- Left Panel (Library/Inspector):** Contains various audio and MIDI effects, including Reverb, Delay, Filter, and Compressor. The 'Reverb' effect is currently selected, showing its parameters and a visual representation of the reverb tail.
- Center Panel (Piano Roll):** A detailed piano roll view for a MIDI track. It shows a complex arrangement of notes and chords across multiple octaves. The notes are color-coded by pitch, with higher notes in blue and lower notes in red. The piano roll is divided into sections for different instruments or sounds.
- Right Panel (Mixer):** Shows the arrangement of the tracks in the mix. It includes volume faders, panning controls, and solo/mute buttons for each track. The tracks are labeled with their names and the effects applied to them.

The interface is highly customizable, allowing users to tailor the layout to their workflow. The piano roll view provides a clear visual representation of the musical composition, while the mixer allows for precise control over the sound of each track.
