London Monday September 4 1978:

Caught on Screen James Findlay, 2025-09-18 From innocent criminals to radical revolutionaries feisty feminists to manly pioneers egalitarian settlers to violent invaders *Caught on Screen* shows how over successive generations the shape shifting convict emerged on screen as a potent historical symbol Convicts loom large in Australian history As transported criminals and the first European settlers they have shackled the nation to a curious and contested origin story Historians were largely silent on their exploits until the second half of the twentieth century but before then a tradition of convict representation on screen appeared with the rise of cinema taking hold of the popular imagination From silent films to more recent television series screen culture has elevated the convict experience to become a key historical narrative through which filmmakers and audiences have repeatedly reframed and challenged an understanding of Australia's colonial past *Caught on Screen* traverses this history of convict representation for the first time Through detailed archival research into their production and reception the book explores engaging case studies produced in Australia and internationally including the work of Douglas Sirk Alfred Hitchcock and Jennifer Kent It illuminates the fact that the convict as historical symbol is one that intersected with and helped to direct major debates about nationalism the legacies of colonisation Aboriginal dispossession and the origins and character of Australian society *Northern Ireland--a Role for the United States?* Joshua Eilberg, Hamilton Fish, 1979 [From Sodomy Laws to Same-Sex Marriage](#) Sean Brady, Mark Seymour, 2019-07-25 Inspired by recent adoptions of same sex marriage *From Sodomy Laws to Same Sex Marriage* provides international perspectives on the legal and social history of same sex relationships from the early 19th century to the present Its emphasis is on areas where the impetus for change has been most noticeable Europe the Americas and Australasia From Sodom and Gomorrah to Britain's sodomy laws and continental Europe's abhorrence of sexual acts against nature the history of same sex love traditionally ranged from fire and brimstone maledictions to secrecy and scandal Until recently legal positions across the western world reflected the legacies of the British and French empires as well as Christianity particularly Catholicism In recent years however there has been a revolution in attitudes towards same sex relationships This poses hitherto unanswered questions what historical complexities lie behind the revolutionary shift from punitive attitudes to legal endorsement of same sex relationships Given the cultural variety of historical attitudes to same sex relationships why has their legal acceptance been so international The essays in this volume provide answers to these questions offering the first international overview of the topic While other studies have attempted to explain the change in legal and social treatment of same sex relationships in a national context or within a shorter time frame this is the first volume to examine the topic from the French Revolution to the present day bringing together a diverse array of perspectives over a range of countries It is an important volume for students and scholars of queer history the history of sexuality law and sociology [Waterloo Sunrise](#) John Davis, 2024-03-26 This is an urban history of London during the pivotal years of the 1960s and 1970s when the

metropolis was transformed from an industrial city that the Victorians might have recognised to an embryonic modern world city Previous work on London in these years has tended to focus upon the 1960s in particular the Swinging London phenomenon Mary Quant Carnaby Street and the King s Road Chelsea all appear in these pages but it is argued that the swinging moment of the mid sixties was a passing symptom of a much broader transformation from an industrial to a service based city and it is that transformation which this book examines London is too complex and diverse a city to be comprehended in a simple linear narrative this book adopts instead an innovative approach to urban history by which London life and London s transformation are examined through a number of case studies looking at specific themes and areas of the city Consumerism and the experience economy home ownership and gentrification deindustrialisation and deprivation racial tension and unemployment the attrition of public services and the steady loss of confidence in public agencies national and local emerge as overarching themes from the individual case studies in this book Their combined effect it is argued was to prepare the ground for the Britain that Margaret Thatcher is usually held to have created after 1979 without Thatcher herself having anything to do it
