Consumed Nostalgia Gary Cross, 2015-09-08 Nostalgia isn t what it used to be For many of us modern memory is shaped less by a longing for the social customs and practices of the past or for family heirlooms handed down over generations and more by childhood encounters with ephemeral commercial goods and fleeting media moments in our age of fast capitalism This phenomenon has given rise to communities of nostalgia whose members remain loyal to the toys television and music of their youth They return to the theme parks and pastimes of their upbringing hoping to reclaim that feeling of childhood wonder or teenage freedom Consumed nostalgia took definite shape in the 1970s spurred by an increase in the turnover of consumer goods the commercialization of childhood and the skillful marketing of nostalgia Gary Cross immerses readers in this fascinating and often delightful history unpacking the cultural dynamics that turn pop tunes into oldies and childhood toys into valuable commodities He compares the limited appeal of heritage sites such as Colonial Williamsburg to the perpetually attractive power of a Disney theme park and reveals how consumed nostalgia shapes how we cope with accelerating change Today nostalgia can be owned collected and easily accessed making it less elusive and often more fun than in the past but its commercialization has sometimes limited memory and complicated the positive goals of recollection By unmasking the fascinating idiosyncratic character of modern nostalgia Cross helps us better understand the

Burnett, Julia Davies, Guy Merchant, Jennifer Rowsell, 2014-07-11 The increasing popularity of digitally mediated communication is prompting us to radically rethink literacy and its role in education at the same time national policies have promulgated a view of literacy focused on the skills and classroom routines associated with print bolstered by regimes of accountability and assessments As a result teachers are caught between two competing discourses one upholding a

traditional conception of literacy re iterated by politicians and policy makers and the other encouraging a more radical take on 21st century literacies driven by leading edge thinkers and researchers There is a pressing need for a book which engages researchers in international dialogue around new literacies their implications for policy and practice and how they might articulate across national boundaries Drawing on cutting edge research from the USA Canada UK Australia and South Africa this book is a pedagogical and policy driven call for change It explores studies of literacy practices in varied contexts through a refreshingly dialogic style interspersed with commentaries which comment on the significance of the work described for education The book concludes on the conversation developed to identify key recommendations for policy makers through a Charter for Literacy Education

Matters of Revolution Dominik Bartmanski, 2022-03-30 Symbols matter and especially those present in public spaces but how do they exert influence and maintain a hold over us Why do such materialities count even in the intensely digitalized culture This book considers the importance of urban symbols to political revolutions examining manifold reasons for which social movements necessitate the affirmation or destruction of various material icons and public monuments What explains variability of life cycles of certain classes of symbols Why do some of them seem more potent than others Why do people exhibit nostalgic attachments to some symbols of the controversial past and vehemently oppose others What nourishes and threatens the social life of icons Through comparative analyses of major iconic processes following the epochal revolution of 1989 in Berlin and Warsaw the book argues that revolutionary action needs objects and sites which concretize the transformative redrawing of the symbolic boundaries between the sacred and profane good and evil before and after and progressive and reactionary the symbolic shifts that every revolution implies in theory and formalizes in practice Public symbols ensconced within actual urban spaces provide indispensable visibility to human values and social changes As affective topographies that externalize collective feelings their very presence and durability is meaningful and so are the revolutionary rituals of preservation and destruction directed at those spaces Far
