Roodyn,2012-12-06 This volume continues the tradition of SUBCELLULAR BIOCHEMISTRY of trying to break down interdisciplinary barriers in the study of cell function and of bringing the reader s attention to less well studied but nevertheless useful biological systems We start with an extensive article by T P Karpetsky M S Boguski and C C Levy on the structure properties and possible functions of polyadenylic acid Apart from revealing a general lack of appreciation of many important aspects of the chemical properties of poly adenylic acid the literature also shows that there is a great gulf between those who study the biological role of polyadenylic acid and those who study its physicochemi cal properties The article by Karpetsky and his colleagues is an attempt to overcome this lack of communication and to present an integrated view of the subject The authors go into the subject in full detail and the more biologically inclined reader may on occasion have to reread

his nucleic acid physical chemistry notes However the effort is worthwhile and the article is a timely reminder that we cannot treat nucleic acids as mere abstractions but that they are complex organic macromolecules capable of equally complex but nevertheless important interactions The next article is by J Steensgaard and N P Hundahl Møller and deals with computer simulation of density gradient centrifugation systems *Understanding Body Dysmorphic Disorder* Katharine A.

Phillips, 2009-02-20 Using stories and interviews to show the many different behaviors and symptoms of BDD and providing a quick self assessment questionnaire Dr Phillips helps readers distinguish between normal concern with appearance and the obsession of BDD She then guides readers through the basics of the disorder and through the many treatment options that work and don't work Drawing on her years of clinical practice scientific research and professional evaluations of over 700 patients she offers the best possible advice available The result is a literally lifesaving handbook for sufferers and their families
