Lord Charles Cornwallis Michael Smith, Army War College (U.S.), 2001 Lord Charles Cornwallis failure to exercise the competencies expected of senior strategic leaders resulted in the loss of the American colonies to the British Empire Why did Cornwallis surrender at Yorktown in October of 1781 when a large British relief force under Sir Henry Clinton was in route from New York Is it possible that Cornwallis regarded as the best British commander in America simply did not comprehend the strategic importance of this battle in determining the outcome of the war and American

independence The purpose of this paper is to examine Lord Charles Cornwallis as a failed practitioner of the strategic leadership competencies as they are defined in the U S Army War College s Strategic Leadership Primer Using the framework of the competencies overlaid on Cornwallis s Revolutionary War career this paper will illustrate that the development of great strategic leaders can be a dangerous learning process fraught with costly errors in judgment particularly while operating within the fog of war The relevance of this examination is that it provides a vehicle from which developing senior leaders can gain insight into the strategic leadership competencies by studying the early strategic failures of a future British Military political superstar who was thrust into a volatile uncertain complex and ambiguous environment in the American colonies Southern Gambit Stanley D. M. Carpenter, 2019-02-21 In a world rife with conflict and tension how does a great power prosecute an irregular war at a great distance within the context of a regional struggle all within a global competitive environment The question so pertinent today was confronted by the British nearly 250 years ago during the American War for Independence And the answer as this book makes plain is not the way the British under Lieutenant General Charles Earl Cornwallis went about it in the American South in the years 1778-81 Southern Gambit presents a closely observed comprehensive account of this failed strategy Approaching the campaign from the British perspective this book restores a critical but little studied chapter to the narrative of the Revolutionary War and in doing so it adds detail and depth to our picture of Cornwallis an outsize figure in the history of the British Empire Distinguished scholar of military strategy Stanley D M Carpenter outlines the British strategic and operational objectives devoting particular attention to the strategy of employing Southern Loyalists to help defeat Patriot forces reestablish royal authority and tamp down resurgent Patriot activity Focusing on Cornwallis s operations in the Carolinas and Virginia leading to the surrender at Yorktown in October 1781 Carpenter reveals the flaws in this approach most notably a fatal misunderstanding of the nature of the war in the South and of the Loyalists support Compounding this was the strategic incoherence of seeking a conventional war against a brilliant unconventional opponent and doing so amidst a breakdown in the unity of command Ultimately strategic incoherence ineffective command and control and a misreading of the situation contributed to the series of cascading failures of the British effort Carpenter s analysis of how and why this happened expands our understanding of British decision making and operations in the Southern Campaign and their fateful consequences in the War for Independence

Habits of Highly Effective Maritime Strategists James Holmes,2021-09-15 Habits of Highly Effective Maritime Strategists is a deliberately compact work aimed at both current and aspiring strategists especially those who concern themselves with strategy at sea and at those who work for or alongside them The volume is meant to help strategic leaders know and educate themselves two of the most important enterprises in the field of leadership James R Holmes reaches back to the classics of philosophy especially to the works of Aristotle the founder of the Lyceum to posit that strategy is a habit Rather he writes it involves cultivating a family of habits To excel at strategy one should learn what excellent strategists do and practice that ritual each day Repetition helps the strategist find virtue which Aristotle defined as the golden mean between the extremes of some trait while shunning vice the excess or deficiency of that trait Over time it becomes second nature to take the long view of national political and strategic ends marshal diplomatic economic and military resources and devise ways to put those resources to work for strategic gain The classics of strategy feature prominently in this work The canon sets forth concepts worth mastering For instance Carl von Clausewitz exhorts strategists to amass superior forces at the decisive place and time while abjuring secondary commitments that scatter resources about the map and risk leaving each force too weak to accomplish its goal In a similar vein Alfred Thayer Mahan devises a formula for sizing fleets to overpower foes in important waters or coastal zones Sun Tzu espouses the indirect approach to strategy and B H Liddell Hart and J C Wylie join the classical Chinese general in his advocacy In the ideal case strategists not just learn but internalize these concepts Harnessing them in the real world becomes effortless

Strategy and Grand Strategy Joshua Rovner,2025-01-17 Wartime leaders should understand the link between violent means and political ends They should also have a sense of how strategic decisions will affect the post war peace Yet they often fail to make these connections Mistaking strategy for grand strategy or misunderstanding the relationship between them can frustrate soldiers and statesmen alike Sometimes it can lead to national ruin In this Adelphi book Joshua Rovner offers a lucid analysis of strategy a theory of victory and grand strategy a theory of security He demonstrates vividly how these concepts interact in case studies from antiquity to the present and he describes the implications for war and peace at a time of extraordinary technological change Rovner s work will prove indispensable to policymakers scholars and anyone seeking to grasp these essential but often misunderstood concepts

Failure Of British Strategy During The Southern Campaign Of The American Revolutionary War Major Jesse T. Pearson, 2015-11-06 This paper investigates the failure of British strategy during the southern campaign of the American Revolutionary War from 1780 to 1781 Following France's entry into the war in 1778 the British Secretary of State for the American Department Lord George Germain believed that Great Britain could expand the war into the south with minimal cost This research traces Lord Germain's strategy from its origin in London in 1778 to its application in the American south by British Generals Henry Clinton and Charles Cornwallis during 1780 and 1781 It also analyzes crucial British engagements with the southern patriot army at the Battle of Cowpens in January 1781 the Battle of Guilford Courthouse in March 1781 and the final withdrawal of British forces from the southern interior following the Battle of Eutaw Springs in September 1781 This research identifies four factors that contributed to the failure of British strategy in the south 1 a false British assumption of loyalist support among the populace 2 British application of self-defeating political and military policies 3 the British failure to deploy sufficient forces to control the territory and 4 patriot General Nathanael Greene's campaign against British forces
