Logic Pro For Recording Engineers And Producers Quick Pro Guides:

The Power in Logic Pro Dot Bustelo, 2012-04-01 Quick Pro Guides Dot Bustelo's signature approach to teaching Logic will get you up and running quickly. She'll help you move beyond the basics to discover a professional level Logic workflow taught through highly musical examples that expose Logic's essential features and powerful production tools. You'll find many of the tips, tricks, and insider techniques that powered Logic to its industry leading status as the best tool for unleashing creativity in songwriting, composing, making beats, and remixing. Plus, find out why musicians over the years have sworn Logic grooves better. Dot provides the powerful methodology for creating in Logic that she has shared with countless high profile bands and Grammy Award winning producers and engineers. Here's just a sampling of what some of music's most successful artists say about Dot's approach to Logic: Ronnie Vannucci (The Killers): Dot has made Logic well logical. Ryan Tedder (OneRepublic): Dot Bustelo has hands down the most extensive working knowledge of Logic and all its intricacies. James Valentine (Maroon 5): Dot was the first one to introduce me to Logic. She knows this software inside and out and she breaks everything down in an easy to understand way. And she knows the best insider techniques that will make your recording more efficient and creative. I wonder when Dot will get sick of me asking her Logic related questions. Nathaniel Motte (3OH 3): Dot has provided me with an incredible source of in depth and practical knowledge of Apple's Logic program. She has shown me tricks in Logic that have opened creative doors that I didn't even know existed. Chad Hugo (N.E.R.D., The Neptunes): When you got a Logic problem, Dot has wrote a book to solve it. And this right here is it. Yeya. This ebook includes supplemental material. **Music**

Production: How to Produce Music, The Easy to Read Guide for Music Producers Introduction Tommy Swindali, 2020-08-27 Everything You Need to Know. You are about to discover proven steps and strategies from music producers on how to produce music even if you have zero experience in recording and audio engineering. You will be able to learn everything you need to know in order to make your first single sound just the way you want it. In this book, you will learn how to build your own studio and have the right gear and software in order to start creating music. You will also learn how to be a smart recording artist or give the right direction to performers whom you want to produce songs for. You Can Do It and We Will Show You How. Your first home studio does not need to have all the top of the line gear; you just need the basic stuff for now. As long as you know how to use the most basic studio equipment, you will know what to do once you hit the big studio. We will make sure you know how to engineer all the tracks that you have recorded in order to make your first single sound just the way you want it. Here is a preview of what you'll learn: How to set up a studio and what equipment you need to use. How to perform a song while in the studio. How to create a final mix for your songs. What Your Studio Should Have. What is the Best DAW for You. Recording your First Single. Mixing your First Song. Create Music that will Get You Noticed. And much much more.
