Lorraine Manuel Austin Tx:

Catalogue of the University of Texas University of Texas,1927 Annual Report United States. Cabinet Committee on Opportunity for the Spanish Speaking,1972 Texian Exodus Stephen L. Hardin,2025-01-14 A narrative account of the evacuation of the Texians in 1836 which was redeemed by the defeat of the Mexican army and the creation of the Republic of Texas Two events in Texas history shine so brightly that they can be almost blinding the stand at the Alamo and the redemption at San Jacinto where General Sam Houston s volunteers won the decisive battle of the Texas Revolution But these milestones came amid a less obviously heroic episode now studiously forgotten the refugee crisis known as the Runaway Scrape Propulsive lyrical and richly illustrated Texian Exodus transports us to the frigid sodden spring of 1836 when thousands of Texians Anglo American settlers fled eastward for the United States in fear of Antonio L pez de Santa Anna s advancing Mexican army Leading Texas historian Stephen L Hardin draws on the accounts of the Runaways themselves to relate a tale of high stakes and great sorrow While Houston tried to build a force that could defeat Santa Anna the evacuees suffered incalculable pain and suffering Yet dignity and community were not among the losses If many of the stories are indeed tragic the experience as a whole was no tragedy survivors regarded the Runaway Scrape as their finest hour an ordeal met with cooperation and courage For Hardin such qualities still define the Texas character That it was forged in retreat as well as in battle makes the Runaway Scrape essential Texas history The Military Surgeon ,1926

National Bilingual Clearinghouse Conferences, October/November, 1976, 1976 *Marginal Spaces* Michael Peter Smith, 2017-10-23 The literature on modernist and postmodernist urban development is abundant yet few researchers have taken up the challenge of studying the areas in which marginalized people live as sources of resistance to continued modernization In *Marginal Spaces* Michael Smith has assembled case studies combining structural and historical analyses of the moves of powerful social interests to dominate social space and the tactics and strategies various marginalized social groups employ to reclaim dominated space for their own use The marginal spaces embodied in the title of this fifth volume of the Comparative Urban and Community Research series include five sites of domination and resistance A squatters movement in Ann Arbor Michigan resists the adverse consequences of four decades of urban development A homeless encampment in Chicago engages in guerilla architecture and other moves designed to reconstitute prevailing social constructions of the problem of homelessness An antigentrification movement in the East Village of New York engages in an ongoing struggle to resist efforts by developers to market their neighborhood as space for luxury condominium development There is a Public Housing Council organized by African American women in New Orleans that is resisting both the material regulation of their daily lives and the dominant social construction of public housing as a racially gendered space suitable only for dependent women and children of color Finally there is a subordinate labor market niche in California agriculture where indigenous Mixtec peasants from Oaxaca are displacing the more traditional mestizo farm workers but who are also politically organizing as a transnational grassroots movement pursuing a binational strategy to alleviate their economic political and cultural marginality Contributions and contributors include House People Not Cars by Corey Dolgon Michael Kline and Laura Dresser Tranquillity City by Tahnadge Wright Private Redevelopment and the Changing Forms of Displacement in the East Village of New York by Christopher Mele Resisting Racially Gendered Space by Alma Young and Jyaphia Christos Rodgers and Mixtecs and Mestizos in California Agriculture by Carol Zabin This volume will be of interest to urban planners sociologists and political scientists especially those with strong interests in local ethnography

and concrete policy **Material Design** Thomas Schröpfer,2012-12-13 The approach of Informing Architecture by Materiality opens the way to an innovative use of materials in the design professions Taking material qualities and properties such as texture elasticity transparency and fluidity as a point of departure the concept described and employed here transcends the conventional definitions of building materials Instead the focus is on a multitude of material operations like folding and bending carving and cutting weaving and knitting mirroring and screening The featured design strategies and methods address established and new materials alike They are applied both to the scale of the detail and the entire building The examples comprise prototype structures as well as large building projects Eight chapters deal with surfaces and layers joints and junctions weaving and texturing nanoscale transformations responsiveness the integration of ephemeral factors like wind and light as well as material collections providing professional resources Written by renowned experts in this field the book features many examples from international contemporary architecture The introductory part provides the conceptual background while a final chapter describes consequences for pressing issues of today like sustainability or life cycle assessment **Anuario Hispano** ,1988 **Merchant Vessels of the United States...** United States. Cloud Ethics Louise Amoore,2020-05-01 In Cloud Ethics Louise Amoore examines how machine learning algorithms are transforming the ethics and politics of contemporary society Conceptualizing algorithms as ethicopolitical entities that are entangled with the data attributes of people Amoore outlines how algorithms give incomplete accounts of themselves learn through relationships with human practices and exist in the world in ways that exceed their source code In these ways algorithms and their relations to people cannot be understood by simply examining their code nor can ethics be encoded into algorithms Instead Amoore locates the ethical responsibility of algorithms in the conditions of partiality and opacity that haunt both human and algorithmic decisions To this end she proposes what she calls cloud ethics an approach to holding algorithms accountable by engaging with the social and technical conditions under which they emerge and operate

Apache Adaptation to Hispanic Rule Matthew Babcock,2016-09-26 As a definitive study of the poorly understood Apaches de paz this book explains how war weary mutually suspicious Apaches and Spaniards negotiated an ambivalent compromise after 1786 that produced over four decades of uneasy peace across the region In response to drought and military pressure thousands of Apaches settled near Spanish presidios in a system of reservation like establecimientos or settlements stretching from Laredo to Tucson Far more significant than previously assumed the establecimientos constituted the earliest and most extensive set of military run reservations in the Americas and served as an important precedent for Indian reservations in the United States As a case study of indigenous adaptation to imperial power on colonial frontiers and borderlands this book reveals the importance of Apache Hispanic diplomacy in reducing cross cultural violence and the limits of indigenous acculturation and assimilation into empires and states
