Longman Preparation Course for the TOEFL Test Phillips, 2014-07-07 **Effects and Implications of Pragmatic Competence for Enhancing Efl University**

Students Written Performance Barham Sattar Abdulrahman, 2012-12-11 The book *Effects and Implications of Pragmatic Competence for Enhancing EFL University Students Written Performance* highlights the effects and implications of the Kurd EFL students lack of pragmatic competence on their written performance It includes with the written performance of the students at the recognition level and the production level and relies on the results achieved from its instruments the students test the students questionnaire and the lecturers questionnaire Depending on the results obtained from the tools the study tries to identify and find out the sources of errors in the written performance of the Kurd EFL university students The book hypothesizes that the inadequacy of the students written performance could be attributed to the curricula and or the students dependence on the grammatical aspects of the foreign language neglecting the pragmatic and the socio cultural dimensions This gives turn to state that the students written performance is better at the recognition level than the production due to the negative interference of their mother tongue The book concludes that Kurd EFL learners at the university level face serious difficulties when writing in English The inappropriateness of their written performance can be attributed to the negative effects of their first language lack of contact with English native speakers and culture as well as the limited opportunities to have been in English speaking communities Therefore for enhancing EFL university students written performance it is recommended that they should be introduced to the English culture through adding pragmatics and

English Culture as two separate subject matters to the curricula and to arrange summer courses for the students in English speaking countries UK and US in particular *Longman Preparation Course for the TOEFL Test* Phillips,2014-07-07

Rebecca Hughes, Beatrice Szczeppek Reed, 2016-12-19 Teaching and Researching Speaking provides an overview of the main approaches to researching spoken language and their practical application to teaching classroom materials and assessment. The history and current practices of teaching and researching speaking are presented through the lens of bigger theoretical issues about the object of study in linguistics: social attitudes to the spoken form and the relationships between spoken and written language. A unique feature of the book is the way it clearly explains the nature of speaking and how it is researched and puts it into the context of a readable and holistic overview of language theory. This new edition is fully updated and revised to reflect the latest developments on classroom materials and oral assessment as well as innovations in conversation analysis. The resources section is brought up to date with new media and currently available networks, online corpora and mobile applications. This is a key resource for applied linguistics students, English language teachers, teacher trainers and novice researchers.
