and crime rates In other chapters anomie is used to explain white collar crime and to explore the symbiotic relationship between Chinese gangs and adult criminal organizations within the cultural economic and political context of the American Chinese community

**Perceived Control** John W. Reich, Frank J. Infurna, 2017 Leading scholars in perceived control research review the important historical foundations and most recent developments in key areas of control theory research and practice Their reviews provide insights into how this important concept became so widely influential and project how it will continue to generate new knowledge in the future **Strategic Conflict** Daniel J. Canary, Sandra Lakey, 2012-08-21 *Strategic Conflict* offers a research based accessible analysis of how people can manage conflict productively Moving beyond the basics of conflict it examines interpersonal situations in which conflict occurs and promotes strategic communicative responses based on the latest theoretical research Daniel J Canary and his colleagues add personal observations media examples and samples of actual interaction to provide concrete illustrations of the research findings This comprehensive volume provides students with the tools to understand conflict in real world contexts **The Psychology of Control and Aging (Psychology Revivals)** Margret M. Baltes, Paul B. Baltes, 2014-08-01 Originally published in 1986 the central topic of this book is the analysis and application of control related beliefs and behaviours for theory and practice in the psychology of aging The volume was written for two specific interrelated purposes aimed at cross fertilization between the psychology of control and the field of gerontology The first purpose was to summarise available research and theory on the psychology of control for researchers and professionals interested in gerontology at the time The second was to enrich the field of the psychology of control

**Mental Health: A Journey from illness to wellness** S Makvana, A Patel, A Dhingra, V Parmar, 2016-10-31 The controls used on emotional arousal and cognitive processes are difficult in several societies because of the presence of beliefs in

several more issues and forces which influence the bidirectional to and fro journey of effects between mental health and mental illness Human beings in general accept only experiential methods of verifications and approval of reality when they come in contact with their own mental and physical conditions However many may still be influenced by suggestions and produce experiences as per suggestions which may not respond to scientific methods of verifications and corrections Mental health and diseases mainly in the domain of emotional health may therefore be affected by beliefs and psychological effects produced from cognitive processes and cognitive molding of emotions Interventions in the cognitive and emotional domains do often work and changes may be brought out at the psychological and biological levels     The Currents of Lethal Violence N. Prabha Unnithan, Lin Huff-Corzine, Jay Corzine, Hugh P. Whitt, 1994-01-01 Building on past work the authors outline an integrated model for linking suicide and homicide and show how that research from this perspective can further our understanding of violence Specifically they show that research based on this model provides new insights into how structural and cultural factors combine to produce high homicide levels in the American South and cross national difference in lethal violence rates In conclusion they evaluate the model s utility address possible criticisms of this perspective and suggest avenues for further investigations of lethal violence     The Weight's Over - Take Back Control Sandra Roycroft-Davis, 2025-03-13 Transformational lessons for anyone struggling with their weight Professor Adrian Heald Salford Royal Hospital This book is a game changer Dale Pinnock Nutritionist This book is not just about weight loss it is about reclaiming control of your mind body and life After almost 20 years working in behavioural science and therapy Sandra Roycroft Davis has seen how deeply our relationship with food is connected with our emotions habits and sense of worth In The Weight s Over you will embark on a journey of self discovery and empowerment where lasting change is finally within reach The book shows you how to break free from unhealthy patterns overcome emotional eating and develop a mindset rooted in self compassion and resilience Using the tools within this book you ll be able to listen to your body manage stress and make better eating decision The power has always been within you now it is time to unlock it
