### **Lone Star Muslims Transnational Lives And The South Asian Experience In Texas:**

Lone Star Muslims Ahmed Afzal, 2015 *Lone Star Muslims* offers an engaging and insightful look at contemporary Muslim American life in Texas. It illuminates the dynamics of the Pakistani Muslim community in Houston, a city with one of the largest Muslim populations in the south and southwestern United States. Drawing on interviews and participant observation at radio stations, festivals, and ethnic businesses, the volume explores everyday Muslim lives at the intersection of race, class, profession, gender, sexuality, and religious sectarian affiliation to demonstrate the complexity of the South Asian experience. Importantly, the volume incorporates narratives of gay Muslim American men of Pakistani descent, countering the presumed heteronormativity evident in most of the social science scholarship on Muslim Americans and revealing deeply felt affiliations to Islam through ritual and practice. It also includes narratives of members of the highly skilled Shia Ismaili Muslim labor force employed in corporate America, of Pakistani ethnic entrepreneurs, the working class, and the working poor employed in Pakistani ethnic businesses, of community activists, and of radio program hosts. Decentering dominant framings that flatten understandings of transnational Islam and Muslim Americans such as terrorist on the one hand and model minority on the other, *Lone Star Muslims* offers a glimpse into a variety of lived experiences. It shows how specificities of class, Islamic sectarian affiliation, citizenship status, gender, and sexuality shape transnational identities and mediate racism, marginalities, and abjection.

*Global Asian American Popular Cultures* Shilpa Dave, LeiLani Nishime, Tasha Oren, 2016-05-16 A toolkit for understanding how Asian Americans influence consume and are reflected by mainstream media Asian Americans have long been the subject and object of popular culture in the U S The rapid circulation of cultural flashpoints such as the American obsession with K pop sensations Bollywood dance moves and sriracha hot sauce have opened up new ways of understanding how the

categories of Asian and Asian American are counterbalanced within global popular culture. Located at the crossroads of these global and national expressions, *Global Asian American Popular Cultures* highlights new approaches to modern culture with essays that explore everything from music, film, and television to comics, fashion, food, and sports. As new digital technologies and cross-media convergence have expanded exchanges of transnational culture, Asian American popular culture emerges as a crucial site for understanding how communities share information and how the meanings of mainstream culture shift with technologies and newly mobile sensibilities. Asian American popular culture is also at the crux of global and national trends in media studies, collapsing boundaries and acting as a lens to view the ebbs and flows of transnational influences on global and American cultures. Offering new and critical analyses of popular cultures that account for emerging textual fields, global producers, technologies of distribution, and trans-medial circulation, this groundbreaking collection explores the mainstream and the margins of popular culture.

Muslims on the Margins Katrina Daly Thompson, 2023-04-11 Offers vivid stories of nonconformist Muslim communities. The turn of the twenty-first century ushered in a wave of progressive Muslims whose modern interpretations and practices transformed the public's perception of who could follow the teachings of Islam. *Muslims on the Margins* tells the story of their even more radical descendants, nonconformists who have reinterpreted their religion and created space for queer, trans, and nonbinary identities within Islam. Katrina Daly Thompson draws extensively from conversations and interviews conducted both in person in North America and online in several international communities. Writing in a compelling narrative style that centers the real experiences and diverse perspectives of nonconformist Muslims, Thompson illustrates how these radical Muslims are forming a community dedicated to creative reinterpretations of their religion, critical questioning of established norms, expansive inclusion of those who are queer in various ways, and the creation of different religious futures. *Muslims on the Margins* is a powerful account of how Muslims are forging new traditions and setting precedents for a more inclusive community, one that is engaged with tradition but not beholden to it.

**Farm-to-Freedom** Roy Vu, 2024-09-02 Home gardens, in addition to providing sustenance and satisfaction, embody a sense of self-identity. In this groundbreaking work on Vietnamese foodways, *Farm to Freedom: Vietnamese Americans and Their Food Gardens* brings to light how the Vietnamese diasporic population in Texas uses gardens, literally and figuratively, to set down roots in a new country. These gardens, often hidden in plain sight, establish the seat of Vietnamese immigrant culture, according to author Roy V. They can also offer Vietnamese Americans an empowering pathway to forging a new homeland duality by retaining ties to the foods and environs they drew comfort from in Vietnam. *Farm to Freedom* uses the concept of emancipatory foodways as a lens into gardens that serve a semi-palliative purpose by succoring the experienced tragedies of war and exile for Vietnamese immigrants and Vietnamese Americans, which arguably adds another dimension to the importance of the home garden. V covers topics including, but not limited to, culinary citizenship, food democracy, culinary justice, and food sovereignty. *Farm to Freedom* reveals how these gardens not only provide those who tend them a greater

sense of security and agency in an unfamiliar land but also give them the means to preserve and expand Vietnamese cuisine for themselves while simultaneously enriching food culture in the United States With a wealth of original oral histories community based recipes and poetry and photographs of home gardens in suburban and urban settings Farm to Freedom provides a deeper understanding of the Vietnamese diaspora in Texas for scholars professionals and general readers alike

winds of politics And he also discovers that there may be a place for Islam in his own life particularly as a father even if he will never be a true believer Original insightful and beautifully told Praying to the West reveals a secret history of home and the struggle for belonging taking place in towns and cities across the Americas and points to a better more inclusive future for everyone **Almost All Aliens** Paul Spickard, Francisco Beltrán, Laura Hooton, 2022-09-15 Almost All Aliens offers a unique reinterpretation of immigration in the history of the United States Setting aside the European migrant centered melting pot model of immigrant assimilation Paul Spickard Francisco Beltrán and Laura Hooton put forward a fresh and provocative reconceptualization that embraces the multicultural racialized and colonially inflected reality of immigration that has always existed in the United States Their astute study illustrates the complex relationship between ethnic identity and race slavery and colonial expansion Examining the lives of those who crossed the Atlantic as well as those who crossed the Pacific the Caribbean and the North American Borderlands Almost All Aliens provides a distinct inclusive and critical analysis of immigration race and identity in the United States from 1600 until the present The second edition updates Almost All Aliens through the first two decades of the twenty first century recounting and analyzing the massive changes in immigration policy the reception of immigrants and immigrant experiences that whipsawed back and forth throughout the era It includes a new final chapter that brings the story up to the present day This book will appeal to students and researchers alike studying the history of immigration race and colonialism in the United States as well as those interested in American identity especially in the context of the early twenty first century **Claiming and Making Muslim Worlds** Jeanine Elif

**Steeped in a Culture of Violence** Brandon T. Jett, Kenneth Howell, 2023-05-15 The Texas shooting at Santa Fe High School on May 18 2018 which killed ten and injured thirteen prompted public debate over the causes and potential solutions to this type of violent episode On May 21 2018 National Rifle Association president Oliver North declared that a culture of violence is largely responsible for these killings The problem that we've got is we're trying like the dickens to treat the

symptom without treating the disease The disease is youngsters who are steeped in a culture of violence This debate has captivated the American media and general public for decades Texas history is steeped in brutality and bloodshed creating a narrative that these conditions are still a vital part of the state s culture in the twenty first century But perceptions of violence are often at odds with realities on the ground Over several centuries violence has decreased with the development of modern society but popular perception seems to be that a culture of violence has emerged and perhaps persisted despite demographic economic cultural and political shifts in Texas Starting from the notion that a culture of violence existed historically in the state and asking if such a culture still persists in modern Texas this collection of essays examines trends associated with various types of violence within the state as well as social and political responses from 1965 to 2020 This important and timely work provides valuable context for discussions on violence in the past and for the future
